WILL DISCUSS TARIFF Danger

Colonies - All-Red Fast Service Scheme Is In Good Condition-Clifford Sifton Prophesies Success

Clifford Sifton Prophesies Success.

London, May 22.—Sir Wilfrid Laurier. Premier of Canada, started yesterday for Paris, where it is understood he will discuss the proposals for a new Franco-Canadian tariff.

The failure of the imperial colonial conference to arrange a preferential tariff within the British empire is supposed to enable France to obtain more favorable terms from Canada.

Churchill Loses By It.

London, May 22.—The Australian press comments on Winston Churchill's Edinburgh speech, and says it may help Churchill with a section of his party, but not with the colonies, the good opinion of which from the day he took office he has been doing his best to forfeit.

his best to forfeit.

The Canadian Associated Press is informed that colonials may be brought here to assist in educating the electorate in the doctrine of preference, and fiscal missionaries despatched to the colonies to preach the same

All Red Service.
London, May 22.—Hon Clifford Sifton, who, with Mrs. Sifton, sailed for Canada yesterday per Cunarder Caronia, was seen prior to his departure. He says the all-red fast service scheme is in such condition that a successful termination can be expected.

HAYWOOD TRIAL CONTINUES.

Challenges of Jurors Exhausted Panel Yesterday Morning.

Challenges of Jurbrs Exhausted Panel Yesterday Morning.

Boise, Idaho, May 22.—Court in the Haywood murder case opened at 8.30 yesterday morning. This was the ninth day of the hearing. At 9.35 a. m. the defence peremptorily challanged John Fusher, in the tenth chair, the examination of John Witlock, in the sixth chair, having passed temporarily.

After this challenge both sides had four left, with only nine members of the special venire of 100 to draw upon.

James After, a teamster, was excused because of his strong opinion.

One after another the remaining talesmen were excused because of opinions, until Levi Smith, the 92nd member of the special venire, was reached. Smith said he was a railroad employe, and declared he had never formed opinions regarding the case. He was finally accepted by both sides.

Juror Orric Cole, at No. 9, was ex-Juror Orric Cole, at No. 5, was excused on account of illness.

John A. Lawrence, a farmer, declared he was opposed to capital punishment, and was excused.

The panel was exhausted at 10.45,

Like panel was exhausted was exh and a new special venire of 60 persons was ordered. The trial was adjourned until to-morrow

BETRAYED BY A SNEEZE.

Jap Girls Were Being Smuggled to America As Freight.

Port Townsend, Wash., May 22.—
Six Japanese girls, each nailed in a pine box, were nearly killed by sulphur fumigation on board the steamer Canfa at Victoria. A sneeze betrayed them. The girls were consigned to K. Sesockein, a steerage passenger, alleged to be Taki Kaijoro, who was deported from San Francisco two years ago as a result of a crusade by Christian societies.

Food and water supply was ingeniously placed in each box, which was fitted like a toy room.

in Farming.

"Dollar Wheat" is fine for farmers, but they take long chances with their health in getting the wheat. Bad weather, lifting, straining, wrenched backs, lay the foundation for Rheumatism and Kidney Trouble. There is a farmer, out Markham way, who was so busy making money that he did not realize he was making ill-health at the same time. He he did not realize he was making ill-health at the same time. He had headaches; often his back hurt so badly he could hardly stand, often the urine was highly colored and scalding. But he thought he was only "working too hard." One day he caught cold. The next day he had Rheumatism. This Markham farmer suffered 7 years with Rheumatism until chance brought a friend who told him about Bu-Ju. They relieved the exeruciating pain, and cured him in three months.

Strikers Now Meek.

Montreal, May 22.—Seeing their ranks depleted by desertion, the union and non-union longshoremen held a meeting yesterday and resolved to return to work, deciding at the same time that they would apply to-day to have the 21-2 cents arbitrated upon.

They go back for 271-2 cents and the shipping federation declares they cannot break faith with those already engaged, hence their inability to take all the strikers back before ten days.

THE POSTAL WAR. U. S. May Refuse Canadian Second-Class Matter.

Washington, May 22.—Through Postmaster-General Lemieux, the Government of Canada has notified the postoffice department here that it will be impossible for the Canadian postal department to handle second-class mail matter sent to that country from the United States by either express or freight, and mailed there.

Some time ago a commission was sent to Canada to adjust it possible.

or freight, and mailed there.
Some time ago a commission was sent to Canada to adjust, if possible, the differences between the two countries respecting the handling of second-class mail. The result of the commission's work was indecisive. Afterwards United States publishers suggested that they might send their publications from the United States to Canada, either by express or freight, and hae them mailed in Canada at the second-class rate, one cent for four ounces.

Canada at the second-class rate, one cent for four ounces.

Postmaster-General Meyer took up the matter with the Canadian officials, urging strongly that the suggested arrangement be made. The Canadian Postal Department, however, replied that their facilities and equipment would not admit of it.

The Canadian second-class rate is lower than the second-class rate of this country. Postmaster-General Meyer explained yesterday that as soon as a specific case of refusal on the part of the Canadian Government to handle United States second-class matter is called to his attention, he will be forced in the circumstances, to issue an order that Canadian publications in the Unted States cannot be handled at the second-class rate.

OPPOSITION LEADER SPEAKS.

Both Parties Have Views In Common on Subsidy.

Ottawa, May 22.—J. A. Macdonald, leader of the Liberal Opposition in the British Columbia Legislature, is in the city.

Interviewed regarding the claims of the province for a larger faderal sub-

the province for a larger federal subsidy, he replied that the two partical had some views in common on that issue. Both parties had always contended for larger federal subsidy. As to the method employed by the Premier to get an increase he would not commit himself.

Mr. Macdonald affirmed that the Mr. Macdonald affirmed that the present state of prosperity surpassed that of any previous period in the history of British Columbia. He at tributes this to the big price of copper and other metals and to the exceptional demand for lumber in the northwest and all over the world Besides the fruit growing industry had received a wonderful impetus lately.

At all events the present advance will be indefinitely maintained.

It is stated that the leading milling companies are now buying wheat at \$1.50 per bushel. Partly the backward spring and partly the short stocks are given as the cause.

Death in Cave-in.

London, May 22.—By the caving in of a sewer on Bruce street, South London, Frank Bickley, a laborer, met his death yesterday.

Bickley, who was 67 years old, was in the trench with a number of other workmen, when the shoring gave way and a quantity of earth fell in on him. He was partly buried, and was being extracted when a second cave-in occurred. Bickley was pinned under five tons of earth, and before he could be released life was extinct.

Auburn, N.Y., May 22.—Carlo Ciardi was electrocuted here yesterday morning in the prison. Ciardi killed his victim, Luigi Porzi, that he might rob him of \$90 that Porzi had saved to bring his sweetheart from Italy.

In the appearance of salt, as seen in everyday use on the table, in the kitchen and elsewhere, there is apparently nothing particularly historic, but reality there is. In 1520 B. C. Mo asked, "Can anything which is unsavory be eaten without salt?"

The Jews in ancient times were commanded to use salt in their sacrifices.

Herodotus, born 484 B. C., notes that

the Egyptians preserved meat, fish and fowl by steeping them in brine. The Hebrews invariably rubbed newborn babies with a solution of salt to harden the skin, make it healthy and prevent skin diseases.

Wherever salt is spoken of in ancient writings it is in most emphatic lan-

guage, showing the great importance it possessed for our forefathers. For Luncheon - use WIND-SOR TABLE SALT. It makes

meat and eggs taste so much better. And you never feel it on food. Never lumpy. 157

STEAMER NAOMI BURNED.

Four Lives Lost — Fifty Passengers Successfully Taken Off. Successfully Taken Off.

Grand Haven, Mich., May 22.—The steamer Naomi of the Crosby Transportation Co. was burned to the water's edge yesterday morning while on her way from Grand Haven to Milwaukee. Fifty passengers were taken off by the steamer Stratford and transferred to the steamer Kansas of the same line. Four members of the crew were burned to death. Among the injured is J. M. Rhodes of Detroit who is in a hospital badly burned, and probably will die. Those rescued were taken off in small boats. The dead men were all coal passers.

The loss on the Naomi, which was in command of Capt. Thomas Traill, is estimated at \$225,000. After the passengers and crew were rescued a barge put a line on the burning hulk and is towing her into this port.

The fire started near the kitchen, between decks, and spread so rapidly that the whole ship was a seething turnace before the crew could get out the fire apparatus. Fire swept the whole length of the ship, and the upper works burned like tinder. It is considered miraculous that the passengers all escaped. Many of them were taken off in their night clothing, while scarcely any one was more than partially clad.

The fire was not discovered by any

while scarcely any one was more than partially clad.

The fire was not discovered by any of the Naomi's crew, but was first seen by the lookout on the steamer Kansas, which was proceeding in the opposite direction from Milwaukee to Grand Haven. The Kansas made directly for the Naomi and in the meantime the passengers of the ill-fated boat were awakened.

Capt. Thomas Traill was the last man to leave the steamer alive, and his clothing was almost burned off.

his clothing was almost burned off.

The coal passers who perished were below in their bunks, and are believed to have been penned down there by the flames. They are believed to have shipped from Milwaukee.

It is said by the passengers that the screams of the dying men in the hold were heard, but that it was impossible to reach them.
