

CROP REPORTS FOR CANADA.

Dry Weather and Heavy "Drop" In June Have Reduced Outlook In Nova Scotia.

OTTAWA, July 8.—Reports from Canada's six apple-growing Provinces point to a crop of this staple fruit generally in excess of last year's.

According to the July fruit and vegetable crop report of the Department of Agriculture, British Columbia orchards, as well as those in New Brunswick and Quebec, offer promise of a ten per cent. increase over 1920.

Ontario prospects are for a twenty per cent. reduction. Spies, Baldwins, Macintosh and Russets, heavy but Ben Davis light.

Prince Edward Island expects a big crop of all varieties.

In Nova Scotia dry weather and a heavy drop have reduced the outlook. Baldwins and Kings are set heavy, and a total crop is expected of some ten per cent. in excess of last year.

British Columbia expects a fair to good crop of peaches, but Ontario only looks for 34 per cent. of average. Yellow St. John best, Alberta's and Crawford's, light.

Plums promise well in Quebec, but Ontario and Nova Scotia will probably produce only a fifty per cent. crop. In British Columbia a fair to good crop is anticipated.

Pears in Ontario and Nova Scotia also promise a fifty per cent. crop, while the prospects in British Columbia are generally good.

CAN YOU ANSWER?

(From the Outlook.)

Years ago the compiler of "Beckwith's Almanac" lived in New Haven. The white tall hat which he wore made him a conspicuous figure, and his portrait in his white hat adorned the "Almanac's" front cover. It is from this publication that a reader has selected the following rhyme under the question "Can you answer?"

- Where can a man buy a cap for his knee? Or a key to the lock of his hair? Can his eyes be called an academy Because there are pupils there? In the crown of this head What jems are found? Who travels the bridge of his nose? Can he use when shingling the roof of his house The nails on the end of his toes? Can the crook of his elbow be sent to jail? If so what did he do? How does he sharpen his shoulder blades? I'll be hanged if I know do you? Can he sit in the shade of the palm of his hand? Or beat on the drum of his ear? Does the calf of his leg eat the corn on his toes? If so why not grow corn on the ear?
