Soldier gave sworn evidence. No record of any plea in mitigation by defending Officer. This soldier has long service and is young. He served originally in front line with 48th Highlanders. He had a good record with new regiment but was drinking Vino on this occasion. Accused was very worried about a comrade who had been seriously injured in an accident and claims he was muddled at the time. He is only male support of his mother. Claims to have had 7 to 8 months service with 48th Highlanders in line at Ortona and Gothic line when he was knocked out with blast. Later he had fever. After he was AWL, he thought he might as well take a holiday since he thought he would receive a stiff sentence. He had been drinking.
