MR. BINKS'S STORY

The papers last evening told a story to the effect that 12,000 gallons of whiskey from a Kentucky distillery flowed into a creek and made the fish so drunk that they came out of the water and lay on their backs. "That reminds me," said Mr. Peter Binks, "of my first jag. Another chap and I were fishing at the mouth of a little stream that empties into Full Moon Lake. The other chap had a comb-over on his head, and let it fall into the stream and lay on a rock. A few minutes later I

ended a two pound trout and we had it for supper. After eating the fish we both began to feel very ill, and I, although I did not drink at all, became very much intoxicated. The fish had swallowed the whiskey and had swallowed the fish. I trust, gentlemen," added Mr. Binks, "observing that his audience were eyeing one another somewhat significantly, "that you don't think I am merely telling a fish story. I was never more in earnest in my life."

The assurance was received in solemn silence and the group dispersed. Questions were asked out of Full Moon Lake. Things have come out of Full Moon Lake.
