## Gossip.

### The Elderslie Herd at Scarborough.

In the breeding of pure-bred live stock, all breeders look with favor upon a herd in which the foundation females trace pretty much to one source. Usually it is a sign that the herd has had, not only good management, but also has had one or two of the best things obtainable to start off with. This is particularly true in cases of dairy herds, as no dairyman would ever think of breeding up a herd from one or more cows that were unprofitable. Quite often a good grade herd has been disposed of following the purchase of one pure-bred cow, which turned out to be an exceptionally profitable producer. This probably applies to the Holstein herd now owned by Archie Muir of Scarborough, Ont., quite as much as to any other dairy herd in Canada to-day. Mr. Muir, in making his first purchase, probably owes a lot to luck when he selected Della Johanna Calamity, but nevertheless, she was well chosen. In the R. O. P. she produced 16,387 lbs. of milk in the year testing 3.3% and besides she now has four daughters in the herd, all of which show still more promise in the way of production than even their dam. Della Johanna Calamity 2nd, the oldest daughter, finished a semi-official record recently of 20,225 lbs. of milk and 627 lbs. of butter-fat for the year. Della Johanna Abbecker, the second oldest daughter, has 12,372 lbs. of milk in 310 days, Beatrice Segis of Elderslie, a third daughter has 10,046 lbs. a 3.41% milk in the two-year-old form, and 14,366 lbs. in the three-year-old class. Lulu Segis of Elderslie, the fourth daughter, beginning her test last year as a twenty-two months old heifer, finished with 11,892 lbs. of milk and 411 lbs. of butter-fat.

The records of all these daughters were made under very ordinary conditions, as they received no extra care, other than that given the entire herd. There is also in the stables, a twelve-month son of Della Johanna Calamity 2nd, which is sired by Judge Hengerveld DeKol 8th, a 32.92 lb.-bred grandson of DeKol 2nd Butter Boy. This calf is, so Mr. Muir informed us, priced for a quick sale. "Lulu" and "Beatrice" also have sons in the present sales' list both of which are two-month-old calves and sired by the present herd sire, Rauwerd Echo Pontiac. This bull is got by Hill Crest Ormsby DeKol and from a 20.81 lb. two-year-old daughter of May Echo Champion, the only full brother of the great May Echo Sylvia. Rauwerd Echo Pontiac, it will be remembered, was one of the highest priced youngsters sold at G. A. Brethen's Hill Crest Dispersal and the first of his get to arrive are promising. In passing there is one more female that must not go unnoticed, and this is the four-year-old heifer, Maud Segis of Elderslie, that has just finished a year record of 19,217 lbs. of milk in the junior three-year-old form, and it is expected to calve in plenty of time to qualify in the R. O. P. Records such as these speak for themselves, and as in nearly every instance, the Elderslie females are backed by strong individuality it is quite a safe venture to say the young bulls now offered, will not remain in the stables long. Breeders wishing anything, either in the way of breeding females or a herd sire will do well to see Mr. Muir's herd before buying elsewhere.

## Questions and Answers.

### Miscellaneous.

#### Colt Stiffed.

A young colt has a lump on its stifle about the size of a hen's egg. While walking, this slips up and down and gives a crack at each step. The colt is not lame. I have used absorbent liniments and iodine, which reduced the lump but did not take away the cracking sound when the colt was moving.  
B. S.

Ans.—The colt should be kept as quiet as possible. Clip the hair off the joint and get a blister made of 2 drams each of biniodide of mercury and cantharides, mixed with 2 ounces of vaseline. Tie the colt's head so he cannot bite the parts; rub the blister well in, and in twenty-four hours' time rub well again. At the end of another day apply sweet oil and turn the colt loose in a box stall. Oil every day until the scale comes off. It may be necessary to blister frequently, in order to effect a complete cure.

## TRAPPERS You Will Dance

with joy when you get your returns for furs shipped to the Abraham Fur Co., the house that never disappoints fur shippers. Our expert graders in our "Take-up" Department have positive instructions to see that every shipper gets a liberal grade on every skin and are held accountable for all furs taken up by them. Our prices are the highest ever known and now, more than ever, you need the services of an old established, reliable and experienced fur house. There are no fur houses in the world which have these qualifications to a greater extent than the Abraham Fur Co.

## Ship Every Pelt You Have—Now

We urge you to send us your next shipment of furs and let us prove to you that our prices are the highest—our grading the most correct and liberal and our returns most prompt. We have been in the fur business continuously for 43 years and we have made more staunch friends and have a larger percentage of regular old shippers than any other fur house in the U.S.A. These facts justify our claims that Abraham is America's Leading Fur House. Other fur houses make these same claims, but it is generally conceded by our competitors that the hardest fur house to fight against for business is the Abraham Fur Co. Why? Because our returns are always top of the market and any fur house that wants to keep pace with us will have to go some and be on the job early and late.

**SUPPLIES** Get one of Abraham's wonderful *Snake Pups*—\$2.00 postpaid, with extra extension \$2.10. Abraham's *Animal Bait* and *Trail Scout* \$1.00 per bottle, 3 bottles for \$2.50.
