THE CIVIC COMMITTEES.

The new City Council are to be con gradulated upon the composition of the various committees as drafted at the caucus yesterday afternoon So far as has been learned by the public the arrangement was made most harmoniously, which is well since it gives promise of unanimity and co-operation among the aldermen. And union is strength.

The only alderman, it is said, to enter any objections was Ald. Mc-Coig, who declined to accept the responsibilities and duties of a position on the Board of Works.

The committees all appeared to b well and energetically manned. Ald. Marshall, McCloig and Scullard compose a strong board of Finance. Ald Mounteer, Piggott and Robinson have accepted duty on the Board of Works They will have a heavy year before them, but a zeallous, enterprising and economic devotion to the duties of their office will bring due recogni tion at the hands of the electorate Ald. Taylor remains at the head of the Property committee, where he has already done good work and will have associated with him two energetic colleagues in Ald. Edmondson and Martin. Ald. McCoig has charge of the Parks and Cemetery committee and gives promise of a good year's

The Planet is pleased to see that the Industrial committee is an exceptionally strong one. Ald. Piggott Scullard, Robinson, Edmondson and Martin, with his worship Mayor Mc-Keough, who is a member ex-officio of all the committees, form a mos promising Board and Chatham should prosper under its regime.

Taken in all, the new Council is deserving of the congratulations of the citizens on the draft of its com-

THE GLOBE'S DISGRACE.

Time was when the Toronto Globe was respected alike by political friends and opponents. But the prestige inherited from the sturdy honesty and fair-mindedness of Hon. George Brown and fostered by Mr. J. S. Willison is, unfortunately, passing from off his coat and be doing, when it it. During the past week the Globe comes to handling the manifold duties ideals have slumped as, perhaps, never before. It has given an example of ning and dishor esty which will prove a great misfortune to its heretofore worthy record in Canadian journalism.

As to the advisability-or, even, propriety-of the Toronto managers of the two political parties arranging to keep from the public the agreement arrived at by which Hon. Mr. Davis pledged himself to resign his seat if proceedings against him were abandoned and paid all the Conservative costs The Planet takes issue. But this course having been decided upon, the report of the Globe that the proreedings had "been settled and abandoned" was not only a breach of faith, but a misleading and dishonest statement which does the Liberal organ no credit and cannot be made defensible of the time

Treachery and untruth do not rest gracefully on the Globe and its record, and its feeble attempt at explanation on Thursday was very disappointing.

Truth to tell, the Globe must brace up very speedily or soon lose all its prestige with the reading public. The resignation of Mr. Willison, the late mediately by that of Mr. John Lewis, the capable assistant editor, and othstaff, is very significant. Rev. Mr. Macdonald, the new editor, is away taking a rest. This is a pity, be cause the people would like to know what the reverend gentleman thinks

years conducted the editorial department of the Globe, pays its attention to Premier Ross in very plain language-the language, be it remembered, of a man who for years has been intimately associated with the Liberal party in both local and Dominion olitics, but who, now that he is freed from party bonds, can speak honestly and fearlessly. The following editorial from Tuesday's News will prove interesting reading for many of our Liberal friends:All the world loves a good fighter

All the world loves a good fighter. In the political world, the popular man is he who has the courage and the ability to give a Roland for every Oliver that comes to him. Hon. G. W. Ross has always been a good fighter. His courage is undoubted, and his ability has carried him through many of the difficult places in a long political career. In imputing unworthy motives to Hon. S. H. Blake for his scathing indictment against the election methods of the Ontario Government, Mr. Ross is not fighting fairly or wisely. He seems to have lost his tion methods of the Ontario Government, Mr. Ross is not fighting fairly or wisely. He seems to have lost his head and is striking out wildly. Hon. S. H. Blake has always been a fighter on the side of the Liberal party in politics. He has never failed to show that he is a man of strong convictions, well able to vigorously express those convictions. By insinuation and innuendo, Mr. Ross would have the public believe that Mr. Blake's present indictment against the Ross Government is born of the refusal of the Government to accord a favor to clients of his. There is no direct charge, but a skilfully couched insinuation to that effect. Mr. Ross may be warranted in making this insinuation, but no one who knows anything about Mr. Blake's record will be likely to take such an implied charge seriously. A lawyer with the acknowledged ability and money-earning reputation which Mr. Blake has had for so many years is not likely to be swayed in his juagment by the refusal of a request made on behalf of clients of his. This kind of political warfare is unworthy of a man of the ability of the Premier of Ontario. clients of his. This kind of political warfare is unworthy of a man of the ability of the Premier of Ontario. Surely he does not expect the public to believe that Mr. S. H. Blake, K. C., has been guilty of a fault which would injure the reputation of the meanest kind of political fighter. Wild blows of this kind won't help Mr. Pess in the present emergency. Mr. Ross in the present emergency He has not attempted to answer the serious charges contained in Mr Blake's indictment against his Admin istration, except by the miserable sub-terfuge of the to quoque. His evident and unfair animus against Mr. Blake personally only shows how hard he has been hit. Mr. Ross has not yet risen to the occasion.

Make 1903 a record-breaking yea for prosperity in our fine young city

The new Council will formally take the reins of control Monday morning Here's success to them!

Chatham should secure some exellent results from her strong In dustrial committee this year.

Whatever has happened the excellent proposal to hold a Chatham Old Boys' Reunion? If anything is to be done this year, now is the time do it.

The Planet congratulates Dr. J. L. Bray on his election, for the fifth consecutive year, as chairman of the Roard of Watter Commissioners. And no one is more deserving of the honor.

Our good friend, Ald. McCcig, evidently believes it is much easier to stand aside and criticise than take of the city Board of Works.

Mayor McKeough's se fort to secure free water for a skating rink for the young people on Tecumseh Park will win him the plaudits of both young and old. There is no more healithy or invigorating amusement and a park rink will do away with all the fears of danger associated with skating on the river.

THAMESVILLE FIRST.

Mr. Drader laumohed into this business in Thamesville, after leaving Petrolea, where he had done a little oil business. It was 1880 when he started in Thamesville and soon had branch cooperages in Glencoe and Bothwell.

NORTHWOOD AND CHATHAM.

A few years later he extended his scoop by startting a cooperage stock mill in Northwood, which was followed in a few more years by a branch cooperage in Chiatham. When he started his cooperage here he secured the contract for making the barrels for the T. H. Taylor Co. MOVED HERE.

In 1897 Mr. Drader appeared in Chatham himself and purchased the well known VanAllen mills in North Chatham, putting them in operation and turning out stock. RIDGETOWN AND DRESDEN.

Mr. Drader has sines established a cooperage in Ridgetown, and this fall in connection with the Dresden sugar factory started another cooper-age to make the sugar barrels.

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and strengthen it against their return.

I appiness.

The year just closed has been a memorable one for Paine's Celery Compound. A multitude of men and women, weakened, nervous, rundown, and suffering the pains and agonies of disease, have had their burdens removed and their feet firmly planted on the solid rock of health.

Stirring political events of the past year, the colossal efforts of trusts and monopolies, the recent miners' strike and other notable events will be quite forgotten in a few weeks or

and monopolies, the recent miners strike and other notable events will be quite forgotten in a few weeks or months. Not so with the strength after weakness, the new life after years of suffering, the robust health after wasting disease, the permanent cure after the verdict of "imourable" pronounced by the physician. These glorious remembrances and blessings, and the happy assurance that Paine's Celery Compound makes sick people well, will be indelibly graven on the mind as long as life lasts.

The victories of Paine's Celery Compound over disease in the past year are apported by thousands of testimonial letters from the best people of the land. Medical journals have noted the blessed work, and physicians have been compelled to indorse the lice-saving virtues of earth's best medicine. It matters not, dear reader, how had your case may be, give Paine's Celery Compound an honest trial, and you will surely share the blessings it has bestowed on others.
