Skin Diseases ARE PAINFUL AND UNSIGHTLY.
Among the most prevalent are Salt Rheum, Eczema, Tetter, Rash, Boils, Pimples and Itching Skin Eruptions.
These troubles always arise from the blood being in a bad condition and it is absolutely impossible to eradicate them from the system unless you put your blood into good shape. This you can do without the slightest trouble by using Burdock Blood Bitters.
It drives out all the humor from the blood, and makes it pure and rich. Thousands of people have used it during the last thirty-five years and have been cured.
Mr. Robert Gamble, Jones Falls, Ont., says: "I write with the greatest pleasure to recommend your great blood purifier, Burdock Blood Bitters. My wife and I had itching sores on our face and ears, and tried everything to help them, but found no relief. We saw your B.B.B. advertised and got a bottle, and before it was half gone we both were getting better, and when it was all gone we were cured."
Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

REV. MR. NICHOLS' FAREWELL
(St. Croix Courier)
Rev. Craig W. Nichols, rector of Trinity during the last three and a half years, preached his farewell sermon on Sunday evening to a large congregation. At the close of an admirable address, the reverend gentleman commended the congregation for the success attained in raising all funds by direct giving and urged continued adherence to the principle. The parish was not only free from debt, but in the past three years they had given \$70 to the missionary enterprises of the church. He urged deeper interest in the Sunday school and in the spiritual life of the parish. Mr. and Mrs. Nichols will leave this week for Westfield, St. John county, followed by the best wishes of the entire community.

BETTER DAYS FOR THE JOGGINS MINES
New Developments Will Be Made at That Centre and at Chignecto This Year
(Amherst News)
William Hanson, president of the Maritime Coal Railway and Power Company, accompanied by Mr. Radcliffe Hulme, and Alexander McLaurin, two of the directors of the company, all of Montreal, went to the Joggins Mines today to inspect the property of the company at that place. M. A. Sammett, a well known engineer of Montreal, was with the party. They arrived in Amherst last night and spent the morning in town.
The news understands that the visit of these gentlemen to the Joggins Mines and to Chignecto is of great importance to the future of these two places. It is proposed to install a number of additional electric coal cutters at the Joggins Mines and also to improve the hoisting gear in connection with that slope, as well as to make very many other improvements that will tend to reduce the cost of production and put the mine on a more profitable producing basis.
At Chignecto the company proposes to add a one thousand kilowatt turbine driving generator thus doubling the present capacity of the power plant at Chignecto Mines. The foundation for the new plant will be laid at once and the building to contain it, will be rushed forward to completion as speedily as possible by the generator itself has already been ordered. If at all possible, a duplicate power line will be run from the power plant to Chignecto this season. It is understood that the Company intends prospecting extensively on their Chignecto areas with a view to opening up a new slope. The gentleman mentioned above will probably leave for Montreal at noon tomorrow.
It is to be hoped that every success will attend this new forward movement.

Socialist Procession in Montreal
Montreal, May 2—Following a procession of Socialists in which close to 10,000 people participated, the doctrines of socialism were expounded in ten languages by some forty orators on the Champ de Mars last night.
The procession probably was the largest of its kind ever held here. It was composed of about 5,000 members of socialist organizations. It was orderly.

**It is needless to suffer any longer with rheumatism, and be all crippled up, and bent of shape with its heart-rending pains, when you can surely avoid it. Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood, the poisonous waste matter and ure acid; and it is useless to rub on liniments or take ordinary remedies to relieve the pain. This only prolongs the misery.
The only way to cure rheumatism is to remove the cause. The new discovery, Croxone, does this because it neutralizes and dissolves all the poisonous substance and ure acid that lodge in the joints and muscles, to scratch and irritate and cause rheumatism, and cleans out and strengthens the stopped up, inactive kidneys. You will find it different from all other remedies. There is nothing else on earth like it. It matters not how old you are, or how long you have suffered, it is practically impossible to take it into the human system without results. You will find relief from the first few doses, and you will be surprised how quickly all misery and suffering will end.
An original package of Croxone costs but a trifle at any first class drug store. All druggists are authorized to sell it on a positive money-back guarantee. There does a day for a few days is often that is ever needed to overcome the w backache or urinary disorders.**
