Have Your Own Broker Investigate

It would be a godsend to writers and speakers if some inventive genius would furnish a name with which to distinctively designate citizens of the U. S.

but it is not a very euphonious title and for that reason is never likely to come into use.

Of course while our cousins over the border can usurp the name of "American" solely to their town use and represent themselves as the whole show on this side of the water, they at least have no reason to "kick" when a speaker or writer, however with an idea of Geography and the fitness of things in general finds himself trying to distinguish between Canadians, Mexicans, or any of the other natives of America and citizens of the U. S.

Blank Forms We have for sale at the Advertiser office the following Blank Forms at the usual prices: Mortgages, Chattel Mortgages, Bills of Lading, Writ of Summons and a few Magistrate Blanks.
