## Attack on Turks' Positions Wins Ground For Allied Forces

### Constantinople Admits Success of Allied Attack by Land and Sea, but Claims Gain Offset by Capture of Allies' Trenches.

Amsterdam, Aug. 8.—A land and sea attack on the Turkish positions on Gallipoli peninsula is announced in an official communication issued at Constantinople, as received here today. The Turkish war office admits the loss of ground, but asserts that in another engagement the Turks captured trenches from the Allies.

The text of the official report of the Turkish War Office, whose date of issue is not given in the Constantinople despatch, follows: "Yesterday evening on the Dardanelles front, in the region of Avburnu, our left wing captured some trenches from the enemy by a surprise attack and prevented him from bringing up reinforcements."

"In the afternoon the enemy, after long and violent artillery preparation from land and sea, advanced and made a number of attacks against the trenches on our left wing, penetrating a portion of them. Toward evening, we captured the greater part of the lost ground, and hindered the enemy by our fire from constructing defences in the positions he still occupied."

"On the same day, near Seddul Bahr, we repulsed the enemy, who attacked our trenches on our right wing, south of Saghadere, after long preparation, by artillery and infantry fire. We also stopped a second attack. Part of our foremost trenches was situated for a certain time between our firing line and that of the enemy. By strong attacks in the evening we re-conquered the positions held by the enemy."

"In the Caucasus we continue a vigorous pursuit of the enemy on our right wing. The enemy evacuated his positions near Alashgerd and retreated at Kusedagte."

## VON JAGOW'S BLUNDERS COST HIM HIS JOB

### His Diplomatic Mistakes Not Popular at Berlin and Resignation Will be Accepted, Ill-Health Being Given as the Cause.

London, Aug. 7.—The correspondent at Amsterdam from the Exchange Telegraph Company hears from Berlin the early resignation of Gottlieb Von Jagow, the German Foreign Secretary is probably.

The Minister's retirement will be attributed to ill-health, but the real reason, according to the correspondent's advice, will be due to two blunders, the first being the Austro-Hungarian note to the United States regarding the exportation of munitions which was sent to Washington without consulting the Kaiser, and the second being the revelation contained in the Belgian Gray Book that Herr Von Jagow urged the division of the Belgian Congo between Germany and France.

The Foreign Secretary's successor, the correspondent adds, probably will be Dr. Alfred Zimmerman, under secretary of foreign affairs.

WHEN COBB LOOKED BAD. Jimmy Austin's smartness made T. Cobb look a trifle bad at two different times, writes Norman Beasley in the Detroit Journal, commenting on the game in the recent St. Louis-Detroit series. In one inning Jimmy stretched an ordinary single into a double because he momentarily fumbled the ball and then made a rather lazy return; in a later period Jimmy duplicated, only this time the ball was handled cleanly and Cobb evidently didn't think there

## PROPER ADDRESS FOR OUR SOLDIERS

### Directions for sending mail to Canadians across the sea.

The chief reason why letters addressed to soldiers go astray is that the public in many instances do not address their letters properly. Soldiers are divided into two classes; those who are on active service with their military unit, and those who are sick, wounded or prisoner and therefore outside of active organization.

In each of the two cases there is a different mode of address. Complete instructions have been issued by the information department of the Canadian Red Cross in London, England, as to the procedure in each instance.

This year the call is stronger, the necessity is greater. The crops are ripening fast—the yield is abundant. With the harvest well taken care of, the wheels of prosperity will drive with greater force, and this great country will fulfill the tremendous demands now being made upon it in supplying various products. The harvesting of the crops is therefore of national importance and a national necessity.
