## Official Evidence Incriminating Germany and Austria

# LLOYD GEORGE AND BONAR

They Ask for Continued Unity and Outline Platfor; Latter Includes Preferential Tariff for the Colonies and Reform of the House of Lords

By Courier Leased Wire.

LONDON, Nov. 26 .- Premier Lloyd George and Chancellor Bonar Law have issued a joint manifesto to the electors of Great Britain and Ireland, appealing for support and continued unity, and outlining their policy, of which the following points amplify speeches cabled on November

The conclusion of a just and lasting peace, and so establishing the foundation of a new European order that further wars may be forever averted; reducing the burden of our armaments, and the promotion of a league of hations; state acquisition of land for soldiers and sailors either for cottages with garden allotments or small holdings on a wide and large scale. Schemes for agricultural developments and extensive afforestation and reclamation schemes; comprehensive housing schemes; larger industrial opportunities; improved material conditions of employment. The manifesto continues:

"It will be the fundamental object of the coalition to promote the unity and development of our empire, and of the nations of which it is composed to preserve for them a po-sition of influence and authority which they have gained by their sacrifices and efforts in the cause of humanity and liberty."

Other planks in the platform are: Preferential tariff for the colonies; no fresh taxes on food and raw materials; development and control in the best interests of the state of the economical production of power and light, also railways, roads, canals, improvement of consular service, removal of all existing legal inequalities between men and women, and reform of the constitution and of the House of Lords.

THE WHITE ELEPHANT.

The by-law for the extension of the street railway to Terrace Hill will be introduced for its first two readings at the next regular meeting of the city council. Ald. English, sponsor of the by-law, made this announcement at last night's session. He explained that he had held the by-law off in order to obtain final statistics, and suggested that the members of the Street Railway Commission should be invited to be present when the by-law was read.

by-law was read.

To this the Mayor objected, declaring that the Railway Commission were not in sympathy with the proposed extension. They had twice appeared before the council and admitted they had no fixed policy. His Worship felt that the presence of the Commissioners would hamper the reading of the by-law, which he strongly supported. He suggested that the council hold an informal special session, at which Ald. English could outline the details of the by-law. ROUTE OF THE EXTENSION

Ald. English outlined the proposed route for the extension. The line would not cross the Grand Trunk tracks at Market street, therefore it would run from Market along Marlboro to Rawdon; thence to Elgin street, back to Clarence, to Nelles, across West to Dundas; climbing the Dundas St. hill to Sydenbam; and thence to Charing Cross to North Park, North Park back to Dundas, Dundas to St. Paul's Avenue, St. Paul's Ave. through the proposed subway, to the Brant Avenue line.

This line goes outside the present city limits, but by the time it is completed, Ald. English stated, Grandview would likely be a part of the city.

The probable cost of this route would be \$100,000, exclusive of the necessary rolling stock.

At the request of the Mayor, Ald. English agreed to furnish the aldermen with further de-tails of the proposed route. The by-law will be read at the next regular meeting, on Dec. 9.

By Courier Leased Wire.

LONDON, Nov. 26.—British wireless service.—Publication of official reports from the Bavarian minister at Berlin to his home government confirms evidence already in the hands of the Entente that Germany and Austria conspired to bring about the war. It was for this reason that the terms of Austria's ultimatum to Serbia were made so drastic that hostilities were bound to follow. These revelations have been published in Munich after permission had been asked by the Bavarian premier and foreign minister of the German federal government. They are in the form of a report sent to Munich on July 18, 1914, by Count von Lerchenfold, the Bavarian minister at Berlin.

According to the report the delivery of the ultimatum to Serbia was delayed until after President Poincare and Pemier Viviani of France had gone to St. Petersburg, which would make it difficult for the entente nations to arrive at an understanding, and take counter-measures.

Count von Lerchenfeld said that "Serbia obviously can-not accept such conditions as will be laid down, and that as a consequence there must be war." He declared that action on the part of Austria could not be long delayed for that would give Serbia, under pressure from France and Russia, an opportunity to offer satisfaction.

In a telegram to Munich from Berlin, on July 31, 1914, Count von Lerchenfeld said that Sir Edward Grey's efforts to preserve peace would "certainly not succeed in arresting the course of events." Later the same day he wired information as to ultimatums to Russia and France, forecasted their rejection by both nations, and told of plans to hur Germany's armies against France, which, he said, would be "overwhelmed in four weeks."

He said that the morale of the French army was poor.

intention to violate Belgian neutrality, saying:

"The chief of the general staff has declared that even British neutrality will be paid too dealy if the price is respect of Belgium. An attack on France is possible only through Belgium."
