CAPE BRETON COAL OUTPUT.

The Halifax Herald reports the shipments in round numbers for the Cape Breton mines during 1893 as follows:

Sydney mines.....	200,000
Victoria	100,000
Bridgeport International Gardner.....	185,000
Reserve	132,000
Little Glace Bay ..	114,000
Caledonia	152,000
Gowrie.....	120,000

This makes a total of over a million tons. The accident to the Victoria mines last fall in the bursting of boiler, and the burning of the part head of the International, somewhat lessened the output of these mines.

BRASS MANUFACTURERS' ASSOCIATION OF CANADA.

The object of this Association is to drive out of the market the inferior lines of brass work which have lately been introduced, and to manufacture none but standard goods. Every manufacturer of standing is a member of this Association, and well pleased with the results already achieved. A meeting was held on the 11th and 12th ult., at the Queen's Hotel, Montreal, at which it was unanimously decided, owing to the friendly feeling which existed between the members, and the very-satisfactory way in which they had worked together during the previous year, to extend the present arrangements for another year, or until further notice. No change in prices was made, on account of the low price at which American goods were being imported. The general feeling was that the Canadian Government should withdraw the duty on raw metals, as it was impossible to meet the keen competition now existing. There was some talk of the brass manufacturers forming themselves into a joint stock company, and it is not unlikely that this question will soon be finally settled.

WEBSTER'S
INTERNATIONAL
DICTIONARY

Successor of the "Unabridged."
 Ten years spent in revising, 100 editors employed, more than \$300,000 expended.
 A Grand Educator
 Abreast of the Times
 A Library in Itself
 Invaluable in the household, and to the teacher, professional man, self-educator.
