

"THE BIGGEST SELLER" is a phrase frequently used by publishers to call the attention of the public to some book which for the **MOMENT** may be in the public eye.

There is, however, only one book, the sales of which increase each year, and that is universal in its appeal to all readers in every land and clime, regardless of age, sex, race or color. It has been translated into almost every known language, while its ethics are the foundation of the morals of every civilized nation.

More than twenty-eight thousand expert teachers in Canada and the United States are teaching and interpreting its wonderful truths to our children in organized Sunday Schools each week.

We have an edition of this wonderful book, so exquisite in its mechanical features, typography, illustrations and general appearance, that the children will delight in its perusal.

We are fortunate in securing from the well known House of Cassell & Company the exclusive rights for the sale in Canada of "THE CHILD'S BIBLE"—possibly the most exquisite production ever imported into Canada, containing One Hundred Full Page Plates, mostly by famous modern artists, twelve of which are in colour. The text is written in good large type on superfine paper : 620 pages : red cloth binding : gilt edges and lettering : size of volume 8 x 11 x 2 inches : with an introduction by The Lord Bishop of Ripon. Full particulars on application.

We require a few good men or women to sell this work on a subscription basis, and are prepared to offer generous terms.
