The walks were crowded last evening and after a number of selections had been played by the band, his worship, Mayor Frink, stepped forward and in an appropriate speech presented Mr. Gallagher with the cornet and stated that he would request him to play a solo on it.

CITY PRINTING ONLY IN UNION SHOPS

Typographical Union Start Movement to Have Council Refuse Printers Who Do Not Recognize Unions.

A movement is being inaugurated by the typographical union to induce the city council to award contracts for city printing only to shops paying union wages and using the union label.

In most cities of Canada and the United States, it is said, the city council insert a fair wage clause in all contracts for civic work and in most cases require the union label on work and supplies as a guarantee that they have been manufactured under fair conditions.

The trades and labor council will, it is expected, take this matter up as soon as it gets down to business and endeavor to bring St. John in line with the cities that have adopted regulations protecting the employer of union labor from the competition of the employers who pay lower wages.

MOVING PICTURES VS. STREET CAR TRAFFIC

General Manager Hopper Declares That Nickel Habit Causes Loss in Operation of Park Lines—Last Cars Today

People can't take car rides and go to moving picture theatres too, so they prefer the picture houses and the street cars suffer.

This is the opinion of H. M. Hopper, secretary of the St. John Street Railway Company, who said last evening that he considered the moving picture theatre craze very largely responsible for the poor patronage accorded to the cars on the Seaside Park line during the summer.

The season has not been a successful one as far as the park lines are concerned. Although the weather has been good the park traffic has not been as large as in previous years and it is Mr. Hopper's belief that the people have preferred the scenery of the moving picture machine route to that afforded in the park and vicinity.

The Sunday travel has been good, but even Sunday crowds have shown a disposition to save their dimes and nickels for the picture houses. If tomorrow is fine the cars will close the Seaside park season on that date.

STREET WORK FOR SEASON COMPLETED

One New Street Named Alexandra Was Laid Out This Summer—Tar McAdam Tests Satisfactory.

The board of works has about exhausted its appropriation for street work and a large number of men will be laid off in a few days. Considerable improvement has been effected in the condition of a goodly number of streets, this summer, though practically all the ward aldermen have complaints because they did not get all the improvements they expected in their districts.

The department has repaired a number of streets with tar macadam and the experiments with this material have turned out very satisfactorily. In addition to the regular repair work, the putting down of permanent paving in different localities, and the construction of a road to further the repair work on No. 2 water extension at least one new city street has been laid out this summer.

This street has been christened Alexandra Row, and on it the W. I. Fenton Land Company have built 11 detached cottages which will be ready for occupancy in a short time.
