**PREMIER BORDEN SPEAKS TO BIBLE SOCIETY**

Canada Voluntarily Sends Sixty Millions in Money, as Well as Men.

Canadian Associated Press Cable.  
London, May 2.—Premier Borden today addressed the annual meeting of the British and Foreign Bible Society here. He said he was proud of the spirit of the people of Canada and the empire, which had risen in full response to the present need. The people throughout the dominions are prepared to do their duty to the end, he said. He had seen in the hospitals here hundreds and thousands of his countrymen who had come across the Atlantic at the call of duty and fought in splendid comradeship with the men of those islands. What would be the outlook of these men after the war when they would go back shortly to their homes? This empire had been called by what is the greatest human agency for good. It might have in the future higher opportunities for world service? Premier Borden mentioned the fact that Canada had sent men to help the allied nations and voluntarily contributed sixty million dollars.

**BOYS AND GIRLS!**  
Time you hurried up into those gardens; the warm weather is coming along. See Sunday World.

**WAR SUMMARY**  
THE DAY'S EVENTS REVIEWED

**RETURNS** issued by the British admiralty last night show that in the past week German mines and submarines sank a total of 51 British ships, 38 being of over 1600 tons burden. The total arrivals and departures of vessels over 100 tons in British ports during the week numbered 406, so that the submarines effected a toll of one per cent. In the past two weeks the rate of destruction was about double the rate in March, and it probably exceeds the rate in the first half of February, when the most intensive warfare began. For the first fortnight of February unofficial reports gave a total of 106 ships as sunk, including a number of neutrals. The figures so far for this month show that the enemy has contrived to send more submarines to sea than in the past. The British admiralty believes that it has done this by violating the territorial waters of neutrals. If this is so, the next move of the admiralty will be the blocking of the exits from neutral waters, a measure justified in self-defence.

The increasing rate of casualties to shipping has stimulated the shippers of the world outside of Germany to the business of producing vessels at a rapid rate. It is necessary, according to Washington officials, to greatly increase the number and size of the shippers and to proceed to work in order not to allow the Germans to dominate the world. Much comment is being made on the fact that the German submarine depredations have increased to an exceedingly great extent.

Both on the British and French fronts the artillery action proceeded with great violence all day yesterday. Even the Belgians report a violent gunnery offensive. The full dominance of the air is passing to the hands of the allies, as was shown yesterday by the destroying of ten German machines, the driving of six others down, and the shooting of another down inside the British lines, all at the expense of four British machines missing. French pilots brought down three German machines and they seriously damaged ten others. These figures make about thirty German machines put out of action in one day.

The other day's Canadian success which brought them to the borders of Fresnoy has made the Germans apprehensive, so that they are bringing up more guns and expending more ammunition in this region than formerly. Before the Canadian lines the German patrols between Arleux and Fresnoy are now keenly on the alert and they call for aid from their artillery at the slightest sign of unquiet British activity. Five British airplanes encountered the five German airplanes in combat near Douai and sent them crashing to earth. Confidence grows in the British ranks that as they proceed into the level country where they most need aerial supremacy they will retain it.

On the eastern front it is the Russian artillery which is delivering the heaviest fire from Riga to Baranovichi. The weight of their preparation is therefore falling upon the lines held by Prince Leopold's army. Russian raiding parties continue their activity in the Carpathians. The Turkish announcement of a Russian evacuation of Mosul, probably true, will create some surprise until the reason is fully known. The Turks have probably massed forces for a counter-offensive to push back the Russian front in this region for a sufficient distance to give them enough leeway to send a force into Mesopotamia, and the Russians are retiring to concentrate on the mountain Sir Stanley Maude is proceeding with success to drive the Turks out of northern Mesopotamia. He has just driven the Turkish 18th Division from both banks of the Shatt-el-Ahmed and his cavalry has pursued the foe into the Jebel Hamrin Hills.

**HOUSE HOLDS FAST TO DEATH PENALTY**  
**GERMANY STILL DEFYING WORLD**

**Liberal Member Voted Down on All Abolition and Release Proposals.**

By a Staff Reporter.  
Ottawa, May 2.—By a vote of 15 to 26 the house of commons tonight defeated the resolution proposed by Mr. Bickerdike, Liberal member for St. Lawrence division, Montreal, declaring that the death penalty should be abolished in Canada. Mr. Bickerdike presented another resolution congratulating the Russian Empire upon its abolition of the death penalty, but this was declared out of order by Mr. Speaker, as was a third resolution, also moved by Mr. Bickerdike, recommending clemency in the case of young Spain, under sentence of death for murder in Manitoba. The Spain case, it is understood, was passed upon at a cabinet meeting this afternoon.

Mr. Bickerdike also suffered another defeat when he moved that all prisoners now in the penitentiaries and jails of Canada be released upon condition that they enlist in the Canadian expeditionary forces. Sir Wilfrid Laurier did not support the motion, but suggested to the minister of justice that many persons in jail for minor offences, and even some convicts in the penitentiaries, might be given a chance to redeem their lives by service at the front. They should not be pardoned, but released on parole. Each case, he said, would have to be decided on its own merits.

**Kaempf's Jingoistic Speech in Reichstag Received With Applause.**

Amsterdam, May 2, via London.—The German Reichstag resumed its session today. The president of the chamber, Dr. Johannes Kaempf, in his opening address, speaking of the entry of the United States into the war, said a mighty opponent had joined the ranks of Germany's enemies. President Wilson in a message to congress on April 2, he declared, said he was waging war against the Germans in the interests of mankind and on the ground of justice. President Wilson, Dr. Kaempf continued, had lost his sight in making this assertion, since he had not entered a dagger to hinder England when England announced her war of starvation against Germany, a violation of all human and international law, which carried on in the interest of justice. President Wilson, Dr. Kaempf continued, had lost his sight in making this assertion, since he had not entered a dagger to hinder England when England announced her war of starvation against Germany, a violation of all human and international law, which carried on in the interest of justice. President Wilson, Dr. Kaempf continued, had lost his sight in making this assertion, since he had not entered a dagger to hinder England when England announced her war of starvation against Germany, a violation of all human and international law, which carried on in the interest of justice.

**Bank Balances.**  
After some discussion the house voted down a resolution proposed by Mr. Ross (Middlesex) declaring that it is advisable that unclaimed balances at present in the chartered banks of Canada should be transferred to the treasurer of the patriotic funds to be used for the usual patriotic purposes. Sir Herbert Ames opposed the resolution, declaring that the patriotic fund wanted only voluntary contributions and that it was receiving enough money to meet all demands which now aggregate \$1,000,000 a month.

The greater part of the day was spent in discussing a resolution, offered by Dr. Steele, in favor of establishing a national department of public health. The debate was adjourned, so no vote was taken, but the general sentiment of the house seemed to be favorable. Dr. Steele, in opening, said that the present war demonstrated how much could be done by intelligent action on the part of governments to avoid disease and prolong life. In spite of the many casualties the fact remained, that more men of military age died at home than at the front. In former wars pestilence and disease killed far more soldiers than did bullets, but in the present war typhoid, tetanus and other sources of armies in the past, had been practically eliminated, as argued by Dr. Steele, if we could do so much for human life on the battlefield, certainly we could increase the average of health at home. He therefore urged that a department of the federal government should be organized, to be known as the department of public health.

**BELFAST IS WRECKED OFF COAST OF BRAZIL**  
Empty Boats Stranded by Disaster—Vessel's Nationality Not Certain.

Rio Janeiro, May 2.—The newspaper, *Noticias*, reports that empty boats bearing the name Belfast have been found stranded near Cabo Frio, off the coast of Brazil. It is supposed, says the paper, that the British steamer Belfast has met with disaster.

**King's Food Proclamation Recalls That of George Third**

London, May 2.—The king's food proclamation is almost identical with one issued by George III., in December, 1800. The only difference being that the older proclamation urged upon the people to reduce the consumption of bread by at least one sixth, instead of one eighth, of George III.'s appeal, moreover, was issued in response to a request by parliament.

**His Viadokology!**

The Lan'mark: Billy kum up from Ot'tway yesterday to be first to walk across th' no viadok me an' Tom Church has bit over th' job, but, as per yousel, we fit him orf. It is another lan'mark that I've giv' to Wee York. Who yuh berryin' to-day, Joe?

Joe: No one, neighbor, I'm looking for The Teacher and Mayoy Hooken and you to join me in giving William a full course dinner on the middle span, Dominion Day.

The Lan'mark: Don't rub it in, Joe! I can't stan' hearin' Billy startin' up th' dokology!

Come in and ask to see the "Balacava." Special price \$30.00. R. Score & Son, Limited, tailors and haberdashers, 77 King Street West.

**NORWAY NEARS WAR.**

Sweden and Denmark May Complete Trip to Break With Germany.

London, May 2.—Relations between Norway and Germany are rapidly approaching the breaking point, according to information received from Christiania. In Norwegian Government circles, the opinion prevails that the maritime situation has become almost intolerable. Norway is trying to induce Sweden and Denmark to join her in suspending all intercourse with Germany and entering the war on the side of the allies.

**Commander Austro-Hungarian Fleet Heads Marine Department.**

Vienna, via Amsterdam, to London. The arrival of 14 ships in Holland's command of the Austro-Hungarian fleet, has been appointed by the emperor as chief of the marine department. The chief admiral, however, will retain his present post as commander of the war fleet.

**Combing Won't Rid Hair Of Dandruff**

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp, and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustreous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

**Arrival of Fourteen Ships Causes Great Joy in Holland**

Amsterdam, via London, May 2.—The arrival of 14 ships in Holland's command of the Austro-Hungarian fleet, has been appointed by the emperor as chief of the marine department. The chief admiral, however, will retain his present post as commander of the war fleet.
