Tigers Win Second Tilt

Sharp Was Hit Hard and Often—Many Side Features
The Shagmen came back strong yesterday and walked all over the Beavers. They hit Sharp hard and often and tired themselves out running around the bases. The final score was 10-3 and Kitchener never had a chance.

Talk about your in-and-outers. Thursday the locals performed like champions behind Rose but they turned around and played like a bunch of sandlotters for Ernie Sharp. It is true, Sharp was hit hard in bunches, but apart from that the Beavers showed about as much pep as a kicked pup. They seemed to lose all energy after the Hams accumulated that three run lead in the first inning.

Apart from the game, the story of which does not make very interesting reading, several side attractions were staged. One of these was a small size riot that threatened to break out in the sixth inning when Lowry ran into Sharp on third base line and some fiery words were exchanged. The crowd surged on the field when the pair nearly came to blows but cooler heads intervened and the bout was called off.

Several of the players in the Hamilton dugout got into arguments with spectators and a free-for-all was prevented when Sergeant Grasser appeared on the scene.

Some very ungentlemanly remarks, alleged to have been made by Manager Shaughnessy, regarding the patriotism of the Kitchenerites, were likewise resented and nearly caused trouble.

In addition to these, Umpire Anderson helped fan the wrath of the fans and players with his raw decisions which caused a lot of wrangling on the part of men of both teams. His work is the poorest of any official who has been seen around the local lot this year.

A bitter feeling exists between both teams and this afternoon's battle with away Gilbert on the mound for Kitchener will doubtless draw a big crowd.

ON THE SIDE

Catcher Lapp, the nineteen year old phenom of the Tigers is the best slinger seen around these parts in many a day. He is also very speedy on the bases.

Dad Stewart, formerly with St. Thomas Canadian League, has assumed the management of the London Tecumsehs, following Hagel's resignation yesterday. Stewart is the fourth leader for the London team since the season began and it is sincerely hoped that the big fellow is more successful than his predecessors.

This has been a bad week for the Saginaw Aces. The leaders of the league dropped their fourth game of the week and the second on two days to Flint when the Halligans defeated them 4-2. It was the first series Saginaw has lost this season.

In a pitchers' duel between Gokey of the Reds and Scott of the Tecumsehs Brantford shut-out London 2-0. Reeves, released by the Sox has been signed by the Indians. Dad Stewart batted for Hagel in the ninth and hit a single.

Coming from behind, the Custers made a strong finish and nosed out the Wolves in a pitchers' battle between Ocker and Cook, winning 3-2.

If President Jackson has any desire to see the Mint League prosper, he will knock down immediately and scour the country for some umpires with better eyesight than those who have appeared here this year. His representatives here thus far have been nothing short of jokes.

Sharp fanned Shaz twice yesterday, but he got on base twice and scored both times. Lapp had four hits but did not score once.

Westlake tried to punt in his accustomed fashion in the fifth but changed his pace after two strikes were called and slammed out a three bagger. He missed the whole thing up, however, after trying to make home on an infield hit with no one out.

FRIEND OF AMHERST STUDENTS

Prof. David Todd, the astronomer who recently took pictures of the total eclipse of the sun from an airplane flying from the west coast of Africa, is better known at Amherst college, Amherst, Mass., as "Deve" Todd, the best house maker for the boys in the whole school, and naturally one of the most popular members of the faculty. It is said that he has helped out several thousand students, with his excuses for them, during the 30 years that he has been "official exonerator" at the college.

One day "Davey" met a Mrs. Fitch walking shamelessly away from the school with her son who had been expelled. He prevailed upon the mother to wait around the campus until he could argue with the board about the boy's expulsion. He was successful and to-day Amherst points proudly to her playwright son—Glyde Fitch.

Prof. Todd, in addition to his astronomical studies, has also invented various improvements for flying machines. He helped Prof. Langley with his experiment 30 years ago.

The body of May Barnhart, the school teacher who was drowned in the St. Lawrence near Chimney Island and sold at my store in Prescott.

Rev. T.A. Rodger, who has been in charge of Dr. Pringle's church during his absence, has received a call to Cornwall Presbyterian Church.

Albert Grant and Samuel Keith two Fredericton, N.B., boys, had a narrow escape from drowning while gathering driftwood, when their boat capsized.

Will of Dr. J. Ewing Mears, Philadelphia, leaves \$100,000 to Harvard University for study of methods of reforming criminals by surgery.

He Was a Big, Hearty Fellow, But—

He caved in because he was weak inside. A husky, strapping outside has no chance without a hardy inside.

Especially in tires, you need the inner strength that goes deeper than a casing. You need the toughest, hardest tubes to give your shoes a chance to render all they are worth.

Begin right by equipping your car with the lusty, full-bodied casings of Silvertown Cords. To end right put Goodrich Tubes in your Silvertowns.

Put in Red Tubes if you wish the full measure of Goodrich long experience and skill in making tubes for tires—or put in Gray Tubes, a long-lasting tube at a shorter price. Red or Gray, Goodrich Tubes withstand age rotting.

For 100% security in your tires, be Goodrich through and through with Goodrich Casings and Tubes.

Then you revel in the easy riding comfort, elegance, and mileage of Silvertowns, the tires with the Twin Red Diamonds on the sidewall.

FORTY-FIRST YEAR

GERMANY WITH TWO

WHAT ITS NOTE SAID TO P

CONFERENCE
PARIS, June 23.—The German in which Germany agrees with reservations, to sign the peace treaty received by the President of the conference at five o'clock evening. The reply of the big through the council of 4, was submitted to the German plenipotentiaries at Versailles.

The German note, dated June 12, and addressed to M. Moncaux, says: "The far-reaching counter proposals of the German government have only in certain received any acceptance. The concessions made only touched the of the conditions in a small of the allied and associated governments have in an ultimatum, which on June 23, confronted the government of the German republic with the condition either to sign the treaty of presented by them or to refuse sign. In the latter case, a comprehensive people has been threatened with the forcible imposition of conditions of peace already presented and with the increase of heavy dues. The German people do wish for the resumption of the war. It honestly wishes for a last peace.

In view of the attitude of the allied and associated governments, German people have no other in its hands save to appeal to eternally inalienable right to an independent life, which belongs to the German people as to all peoples. The government of the German Republic is, nevertheless, ready to the conditions of the allies with reservations. It is not one of its Representatives of the German Republic solemnly declares its attitude is to be understood in sense that it is yielding to force, but resolved to spare the German people whose sufferings are unspeakable a new war, the shattering of its nationality by further occupation of G

New Tire Company on The

The First Steps

WILL BE LSH

"Monday morning?"
This reply by Mr. T.H. Rieder, president of the Ames-Holden-McCreedy Company Ltd. who are about to erect a big tire factory here, in diates with what dispatch the company will build its plant. The question asked of Mr. Rieder was whether the operations of erecting the factory on the Bowly property on Wellington street would commence.

The fact is that instructions of the company are that the preliminary preparations on the property are to commence immediately. Men were at work today. The first operation of course are putting the property into shape so that excavating can be proceeded with. This means that some of the trees on the ground must first be removed.

Will Build at Rear.
It was learned from Mr. Rieder that the new factory will be erected at the rear of the property. For the present at least the residence does not have to be removed. The building will be in an L shape. A part will be along Wilmot street and the other section behind the residence extending towards the G.T.R. tracks. It will be a four story structure and will be reinforced concrete and brick construction. The exact dimensions of the building however are as yet not known. It will be built on the unit system and it can be added to readily as the demands on the business grow, and it will be a modern structure in every way.

The front part of the property will be kept in the appearance of a park. Ultimately the plant will be one big E shape. There will be plenty of room for expansion along Wilmot street and King.

What about the cost of the building? The Record queried of Mr. Rieder.

"We don't know as yet. We have put aside one million dollars for the purpose and that is all that we know. When building you must make an estimate and put so much aside. Should you later find that the cost is less than that you can reduce that amount," he replied.

It is the company's intention to make time for the 1920 market. Asked whether the plant could be finished in time Mr. Rieder said it could.

"By Christmas you can have your machinery in and by February you can be finishing and by March you can be making tires," he remarked.

Mr. Rieder states that the contract for the work has as yet not been let.

It is understood, however, that a
