Calgary City Investments

Inside revenue producing property or close in building lots on sewer and water, offer exceptionally good investments at present.

Building this year already exceeds the whole of 1911, and will total about \$18,000,000 for 1912.

Bumper crop now safe in Alberta and business will boom when it is marketed. An investment now will show results that will justify further business.

I will invest your money in sums of \$500 and up, using best judgement with a view to future business, acting solely as your agent, on a commission of 5 per cent, advising when to re-sell and looking after your best interests in every way.

Have on list now some excellent buys, but advise prompt action.

Money brings 8 per cent on first-class mortgages and a much higher rate on purchase of agreements for sale.

Advise me amount you have for investment, or better still send cheque, as real snaps for ready cash are frequently offered.

Correspondence invited. Beware of rank outside lots being peddled in the East.

E. S. CLOW,
924 18th. Ave. West
Calgary, Alta.
(12 years Manager of Merchants Bank of Canada, Athens).

PRESBYTERIAN ANNIVERSARY

The services in connection with the anniversary of St Paul's Presbyterian Church, held on Sunday last, were very interesting and profitable. The Baptist and Methodist churches were closed in the evening and a congregation that taxed the capacity of the church assembled in St. Paul's. Rev. S. S. Burns, B. D., of St. John's Church, Brockville, was the preacher for the day, and his evening discourse, based on the latter part of the 8th verse, chap. 5. Rom., held the close attention of all. The theme was presented in such a way as to suggest, on the part of each hearer, a personal consideration of his or her relation to the great atonement.

Excellent music was rendered by the choir, in which the highly trained voice of Miss Crawford of Gananoque was heard with pleasure in the solos.

On Monday evening the anniversary tea was held and it was well attended. Following refreshments, a bright programme was presented, under the chairmanship of the pastor, Rev. W. H. Montgomery. Rev. Messrs Swayne, Westell and Edwards gave short addresses, and high-class vocal music was rendered by Miss Crawford and Mr. Haynes, accompanied by the church organist, Miss Nellie Earl.

CHAMPIONSHIP

At the close of the Athens High School field day several events remained to be decided, which held in abeyance the decision of championship honors in the different forms. Conclusions have since been reached and on Tuesday afternoon the following decisions were handed out:—

Boxing Championship—R. Layne.
Tennis Championship—E. Sexton.
Bicycle Race—S. Livingston, C. Booth, M. Johnston.
Senior Boys' Championship—E. Z. Sexton, 32 points.
Junior Boys' Championship—M. Johnston, 17 points.
Senior Girls' Championship—H. Rockwood, 13 points.
Junior Girls' Championship—D. Hawkins, 18 points.

In the unavoidable absence of Messrs J. Thompson and H. R. Knowlton, the medals were presented by Mr. Haynes and Miss Mackay.

The Reporter has pleasure in congratulating those who won championship honors.

FARM DRAINAGE

About thirty farmers, despite the busy season, assembled on Mr. Parish's farm at the B. W. & N. W. station on Friday last to hear and witness Prof. Spry's demonstration of farm drainage. The event had been arranged by Mr. W. H. Smith, local representative of the Ontario Department of Agriculture. Prof. Spry spoke for upwards of an hour, explaining minutely this important matter, and gave a practical demonstration of how a complete system of drainage could be installed.

A mistake, he pointed out, that many farmers make is in tilling to drain a particular part of their farm without considering future extensions of the system. In the first place, a comprehensive plan should be mapped out, and then each addition made to the original drain will simply form part of a system, the trunk lines of which will be ample to take care of all the water. As the benefits flowing from the initial drainage became apparent, the extension of the system would certainly follow.

Determining the levels is often a puzzling proposition to a farmer, but as explained by Prof. Spry the work is simple, requiring no expert knowledge or expensive apparatus, and the results are certain to prove satisfactory.

The farmers followed closely the Professor's address and practical demonstration and his visit here should result in lasting good to the district.

It is probable that Mr. Smith may arrange for the drainage of a farm in this section. The work in progress and the results following would certainly be followed with interest by the farmers of the whole district.
