The business of a newspaper is to The obtainess of a newspaper is to give news and to furnish entertain-ing and instructive matter for its readers. In an agricultural paper, itcles advertised in its columns are irequently of direct benefit to its readers. Such items are always ac-ceptable to the editor. Frequently these carry with them advertising of ceptable to the editor. Frequently these carry with them advertising of the first quality and we are always glad that the advertiser shall have the benefit. What we do object to and refuse to publish editorially are taining statements as to the truth of which the editor has no knowledge, and many of which claim for the goods merits which they do not pos-sess , All such puffs not foily do harm to the advertiser, but disgust the average reader.

Mr W. F. Young, Springfield, lass, whose advertisement appears Mass in another column, sends us a long list of testimonials from customer: long of his who have recently used his Absorbine and his Taroleum, with most gratifying results. Evidently these articles are worth the attention of all horsemen. An extract from one of the many testimonials reads as follows

"I have used your Absorbine orr a bald spavin and have found it worth all its high reputation." Signed, Harry R. Brown, North Pitcher, N.
