then come a dissatisfaction with their present state, and their will follow a spirit of unrest, which will manifest itself in the hunger for the ideal. This has been the history of the church.

It is only after the church has prepared the way by sending its best men and women into darkened lands—who often suffer death—and poured millions of dollars into these fields, that the professional social agitator steps in and builds upon the foundations already laid by the church.

Then in all likelihood, he will turn around and denounce the church for its non-effectiveness. He never lays the foundation. He never makes the sacrifice. He is simply the irresponsible critic, whose very safety and comfort has been made possible by the devotion of martyrs whose blood was sacrificed for him.

Have you ever heard of a social propagandist going into a cannibal island to build up an ideal social system? Try, surely need his help. But not much! It's easier and safer

Bryan and Labor.
The leaders of the Republican party are fearful lest John Mitchell should consent to accept the Democratic nomination for the vice presidency on the ticket to be headed by William Jennings Bryan. Already two unsuccessful attempts to sidetrack him by giving him an appointment have been made, but our John remains free from any entanglements, and states that he will refuse all such offers from those now in power at Washington, writes Editor Charles W. Fear in the current issue of the Missouri Trade Unionist.

The Republicans are well aware of Mitchell's strength in debatable States and realizes that if he consents to accept the Democratic nomination for Vice President, along with Bryan, their chances for success

especially with Tall at the head of the ticket will be very meager indeed. The Democrats too, are well aware of Mitchell's strength with the voters and are hoping that the former president of the United Mine Workers can be prevailed upon to accept the second place on the ticket to be nominated at Denver.

Bryan and Mitchell would do more to solidify the labor vote against Tall than any other combination that could be picked. Just imagine the wave of enthusiasm for the Bryan and Mitchell ticket would sweep through the Republican strong-holds of Pennsylvania, Ohio, Indiana, Illinois, Iowa and other states where thousands and thousands of union miners swear by "Our Johnny Mitchell!" And in the cities—in factories, where Mitchell's name is revered where even little children have learned to love the name of John Mitchell and tell stories of his efforts in their behalf. And on the railroads—the train crews, all for John Mitchell.

There is no "wonder" "Uncle Joe" and "Strenuous Teddy" strive to find a berth for John Mitchell, for they fear his strength. And well they may, for should the Democrats succeed in securing John Mitchell for the second place on their ticket with Bryan, the result would be a complete victory for the Democrats. Labor organizations would become political clubs for the time being, and union men of all party affiliations would undoubtedly break away from their party moorings long enough to cast one vote for "Our John."

Mitchell's hold on the people is stronger today than when he was successfully guided the movements of the United Mine Workers. Firm, powerful, a giant intellectually, there need be no fear that the vice presidency would not furnish ample opportunity for Mitchell to exert a powerful influence over national legislation. And Vice President Mitchell could continue his efforts for humanity's uplifting—the life ambition of the lion-hearted breaker boy who can wage battle with the strongest, yet who becomes as gentle and meek as a lamb at the voice of a prattling innocent child.—Exchange.

CLAIMS INVESTIGATED

W. L. Mackenzie King Investigates Claims of Celestials Resulting From Riots.

Vancouver, May 26.—In examining the \$25,000 of claims of Chinese residents of this city for actual and consequential damage to the September riots, today, Commissioner W. L. Mackenzie King announced that the government would not pay for the guns or ammunition purchased by the celestials for their protection, "not unless you can show me that the police were wholly unable to give 'tort' protection," said the commissioner.

The announcement followed the discovery of an item for \$18 for a gun in Merchant Soan Key's claim for \$500. "Besides you could hardly ask the government to pay for the gun when you have it now," said the commissioner.

"Oh, no," replied the merchant, "the police they take it, I no get it back."

The merchant said a similar item would appear in all the claims. The items will all be disallowed, in other respects the total claims will likely be approved as presented.

Every instance they are much less than the claimants say they can actually prove, and the evidence of the police officers is that the damage to the Chinese quarters was four times as much as the damage in the Japanese quarter. The amount paid to the Japs by the Dominion government was over \$2,000.

Chief of Police Chamberlain, in speaking of his efforts to stamp out gambling in Chinatown, declared there were fully fifty dens, which collectively took in \$5,000 a day. Some prominent citizens thought that the police should not interfere, under the belief that they were gambling among themselves, but the police declared that in nearly every case the money was obtained from local patrons and tourists. The latter frequently came to him for redress, but as they were unable to identify the Chinamen it was impossible to secure convictions. Although no part of the enquiry, the commissioner commended the chief's efforts to stamp out the evil.

"A Kingly Gift"

EARL GREY'S APPEAL
On behalf of Needy Consumptives
Strong words of Canada's Governor-General

At the official opening of the King Edward Sanatorium for Consumptives, near Toronto, His Excellency delivered an address that must have an important bearing on the future of the sanatorium movement in Canada. We quote:—

"The proceedings this afternoon commenced with a beautiful and reverent prayer from your old friend, Dr. Potts. He prayed that the light of the Lord might shine upon us. That prayer is abundantly answered. He also prayed that the White Plague might be removed. Well, whether that prayer will be answered or not depends upon yourselves."

"Is it not a standing shame and reproach to the governments and individuals that there is not more care taken by the people of Canada, to protect themselves against the curse of consumption?"

On his way out to the King Edward Sanatorium, so named by permission of His Majesty King Edward VII—the Governor-General's car was stopped in its progress outside the Canada Cycle & Motor Co. by a large crowd of its employees. A contribution of one hundred dollars was handed the Governor-General, a donation to the Toronto Free Hospital for Consumptives.

"'Twas a kingly gift" said His Excellency in making acknowledgment. "I will tell the King."

Addressing the large audience that attended these opening exercises, referring to this event, Earl Grey said:

"Ladies and gentlemen, when the workmen of Canada are setting an example of this character, I hope you will not be slow to follow, and I trust that the example of the Canada Cycle & Motor Co. may be followed, as I am sure it will, in every factory and manufacturing industry throughout the land."

We carry these words to the people of Canada in our appeal to-day on behalf of the
