WITTE'E RESIGNATION

It seems that Witte received a letter from the Emable services in the past, and Witte acsignation and the report of M. Goremykin's appointment to the premiership as being equivalent to dismissal. The non-appearance of a rescript accepting Witte's resignation is further cause for comment, and the theory is advanced that the Emperor is still hesi tating, in view of the general expression of opinion in regard to M.
