

Directions for Shipping Produce

Butter, Eggs, &c.

I very frequently have letters from my customers, asking me what price I can give for Butter, Eggs, Poultry, &c., so I take this opportunity of replying in general.

Any of my customers having Butter, Eggs, Poultry, &c., to dispose of may ship them to me and I will sell them and make returns as soon as sold. But I do not buy them myself simply sell them to my customers in the City at the highest prices I can get.

In shipping any produce always send a letter and state whether you wish me to remit the money or or place it to your credit.

It is very convenient for the Farmers to have a place to ship their Butter, Eggs, Poultry &c., and receive Toronto Cash prices, and I do not charge any commission for them, as I have a large number of Storekeepers in Toronto who deal with me for Groceries and expect me to supply them with Butter, Eggs, Poultry &c., so I can oblige the Farmer and Storekeepers at the same time.

I have quoted lowest Wholesale Prices on my Tea, and I am satisfied if you give them a trial, you will continue to use them as they are exceptionally good values.

In future I will allow two and a half cents per pound on Tea ordered by the half chest as it costs me about that much to put it in caddies. This will be freight paid to your nearest Railway Station. Half chests Tea weigh from 60 to 70 pounds.
