TROOPS ARE CALLED ON

Rioters Got Beyond Control of Police and Town is Under Martial Law.

YOUNGSTOWN, O., Jan. 7 .- One man was killed, 19 persons, including a woman, were wounded more than 5 buildings were burned with a loss estimated at \$300.000, and state troops were called out to restore order as the result of rioting in East Youngstown following a battle between a crowd of strike sympathizers and armed guards at the plant of the Youngs-town Sheet and Tube Company to-

of a strike of laborers which began at the plant of the Republic Iron and Steel Company a week ago and spread to the plants of the Tube Company the Youngstawn Iron and Steel Pany, the Youngstown Iron and Steel Company and the Brier Hills Steel Company, all "independent" concerns. The men demand 25 cents an hour. the companies offer an increase from

19½ to 22 cents per hour.

The trouble started early this morning when strike sympathizers and workers at the sheet and tube plant clashed. Stones were thrown and several shots were fired, but no one was injured. Later in the day a riot ocurred just outside the Tube Company plant, and two men were injured so badly they were taken to a

The most serious trouble started tonight when the day shift at the Sheet and Tube mills left work.

A crowd of 6000 gathered at the entrance of the works and stoned a squad of private policemen in charge of Chief J. M. Woltz, of the Sheet and

Tube Company force. According to a statement made by Wortz he fired a blank shot in the air to scare the crowd and then firing became general. Nineteen in the crowd were wounded, following which the mob, frenzied, surged into the East Youngstown business district and set fire to several buildings. As the torch was applied first to a clothing store and then to a jewelry store, the looting began. A saloon was fired and looted, the liquor being distributed

thru the crowd. The Youngstown fire department went to the scene of the fires, but were driven off by the crowd. The East Youngstown department also attempted to check the blaze, but the hose was cut and the firemen driven away. The flames quickly spread and more than 15 buildings were destroyed. More than 20 families are reported homeless as a result of the fire which at an early hour still was burning be-

Umstead found the situation beyond his control and asked that state troops be sent here. Gov. Willis ordered the Fifth Regiment with headquarters at Cleveland, and the Eighth Regiment with headquarters at Bu-cyrus, to this city. The Fourth Regi-ment at Columbus was ordered to mobilize and move to the scene of the

trouble as soon as possible.

The one man who was killed has not been identified. He was fatally shot while attempting to loot a store in East Youngstown. Someone inside the store fired the shot.

Shortly after midnight reports were received that rioters had started toward Youngstown threatening trouble. Deputy sheriffs left at once to meet them at the city line. According to telephone reports, liquor-crazed men were drinking stolen whiskey from buckets in the firelighted streets of tast Youngstown.

war correspondent, speaking at London, Ont., yesterday, said that

Russian detachment, and hostile attempts to recapture the town were

repulsed.. In announcing this feat, the Russian war office, in its communique

of yesterday, states that three enemy officers, 76 soldiers and a quantity

of barb wire were taken. It is not improbable that the Germans and Aus-

trians have left their lines dangerously thin in order to find men for a

more glittering and less difficult venture than a winter offensive against

Russia. As the enemy is almost sure, in this event, to have entrusted the

defence of his long lines to groups of forces stationed at a rategic intervals,

intense fighting may develop in this region in the near future. On the

other hand, the Russians may have already driven the bulk of the German

forces before them. In such a case, the enemy would now be dangerously

railway junction at Kovel for the past two days, and it may be presumed

that a struggle is now proceeding. Its results will be announced after it is

over. Concerning the operations in the Baltic provinces, the Russian war

said in London, admit that the position of the Teutons in this corner is

critical. Fighting has been of a desperate character, and few prisoners are

tured the first line positions of the enemy in this part of the front, and that

they are proceeding to storm the second line positions. If these are car

ried, the next step will be the forcing of the third and last line of defences.

By that time probably the Austrians will have completed the evacuation of

Czernowitz, if they have not already done so. Austria is said to be main-

taining four army corps on the Roumanian frontier, and reinforcements

test against compulsory service in the army are answered by the hint that

martial law would be proclaimed. As compared with the strength of the

military, the strength of the trade unions is but a shadow. Not all organ-

ized labor is opposed to compulsion. The outery mainly comes from the

syndicalists, who are advocates of the general strike, and in that respect

resemble the Western Federation of Miners. The ordinary international

union is the great bulwark against the spread of such doctrines among the workingmen. Many socialists, including Robert Blachford, have for years

favored universal military service on the Swiss system, with the men elect-

At the adjourned inquest held in front. Holland Landing last night, touching the death of George West of that town, who was killed last Friday evening, while returning from Bradford, the hand car on which he was riding being run down by a freight train, the jury returned a verdict that the accident was due wholly to garelessness on the part of West himself. They further stated that West, at the time of the accident, was trespassing on the prop-erty of the Grand Trunk Railway. The unfortunate man had been to Bradford and was returning on a hand car in company with a friend when overtaken by a train a few yards from Holland Landing station, where they proposed to leave the tracks.
