The Standard Oil Company has declared a \$10 Gividend, payable June 16. Coatined strength of L. & N. may be accounted for entirely by the prospects of an increased dividend to 6 per cent, which may be declared at the July meeting. Joseph says : Gould gets the Western Maryland, and is very oullish on all hills properties, especially the Wabash issues. Morgan interests are doing their utmost to avert a coal strike, and have advised Mr. Grangers should be bought and held for substantial improvement. St. Paul will lead the market. Union Pacific, Southern Pacific, L. & N. the Atchisons and South- etns will do better. New York Tribune : The speculative situ- ation is much stronger than it was a few days ago, while the disturbance in stocks has in no way affected the actual invest- ments. In the rest of the week specu- ition will doubtless be under the influence of the collapse in the industrial bubbles end- ed in the first two hours of trading yester- dy. A noteworthy feature of he trading yesterday was the absence of heavy public liquidation. This was doubtless due to the fact that the public is not heavily loaded with securities, the majority of owners be- ing market storms. Immense Relief Felt. The Aurora is one of the successful companies managed by Douglas, Lacey & Co., New York, and the stock was placed in Toronto by Messrs. Butchart & Watson, branch managers, at 71-2 cents per share. The stock was afterwards advanced to 25 cents, and, when the great body of ore was opened up, the stock was entirely withdrawn from sale, and cannot now be obtained at any price, except through holders, who may be content to treble their money and re- sell, as the company themselves make no further sales. It is estimated that the mine can pay 6 per cent. on par and 12 per cent. additional on the treasury, which would equal 72 per cent. on the original price, at 71-2 cents, at which the stock was sold. The Aurora is one of the successful companies managed by Douglas, Lacey & Co., New York, and the stock was placed in Toronto by Messrs. Butchart & Watson, branch managers, at 71-2 cents per share. The stock was afterwards advanced to 25 cents, and, when the great body of ore was opened up, the stock was entirely withdrawn from sale, and cannot now be obtained at any price, except through holders, who may be content to treble their money and re- sell, as the company themselves make no further sales. It is estimated that the mine can pay 6 per cent. on par and 12 per cent. additional on the treasury, which would equal 72 per cent. on the original price, at 71-2 cents, at which the stock was sold.
