MacBride, the Labor member for South Brant, who is plowing a lonely furrow this session, raked the government fore and aft for almost everything from the enforcement of the C. T. A. to the smallness of mothers' pensions, with particular reference to the part played by the premier and Attorney-General Raney. Mr. MacBride made it plain that the government was decidedly displeasing and disappointing to him. He was followed by G. C. Halcrow, the newly-chosen leader of the Labor group. His speech in tone was generally favorable to the government, altho he intimated that the G. T. A. and Hydro questions, upon which he proposed speaking later, were not being handled in a manner entirely satisfactory to him. He also announced that he would press for alled to listen to a re er warm ment, altho he intimated that the Q. T. the Allies.

Paris, Feb. 2.—Germany is told exactly how to eliminate the 76,000,000,000,000 marks deficit in her 1920 budget in the report to the allies of the conference of financial experts held in Brussels, made public here today.

Certain German expenses are declared to have been multiplied 76 times over those of 1919 and certain German taxes are shown to be far below those the allied populations are paying. The report says:

"Many figures in the ordinary budget seem to have been established by an administration and parliament equally desirous of showing the world the precarious financial condition of Germany and her difficult situation."

If the various recommendations are followed theb udget should be spedily balanced, says the report. Thus, with a continuation of Germany's economic recovery, the experts declare that Germany. "in a relatively short period, can meet her treaty obligations thru taxation without continuing to increase her floating debt or inflate her currency.

The gates were opened wide for a flood of oratory when a motion for closure was voted down, 36 to 35, securing far less than the requisite two-thirds majority.

Republican leaders sought to avoid closure, but the Democrats challenged their threat, and then promptly defeated the motion. As it now stands, the tariff measure has precedence over all other business except during the "morning hour" of sessions from 12 to 2 o'clock.

At the outset today Senator McCumber, Republican, North Dakota, one of the champions of the bill, sought an agreement for a voice on the bill February 15. His motion was defeated. Other efforts were then made to set a date for voting, but Senator Williams, Democrat, Mississippi, destroyed all hope of agreement by declaring that he would oppose any plans for unanimore currency.

German direct taxes are deemed adequate, but the indirect taxes, including those of alcohol, tobacco, sugar and other articles, are declared to be greatly insufficient, the report saying the allied taxes on the same commodities are vastly heavier, based on the purchasing power of money per capita. The tax on such commodities is seventy times heavier in England and eleven times heavier in France than in Germany.
