Doetry.

The Flight of Time. Rolling on, with march sublime, Lo! I hear the wheels of time; Twelve o'clock, I heard the bell; Tis the last year's funeral knell !

Seasons change, and as they pass; Cry aloud, " All flesh is grass !" Human pomp but blooms an hour. Man is an ephemeral flower!

Where are now the mighty dead Names of olden ages fled! Lights of Egypt, Greece and Rome. Sleep in the oblivious tomb!

All the pale-horse'd King obey; Ancient Fethers, " where are they," Prophets, who events foreshow, Do they five forever ?-No!

All the post-diluvian throng, Sons of history and song, Heroes, artists, poets, sages, Sink into the gulph of ages!

Mighty cities, empires, states Babylon with brazen gates; Thebes and the Assyrian's glory, Flourish but in ancient story!

Stately temples, shrines of gold. Perish like a story told ! Time unfaithful to his trust, Writes their record in the dust !

Where is now Palmyra's pride? All thy mighty collonades Desolating time pervades! Ruins upon ruins rise,

Only shades of what has been Flit across the dreary scene. Midst this mighty wreck of things, What are heroes, warriors, kings

When I backward turn mine eyes.

What is man? Alas I sigh? What a bubble, Lord am 1? Every moment brings me near

And the next may land me there? Up my soul, this hour prepare! Minutes roll, and pulses beat; Teach me, sacred Paraclete,

Vast eternity's frontier;

Round the bleeding Cross to cling! O how short man's woe or bliss Life is a parenthesis; Two eternities between ;

While the flight of time I sing,

One to come, and one has been From the birth-hour of this ball To the final end of all. Time is but a few short pages

For should thousand ages run, Measured by von flaming sun : Still they are but as a mite In duration infinite!

In the tome of endless ages.

Miscellaneous.

Remarkable Dreams—Warnings and Providences.

The proof of the truth of the following statement, taken from the Courier del' Europe, rests not only upon the known veracity of the narrative, but upon the fact that the whole occurrence is registered in the judicial records of the criminal trials of the Province of Languedoc. We give it as we heard it from the lips of the dreamer, as nearly as possible in his own words.

"Have you a well here?" I inquired.
"No, sir; we are obliged to go for water to a spring at a considerable distance."
We searched the house, which I did, I confess, with a kind of feverish excitement, mined to set off for the place without a moment's delay. On her arrival she learned that after a golden changes of the temperature of the atmosphere, are produced by the earth, and these changes effect those who breathed thought woke her; and she determined to set off for the place without a moment's delay. On her arrival she learned that after a golden changes of the temperature of the atmosphere, are produced by the earth, and these changes effect those who breathed thought woke her; and she determined to set off for the place without a moment's delay. On her arrival she learned that after a golden changes of the temperature of the atmosphere, are produced by the earth, and these changes effect those who breathed thought woke her; and she determined to set off for the place without a moment's delay. On her arrival she learned that it had been buried alive. The health of a child who was out at norse, the atmosphere, are produced by the earth, and these changes effect those who breathed thought woke her; and she determined to set off for the place without a moment's delay. On her arrival she learned that it had been buried alive. The health of a child who was out at norse, the atmosphere, are produced by the earth, and these changes effect those who breathed the house, which I did, I confess, with a kind of feverish excitement, and the produced by the earth, and the produced by the earth, and the produced by the earth and the produced b

Yours, &c.,

MARIA RICKER."

"I have known the above named Maria Bicker from her

"I have known the above named Maria Bicker from her childhood, and her statement is extrictly true.

ANDREW J. MESERVE,
Oversear of the Portamouth Manufacturing Co."
Care. JOEL PRATT, of the ship Marion, writes from Boston, 20th April, 1854:
"Your Pills have cured me from a bilious attack which arose from derangement of the Liver, which had become very serious. I had failed of any relief by my Physician, and from every remedy I could try, but a few doses of your Fills have completely restored me to health. I have given them to my children for worms, with the best spects. They were promptly cured. I recommended them to a friend for contiveness, which had troubled him

known, not only in this but the neighboring States.

"New Coisses, 5th Agrid, 1894.

"Sir: I have great antisfaction in assuring you that my self and family have been very much benefited by your medicines. My wife was cured two years since, of a severe and dangerous cough, by your Cananar Pacronal, and since then has eajoyed perfect health. My children have several times been cured from attacks of the Influences and Crosup by R. It is an invaluable semely for these complaints. Your Carnanze Fishe have entirely cured me from a dyspesia and codifferers, which has grown upon me for some years,—indeed this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Doctor, like a providential blessing to our family, and you may well suppose we are not unminded of it." You're respectabilly.

"Smate Camber, Ohio, April 5th, 1854.

"Benate Chember, Ohio, April 5th, 1854.

"Da. J. C. Avan—Honored Sir: I have made a thorough trial of the Cathartic Fills, let me by your agent, and have been cared by them of the dreadful Rheumatism under which he found me suffering. The first does relieved me, and a few subsequent does have entirely removed the disease. I feel in better health now than for some years before, which I attribute entirely to the effects of your Cathartie Fills. Yours with great respect, LUCIUS B. METCALF."

The above are all from persons who are publicly known where they reside, and who would not make these statements without a thorough conviction that they were true.
