COUNTY AND DISTRICT.

A Toronto Christian Scientist died of
absent mindness. He forgot he was
living until he actually died. The dis-
ease is not contagious.

There are seven schools in the in-
spectorate of West Bruce, now without
teachers. The lowest salary offered
by any of them is \$800 but there are
no offers.

Mr. B. L. Hess, market gardener of
Ryckman's Corners, got out of his rig to
assist a man lying on the road. A con-
federate of the first man knocked Mr.
Hess down and the two robbed him of
\$180.

The Canada Furniture factory, Wa-
terloo, was completely destroyed by
fire last Thursday night, entailing a
loss of \$100,000, and throwing 155 hands
out of employment. There was
\$68,000 insurance.

A by-law for the purpose of purchas-
ing the electric plant and running it as
a municipal property will be voted on
by the electors of Seaforth on Septem-
ber 12th.

Reports on the progress of wheat cut-
ting and the territories show that about
90 per cent. of the wheat crop is now
in stock. Rain on Sunday night delay-
ed harvesting operations. The esti-
mated yield is about twenty bushels
per acre, mostly No 1 and 2 grade.

A New York physician says: "The
greater part of the whiskey, brandy
and beer sold in New York to-day is
chemically prepared and is absolutely
unfit for the human stomach; it is dis-
tilled with fusil oil, cresote and such
chemicals." Perhaps that is the reason
that the Americans will smuggle the
Canadian article; they want the best.

To help the farmers of Nova Scotia,
who are suffering from a famine of cat-
tle food, the Dominion and Ontario
Governments have united in an effort
to relieve the situation. Mr. Hodges,
live stock commissioner, had a confer-
ence with Hon. Mr. Dryden, and it is
proposed to dispose of a large quantity
of Nova Scotia cattle in Ontario, and
Quebec, where there is no lack of the
necessary food.

The labor problem was a serious ob-
stacle in the development of sugar be-
culture. The difficulty has been largely
removed by improvements in methods
introduced by Department of Agricul-
ture. The rows are brought closer to-
gether, and seeding is done in such a
way as to simplify the covering of the
growing crop.

Mr. Dacl, Registrar of Bruce county
reports to the Globe as follows:—"The
indebtedness in this county has been
gradually increasing the last three or
four years, owing to the activity in the
real estate business. The more real
estate deals there are the more mor-
gages there are to register, and there
have been more registrations in the last
three years than in the same period
preceding it. The rate of interest at
the present time is lower than it was
ten years ago; in fact it is thought to be
as low as it ever will be in this district.
The mortgages registered during this
time have been placed, some for renew-
als of former mortgages and others for
the unpaid portion of the purchase
money in sales of property."

What delightfully topsy-turvy people
the Japanese are, according to On-
Who Knows Them. "The genial Jap,"
he tells us, "seems as if he cannot do
anything quite as everybody else does
it. He mounts his horse on the right
side, and when he stables him, he back
him in tail first, and feeds him from
behind at the stable door. He leads his
best steers first, he prints his name
with the footnotes at the top of the
page, and the word 'finis' where he
puts the title of the page. In address-
ing a letter he puts his name last, and
the town and country first. He says
eastward, westward, where we say
northeast and southwest; his keys turn
in instead of out; he drinks his wine be-
fore not after his dinner; and when he
wants to be especially polite he re-
moves not his head covering, but that
of his feet."

To prove what Dr. Leonhardt's Anti-
Pill will do—Your name and address
on a post card will bring it—Has
cured thousands already.
Dr. Leonhardt's Anti-Pill has ushered
in a new era in the treatment and
cure of disease. Thousands who had
given up hope have been restored to
perfect health, and every cure seems to
be perfect and permanent. Here is a
case of dyspepsia:
"I have been a great sufferer from
Dyspepsia for many years. I have been
treated by local doctors and have taken
nearly all the advertised remedies with-
out only temporary relief, but since using
Dr. Leonhardt's Anti-Pill I can eat any-
thing the same as when a boy. My old-
time vigor has returned, so that my
spirits are buoyant and temper normal.
I give all credit to Dr. Leonhardt's
Anti-Pill—M. N. Dufour 29 Colborne

A boy wants to smoke about the

Among recent Canadian patents taken
out is one by a Toronto man for a pro-
cess for inserting hair into bald por-
tions of the human scalp or skin.

Among the prisoners arraigned be-
fore the magistrate one morning was an
Irishman, charged with disorderly con-
duct. It was a plain case, but he made
an eloquent appeal for clemency. "Plea
afraid," said the magistrate, "that
fate's against you." "I don't mind
that," replied the prisoner, "so long as
your honor's wid me." And for once his
honor was moved to take sides against
fate.

Two weeks ago Mr. and Mrs. Louis
Becker, who reside in Windsor, buried
their only child a baby boy four mon-
ths old. Less than a week afterwards
a six-months old boy was left on door-
step, presumably by some person who
knew of their bereavement. The little
stranger was taken in and will be reared
by the Beckers in place of the child
they recently lost. He occupies the
same cradle that the Becker baby did
and already has worked himself into
the affections of both Becker and his
wife.

Colin Blyth, a Normandy farmer, has
210 tons of hay stacked and housed in
good shape, and yet he had only three
men and himself to do it. With mow-
ing machine, horse rakes, hay loaders,
slings, and other farm contrivances, a
few men can now accomplish what was
formerly regarded as impossible. He
has 180 tons under cover in the barns,
and one huge stack containing 80
tons outside. Even here he uses the
slings for unloading having a large tree
nearby to which he fastened the tracks.
At the present time he has 25
acres of ripe hay shocked up for seed.
This is going into the hay business
with considerable energy, but Mr.
Blyth is not a man to do things by
halves.
