

- Hemorrhage from venous sinuses in uterine mucosa, adenomyoma and, differentiation, 179
 in adenomyoma, 173
- Hydrosalpinx, 29, 166, 241
- Hypertrophy, gland, of endometrium, 140, 149, 246
 of cervix and diffuse adenomyoma, 200
- INTERSTITIAL adenomyoma, 138
- Intraligamentary adenomyoma, 145
 case of, 149
 cystic, 148
- LIGAMENT, round, adenomyoma of, 250
 origin, 252
 right and left, adenomyoma in, in same person, 254
 utero-ovarian, discrete adenomyoma of, 141
- MILIARY abscesses of ovary, 240
- Miniature uterine cavities, 3, 69, 100, 141, 161
- Mucosa, uterine, atrophy of, 133, 240, 241, 244
 edema of, 50, 128, 133
 hemorrhage into and thickening of, 24
 hypertrophy of, 140, 149, 246
 in adenomyoma in which uterus preserves relatively normal contour, 6
 polypi of, 75, 97, 178
 stroma of, proliferation, associated with copious uterine hemorrhage, differentiation from adenomyoma, 180
 venous sinuses in, and adenomyoma, differentiation, 179
- Multiple cysts in subperitoneal myoma, 128, 132
- Myoma and adenomyoma, differentiation, 182
- Myomatous thickening, diffuse, but no glandular invasion of uterine walls, 230
- OSTIUM, accessory, of Fallopian tube, 241
- Ovary, adenocystoma of, 97, 238
 condition of, in adenomyoma, 171
 cyst of, 34, 50, 60, 82, 93, 97, 166, 238, 245
 with carcinomatous changes, 238
 miliary abscesses of, 240
 papillocystoma of, 166
- PAIN in adenomyoma, 173
- Papillocystoma of ovary, 166
- Pathological changes, multiple, in the pelvis, 228
- Pelvic adhesions, 24, 31, 33, 34, 46, 47, 50, 64, 67, 82, 84, 97, 103, 108, 109, 138, 149, 166, 171, 240, 245
- Pelvis, pathological changes in, 228
- Physical examination in adenomyoma, 175
- Polyp, and adenomyoma, differentiation, 178
 glandular uterine, 75, 97
- Pregnancy, in left Fallopian tube, 246
 relation of adenomyoma to, 174
 tubal, and adenomyoma, differentiation, 184
- Proliferation of stroma of uterine mucosa associated with copious uterine hemorrhages, adenomyoma and, differentiation, 180
- Purulent salpingitis, acute, 46
- ROUND ligament, adenomyoma of, 250, 252
 right and left, adenomyoma in, in same person, 254
- SALPINGITIS, 84, 171
 acute purulent, 46
 and adenomyoma, differentiation, 184
 chronic, 46, 240, 244
- Sarcoma and adenomyoma, differentiation, 183
- Sinuses, venous, in uterine mucosa, and adenomyoma, differentiation, 179
- Squamous-cell cancer of cervix, diffuse adenomyoma of body, 206
- Stroma of uterine mucosa, proliferation of, associated with copious uterine hemorrhages, adenomyoma and, differentiation, 180
- Submucous adenomyoma, 149, 156, 158, 160, 161, 163
 cases of, 158
 origin of, 195
- Subperitoneal adenomyoma, 114, 125, 138, 139, 140, 145
 cases of, 128
 cystic, 128, 132
 origin of, 194
 multiple cysts in, 128, 132
- THICKENING, and hemorrhage from uterine mucosa, 24
 in adenomyoma in which uterus preserves relatively normal contour, 2, 3
 diffuse of uterine wall, but no glandular invasion, 14, 22, 64, 230
- Tubal portion of uterine horn, adenomyoma from, 236
 pregnancy and adenomyoma, differentiation, 184
