SURPRISE

A PURE HARD SOAP

SURPRISE

is pure hard soap made of the finest
greatest material by the best available
machinery, and is sold at the
same price as ordinary soap.

Work.

"Anyhow you can't deny that Hew-
litt is a self made man. He worked
his way through college."

"He certainly did. He worked near-
ly every student in the institution."

His Floundering.

"Isn't Mr. Teague a deep thinker?"

"He must be," answered Miss Cay-
enne. "I never heard him try to say
anything without getting beyond his
depth."

BROKEN SLEEP—TIRED NEXT MORNING.

Sleep not only rests, but builds up
the body. Out down the hours of
sleep, and you cut down health in
the same proportion. Rebuilding
then ceases, nerves go to smash, you
grow tired, weak and wretched.

To restore sleep you must get more
bodily strength, more nutritious
blood, healthier nerves. Ferrozene
solves the whole problem, makes you
sleep soundly, gives endurance, vim,
ambition. No more morning weak-
ness—instead the fire of youth will
run in your veins, supplying abun-
dant energy and vigor. With every
express the instant effect of Fer-
rozene; try it.

Overcome.

Timson—I never fainted away but
once, and that was just a few days
ago. Timson—What was the cause?

Timson—My wife told me that she had
trained herself, so she could walk
through a store full of bargain counter
sales with her purse full of money and
never buy a thing.

Paradoxical.

Smith—You remember Muggins, who
used to bore us with his long winded
stories? Jones—Yes. What of him?

Smith—He was arrested yesterday for
being short in his accounts.

SELL YOUR COLD FOR \$1!

You surely won't stop at a dollar
bill to cure that horrid, sniffling
cold? Go to any drug store and get
a bottle of Catarrhzone, and you will be
a thing of the past. There is almost
nothing in the world so swift as Catarrh-
zone kills colds. But when you con-
sider the penetrating, healing and an-
tiseptic qualities of Catarrhzone
perhaps it's not so wonderful. Cer-
tainly there is no remedy half so
prompt for colds and catarrh as Ca-
tarrhzone. Refuse a substitute and
insist on having only "Catarrh-
zone."

Sure of One Thing.

"The life of an insurance agent,"
sighed Preynums, "is full of worm-
wood and gall."

"I hadn't noticed the wormwood,"
growled the victim.

No man can answer for his courage
who has never been in danger.—Boche-
foucauld.

A puny child is always an anxiety
to the parents. There seems gen-
erally no reason why the little one
should be weak when it is so well
fed. But the fact is that it does not
matter how much food the child
takes if the stomach cannot extract
the nourishment from it. No benefit
can be derived from just eating.
That is the condition of many a
sickly child. The stomach and or-
gans of digestion and nutrition are
not doing their work, and the body
is really starving. It is little use
to give fish foods, like cod liver oil or
emulsions, in such a case, because
these also have to be digested; they
may lighten the stomach's labor, but
they don't strengthen it. Strength
is what the stomach needs. Dr.
Pierce's Golden Medical Discovery
Strength is what the stomach needs.
Dr. Pierce's Golden Medical Discovery
gives strength to the stomach, nour-
ishes the nerves and increases the ac-
tion of the blood-making glands. It
is for children's use, on account of
its superior to every other prepara-
tion body-building qualities, and also
because it is pleasant to the taste,
and contains no alcohol, whiskey or
other intoxicant. Dr. Pierce's Pleas-
ant Pellets are a valuable aid when
the bowels are irregular. They are
small. Children take them readily.

Too much haste has been known
to ruin more than one good cause.

CORUNDUM AND EMERY.

Canada the Great Future Source of
Supply—Six Years Ago She Did
Not Produce a Pound.

The rapidly increasing use of corun-
dum and emery has aroused a good
deal of interest regarding the sources
of supply. The island of Naxos in the
Mediterranean was for several cen-
turies the only source for the supply
of emery. It occurs there in crystal-
line limestone in the form of kidneys,
some of which are quite large. The
Lauries Smith says that the largest
consisted of a mass that must have
weighed from thirty to forty tons. The
natives mine it in a very primitive way
by building fires on the rock and then
throwing water on it when it is heat-
ed. The sudden contraction on cooling
causes the rock to split. Each miner
works for himself. He is given a li-
cense to mine from the Government
and sells the emery to the Government
at a fixed price. The Government
what might be described as an export
duty upon it and sells it to purchasers
who go there for the purpose.

Another source of supply which was
discovered in 1847 is near Smyrna in
Turkey-in-Asia. There, as in Naxos,
the emery is mined in a very primitive
manner. It is then transported on the
backs of camels to the Port of Smyrna,
the average distance being from
100 to 200 miles.

Corundum has been produced in
small quantities for the last thirty
years or more by the mines of North
Carolina and Georgia. The southern
deposits, however, are of secondary
origin and are, therefore, pocketed, so
that the supply was always irregular.
In fact so little of it was on the mar-
ket that many users of abrasives did
not know what corundum was.

Six years ago Canada did not pro-
duce a pound of corundum; now she
is producing over ninety per cent. of
the world's supply.

In addition North Carolina, India
has also been a small producer of corun-
dum for many years. In mining for
rubies and sapphires all crystals of
impure color are broken up and used
as abrasives. The by-product of this last
year was from fifty to sixty tons.

Apart from Canada, Montana is the
only other known source of supply. In
Montana the corundum occurs in small
dykes of veins. One of the more prom-
ising of these was opened up last
year and a small mill put upon it. It
is said to carry from ten to twenty per
cent. or more of corundum, but it only
from eighteen inches to two feet in
width. The corundum is somewhat
like the one that is mined in India,
and of good quality. The output so far,
however, has been only about 25 tons.

About five years ago Canadian geol-
ogists discovered that there were im-
mense deposits of crystal corundum in
Eastern Ontario. Considerable ex-
ploration followed and the Government
withdrew them all from sale. After-
wards arrangements were made by the
Government with a Canadian syndi-
cate. This syndicate agreed to spend
a large amount of money in develop-
ment. In return it was given first
choice of locations and accordingly
chose the different deposits that it
considered to be valuable. The largest
of these deposits was immediately
opened up and for the last three years
has been a steady producer.

The increase in Canada's production
has been quite rapid. It was in 1899
that the first shipments were made and
they amounted to only a few thousand
pounds. In 1901 the output was 25,000
pounds and in 1904 it was 2,100,000
pounds. This year the output
will, no doubt, be further increased, as
the syndicate or company is putting in
further additions to its plant.

The Canadian Government calculates
that corundum can be produced at a
price to compete with emery, even
though the price of emery be materi-
ally reduced. This advantage in produc-
tion together with the fact that corun-
dum is a much more durable and
valuable material than emery, should
soon give Canada almost a
monopoly in the production of nat-
ural abrasives. Already nearly all the
large machine shops in the United
States are using wheels made of Cana-
dian corundum, and the shipments to
Europe, especially to Germany and
France, are increasing very fast.

A Battle With Wolves.

A thrilling story of a trapper's bat-
tle with wolves comes from Cape North
the extreme northern point of Cape
Breton. John Macdonald, a well-known
trapper, told that place, while returning
home from his traps in the evening
was attacked three miles from the set-
tlement by a pack of five wolves. Hear-
ing the sharp yelping of the animals
close upon him, he turned to see his life,
but as they rapidly gained, he awaited
their coming with a loaded gun. His
first shot brought down the leading
pursuer, and for the moment stopped
the others in their course. A shot from
the second barrel of Macdonald's gun
disposed of the second pursuer, and
the pack paused long enough to permit
the man to load again. The three re-
maining wolves then again dashed for-
ward, and one of them fell a victim
to the trapper's gun. He was right upon
him. A terrific fight ensued, Macdonald's
clothes being torn and his arms terribly
lacerated, but he still managed to keep the
furious animals from his throat. The
wolves were crying loudly for help, and
he was returning home by another path,
heard his cries and rushed up.
The two remaining wolves then turned
and fled, leaving Macdonald bleeding
and exhausted on the ground.

More Conscience Money.

On Wednesday morning of last week
Mr. R. Trimble received a letter from
a gentleman residing in Holland Town-
ship, the letter being posted at Mark-
dale. The contents of this letter were
a surprise to Mr. Trimble, and were
worthy of being made public. They
consisted of a dollar bill and a note to
the effect that the writer some 40 years
ago had purchased half a pound of in-
toxic, pure "conscience" and which had
never been paid for. The note quaintly
ended with the following postscript:
"Quit tobacco twenty years."

At the time of this purchase Mr. Trimble
kept a store about a mile north of this
village on the Toronto and Sydenham
line.—Hasterton Advance.

The Woman Bore.

That woman is a bore who recounts
all the nice and silly things said to her
by supposed admirers.

CAPT. GRAHAM'S

GRATITUDE

Suffered from Sores on Face and
Back—Doctors Took His Money
But Did No Good—Skin Now
Looks Clear as a Baby's.

ANOTHER CURE BY
CUTICURA REMEDIES

Captain W. S. Graham, 1221 Roff
St., Wheeling, W. Va., says: "I am so
grateful I thank God that a friend
recommended Cuticura Soap and
Ointment. I suffered for a long time
with sores on my face and back. Some
doctors said I had blood poison, and
others that I had barbers' itch. None
of them did me any good, but they all
took my money. My friends tell me
my skin now looks as clear as a baby's,
and I tell them all that Cuticura Soap
and Ointment did it."

STILL ANOTHER CURE

Neck Covered With Sores, Hair
Fell Out, Wild With Itching

Mr. H. J. Spalding of 104 W. 104th
St., New York City, says: "For two
years my neck was covered with sores,
the disease spreading to my hair,
which fell out, leaving an unsightly
scalp spot, and the sores, inflamma-
tion, and merciless itching made me
wild. After a few applications of
Cuticura the sores subsided, the
scalp disappeared, and my hair grew
thick and healthy as ever."

AND STILL ANOTHER

"For over thirty years I suffered
from painful ulcers and an eruption
from my knees to my feet, and could
find neither doctors nor medicines to
help me, until I took Cuticura which
cured me in six months." (Signed)
M. C. Moss, Gainesville, Tex.

Cuticura Soap, Ointment, and Pills are sold throughout
the world. Depot, London, 47, Chancery Lane, E.C. 4.
Sole U.S. Agents, J. C. Ayer & Co., Lowell, Mass.
Sole Canadian Agents, J. C. Ayer & Co., Toronto, Ont.

The Explanation.

"Oh, no, she isn't going to accept
him."

"Then, why does she encourage
him?"

"Why, because there isn't any one
else to encourage."

When a man seeks your advice he
generally wants your praise.—Chester-
field.

DEAFNESS CANNOT BE CURED

By local applications, as they can-
not reach the diseased portion of the
ear. There is only one way to cure
deafness, and that is by constitutional
remedies. Deafness is caused by an
inflamed condition of the mucous
lining of the Eustachian Tube. When
this tube is inflamed you have a
rumbling sound or imperfect hearing,
and when it is entirely closed, Deaf-
ness is the result, and unless the in-
flammation can be taken out and this
tube restored to its normal condi-
tion, hearing will be destroyed for-
ever; nine cases out of ten are caused
by Catarrh, which is nothing but an
inflamed condition of the mucous
surfaces.

We will give One Hundred Dollars
for any case of Deafness caused by
Catarrh that cannot be cured by
Hall's Catarrh Cure. Send for circular,
free.

F. J. CHENEY & CO.,
Toledo, O.

Sold by Druggists, 75c.
Take Hall's Family Pills for con-
stitution.

Canadians Love a Lord.

"There appears to be one tempta-
tion in democracy," said Mr. Colqu-
houn, in his talk at the Canadian
Club in Toronto, "which democrats
cannot resist, and that is to be slap-
ped on the shoulder by a real live
English lord. It is sometimes said
that that treaty was floated through
on champagne. That statement is
based on a casual remark in a letter
from Lord Elgin's secretary, in which
he said that champagne was the hands
of a skilful diplomat was not with-
out its uses."

Don't brag about your future if
your past won't stand close scrutiny.

MINARD'S LINIMENT is the only
Liniment asked for at my store and
the only one we keep for sale.

All the people use it.

HARLIN FULTON,
Pleasant Bay, O. E.

THE FAST TRAINS.

To California are run over the
Union Pacific, via Omaha, 16 hours
quicker to San Francisco than any
other line. No change of roads, no
detours. "The Overland Route" all
the way. Be sure you take the fast
train. Union Pacific. Inquire of
E. F. Carter, T. P. A., 14 James
Building, Toronto, Canada, or F. E.
Choate, G. A., 128 Woodward avenue,
Detroit.

The monotony of virtue is probably
what makes it its own reward.

Use Lever's Dry Soap (a powder) to
wash woollens and lannels.—you'll like
it.

MUST TO BE OUT OF DOORS.

Just to be out of doors! So still! So
green!

With unbreathed air, illimitable, clean.
With soft, sweet scent of happy
growing things,
The leaves soft flutter, sound of
summer breezes.

The far faint hills, the water wide be-
tween.

Breast of the great earth-mother, here
we lean.

With no conventions hard to intervene,
Content, with the contentment nature
brings.

Just to be out of doors.

And under all the feeling half foreseen,
Of what this lovely world will come
to mean.

To all of us when the uncounted
strings

In all our hearts, Joy universal, keen.
Just to be out of doors.

—Charlotte Perkins Gilman.

ONTARIO'S PUBLIC WORKS.

Work—Extension of Railways.

The annual report of the Com-
missioner of Public Works for the year
ending December 31st, 1904, shows
that a total of \$816,822 was expended
on capital account on works and build-
ings, and \$111,891 on maintenance ac-
count for fuel, light, water, furniture,
repairs, salaries, etc. for Osgoode Hall,
the Normal Schools of Toronto, Ot-
tawa and London, the School of Prac-
tical Science, the Education Depart-
ment offices, the Parliament Buildings,
Government House, and various other
branches of the service.

From July 1st, 1887, to December
31st, 1904, the expenditure on capital
account for railways was \$4,774,884.48,
penal institutions \$1,286,978.02, educa-
tional institutions \$1,751,425.58, agri-
cultural institutions \$702,857.51, build-
ings for administration of justice \$459,
\$32.26, Parliament and departmental
building and Government House \$1,
774,747.75; works for the improvement
of navigation, such as locks, dams,
dikes, etc. \$1,010,458.50; works for the
improvement of transportation, such as
bridges
