W8/W17

Without this label  it is not a genuine Kitten.

Scope for thinking men

We need thinking men and women at IBM. Thinkers who can sit back and look at a problem from every angle and develop a working solution... then see that it is carried out. There is plenty of scope for their imagination; plenty of room for professional growth. And the rewards are substantial.

These men and women receive extensive training in advanced data processing methods. They enjoy freedom of expression and have freedom to carry out their own ideas with minimum interference.

They can be engineers, mathematicians, scientists or have majored in liberal arts or business studies.

We have customers in all industries, in commerce and finance, and in scientific fields. Graduates are thus able to work in their chosen profession solving the complex data processing problems peculiar to that particular industry.

If you have a keen mind and enjoy challenge, write to the Executive named below for information on professional positions available.

717-7th Avenue S.W., Calgary, Alberta, AM. 6-2071
Western District Manager—W. Dinsdale

IBM.
