

Farmers, Beware!

There's a large amount of inferior wire being shipped in from Pittsburg to be sold as Coiled Spring Wire. Dealers here have bought this poor wire at low prices, about \$8.50 per ton less than high-grade Cleveland-made wire could be had for, and are trying to palm it off as first-class wire.

The material used in London High-grade Coiled Spring Wire comes from Cleveland, and is of a high quality, which is not equalled by the product of any other wire mills. London Coiled Wire is easily distinguishable from other wire, as it bears a tin tag on every bundle. It has a greater percentage of carbon, and consequently a higher tensile strength, with more resilience or spring, due to the perfect spiral in the hard steel wire, and lastly, it is more thoroughly galvanized.

Insist on having London Wire if you want satisfaction. We want to prevent inferior wire being used with London Fence Machines. If your dealer can't supply London Wire, write us.

London Balled Weaving Wire is of the Highest Quality.

ARNDT TREE PROTECTOR

(BRASS BAND.)

SIMPLE, EFFECTIVE, INEXPENSIVE.

Absolutely the most positive preventive against all creeping and crawling insects. It will save the trees. Save time and labor. Save money.

This simple brass band is patented and put upon the market as pre-eminently the very best and surest device yet invented for preventing the encroachment of all creeping and climbing insects. It is made of brass, does not corrode or rust, does not take an expert to place on a tree, and when once on overcomes all the difficulties met with by other methods of tree protection, and lasts for years. No chemicals used. The Arndt Tree Protector comes in coils of twenty (20) feet, neatly and securely packed in boxes, with brass fasteners and cotton wadding, and with full directions for using on each box.

ARNDT TREE PROTECTOR, Limited

F. V. PARSONS, Manager.
