Preparations are underway here for a grand ceremonial session and field day to be held by Luxor Temple Ancient and Arabic Order of the Nobles of the Mystic Shrine, which will be held at Moncton on July 28 and 29. Some 40 sons of the desert will "cross the hot sands" and be initiated into the order. A large delegation from Saint John will attend.

On Wednesday, July 28, the nobles and their ladies will gather in Moncton and that morning registration will take place. In the afternoon a business meeting will be held and in the evening a grand street parade will take place from the Masonic Temple through the principal streets to the Y.

On Thursday morning all the nobles and their ladies will assemble at the Masonic Temple where automobiles will convey them to the beach. A breakfast of Cogan's Dinner and supper will be served on the grounds and a grand program of sports, boating and dancing will be carried out. A feature of the day will be the awarding of a \$10

The Kind of Soap  
Beauty experts use themselves

A soap made for ONE purpose only: to foster good complexion; and thus, to safeguard yours in this way.

BEFORE Palmolive came women were told "use no soap on your face." Soaps then were judged too harsh.

Then came Palmolive—a soap made by experts in beauty with 60 years of soap study behind it; a soap made to be used freely, lavishly on the skin.

On the advice of beauty authorities, the whole world soon adopted it. Youth preserved, beautiful complexions came to thousands as a result.

Made for one purpose only—to safeguard your complexion—Palmolive affects the skin as no other soap. Just try it one week in this way. Note then your complexion.

The daily rule that thousands follow now

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave

at the Brunswick hotel at 3 o'clock in the afternoon and, at the invitation of Mrs. Roy F. Sumner, will be taken by automobiles to her summer cottage at the Shidiac Cape, where tea will be served at 5 o'clock. The ladies will return at 7 o'clock and be entertained at a theatre party.

On Thursday morning all the nobles and their ladies will assemble at the Masonic Temple where automobiles will convey them to the beach. A breakfast of Cogan's Dinner and supper will be served on the grounds and a grand program of sports, boating and dancing will be carried out. A feature of the day will be the awarding of a \$10

## VISITORS COMING

Charles Robinson, the recorder of the order, who is looking after the arrangements locally, said this morning that several nobles from Kora Temple, Lewiston, Me.; Anna Temple, Bangor, Me.; and Philas Temple, Halifax, would be present and one of the greater days of Shrinedom would be celebrated at this session as it would be the 26th anniversary of Luxor Temple.

Orval B. Dobson, the present illustrious potentate, and a very large committee are making elaborate preparations for the event. Hotel accommodations will be taxed to capacity, according to reports received from the managers.

MACHINE WEIGHS  
WORDS ON PAPER

Delicate Instrument on View at  
Exhibition Recently in  
London

LONDON, July 22.—Words carry weight sometimes, but the written word always records weight avoidings if you have the apparatus to register it. How heavy a word is nobody knows exactly. In pencil they run several millions to the ounce, and it would take hundreds of them to balance a human hair on the scales. No one is likely to want to weigh words cold-bloodedly on a scale, but there exists a machine capable of the feat, and it was shown

at the exhibition of weighing and measuring instruments which has just been held at Caxton Hall, Westminster. A sheet of paper can be weighed in it, words written on the paper, and on a second weighing the sheet is shown to have become infinitesimally heavier. A microscope is required to examine the recording pendulum to gauge the increase.

## FOR SPECIAL USE

"This machine," said an exhibition official, "is used almost exclusively for medical, chemical and scientific work, and is probably the most delicately adjusted apparatus of the kind in the world."

"Another machine for use in shops has such fine mechanism that it weighs anything from a human hair or a cigarette paper to articles up to 40 lbs. One exhibiting firm is so rigorous in the tests for its automatic weighing machines that some of them are subjected to 8,000,000 weighing tests before being passed. This testing operation is

carried out with an electric device which keeps on putting a known weight into the pan and recording the result, the test continuing for many days.

Social Club For  
N. B. Blind Planned

Plans are under way for the formation of a social club of all the blind people in New Brunswick, according to H. A. Smith, of 120 Prince William street, this city, who is vice-president for the Maritime Provinces for the Canadian Federation of the Blind. Mr. Smith said yesterday that he was anxious to obtain the names of all the blind in the province, so that the magazine published under the auspices of the federation could be forwarded to them, and also so that they could be enlisted in the membership of the proposed local club.

Edinburgh Blind  
Ride Free On Cars

EDINBURGH, July 22.—Edinburgh is proud of being the first city in the world to provide, in perpetuity, free rides on the street cars for all blind people.

It is a courtesy extended to all blind people whether rich or poor. On the

outskirts are large workshops for the blind. The employees live all over Edinburgh and the remission of street car fares is said to save the individual something like \$30 a year.

## FOR MID-SUMMER

Rhinestone pins, in animal shapes, are used with the light colored hats of crocheted straw. Crystal pins are also very prominent.

## BORROWED FROM MAN
