

## The "Simplex" Makes Men Careful About Getting to Work ON TIME

Start recording the time that every man in your shop gets to work and note the good effect. Where there is no "time system" men get careless, and from "5 to 15 minutes late" is a frequent occurrence. Fact is, without knowing the time men lose—you pay for the time they don't work.

### THE "SIMPLEX" TIME RECORDER

records (by the simple push on a button), the exact time of every man in every department where there is a Recorder. If your shop force numbers between 30 to 100 people one Recorder will probably answer requirements. Some concerns are using as many as 100 of our Recorders. The "Simplex" is the only Recorder on which an unlimited number of registrations can be made by an employe, with absolutely no setting of the Recorder for "in" or "out." The "Simplex" is simple, practical and durable. It will last a life time.

Made in 3 Sizes—for 30, 50 and 100 People
