

ARRIVAL OF THE MAIL STEAMER CANADA.

The letters and newspapers came on this afternoon, and we are at last in possession of the latest news from our friends in England.

EUROPEAN AFFAIRS.

There are many rumors current respecting the intended policy of Government in the coming Parliamentary Session. You may safely set down these reports as mere "fudge."

The report that the Chancellor of the Exchequer is forming the funds for par, and then reduce them to 21 per cent, is likely enough to prove correct, because it possesses a reputation of public attention from Ministerial mis-deeds.

Throughout England the Protectionists have set to work in a manner that shows them to be really earnest in bringing public opinion to bear upon the Government.

Mr. Cobden's speech at Bradford on the 10th inst. is a masterpiece of oratory. It is a sufficient answer to those who say that he is a mere "talker."

It is his plan to give a more faithful idea of Mr. Cobden's plan of governing Britain from her Colonies than this.
