

THE DAILY HERALD, TUESDAY, AUGUST 5, 1890.

THE GUELPH DAILY HERALD. H. GUMMER, Proprietor and Publisher. TUESDAY EVENING, AUGUST 5

MR. LAURIER AND THE FARMERS.

During the many years that Sir John A. Macdonald has been at the head of the Dominion affairs, he has studiously considered the position of the agricultural classes, and has always endeavored to frame legislation in such a manner that it would prove advantageous to them.

Mr. Laurier, the leader of the Liberal party, is pursuing a diametrically opposite course. Instead of consulting the interests of the farmers and doing all that which lies in his power to lighten their burdens, he favors inaugurating such a policy as would admittedly be disastrous to them.

"They (the Conservatives) began by imposing a duty of 50 cents upon every barrel of flour that you use, and last session the tax was increased to 75 cents per barrel. . . This tax, however, was not imposed of public necessity, as it is alleged that there is a surplus of seven millions, but rather in the interest of the Ontario and Manitoba farmers, who raise wheat in great quantities. . ."

"It will be seen that Mr. Laurier admits that the farms of Ontario and Manitoba are benefitted by the present fiscal policy and it is that fact which is repulsive to him. If they were reduced to the verge of bankruptcy and starvation as are the farmers of Dakota, their position, then would be more acceptable to the enemy of everything Canadian."

working of a BRYANT school books that have been superseded by George Washington's new-fangled editions. Philanthropic spinsters who are troubled about negroes might easily get an immense consignment for gratuitous distribution in Maryland, where a great dearth of books exists. Take this for an example which is quoted from a contemporary. One teacher says that in his school of 56 children he had one small blackboard, one slate, two reading books, one geography, and no paper on which to write. In default of books he had been forced to cut up newspapers and use them for reading and spelling lessons.

The Jamaica Exhibition. GALT, Aug. 4.—Adam Brown, M.P., Canada, has been spending the day here interviewing millers and manufacturers respecting exhibits for the Jamaica exhibition to be held in January next. He was cordially received, and all the millers and manufacturers intimated their intention of sending exhibits. He left for Preston this afternoon to see the manufacturers of general furniture and office furniture. He has been invited to return here and address the board of trade upon the subject.

A Child Saved. My little boy was taken very bad with diarrhoea, he was very delicate and got so low we had no hope of his life, but a lady friend recommended Dr. Fowler's Extract of Wild Strawberry, and although he could only bear a few drops at a time he got well. It saved my child. Mrs. Wm. Stewart, Campbellville, Ont.

Joseph Leguoc, an engineer fell from the tower of Notre Dame cathedral, Montreal, Monday, a distance of 100 feet, and was instantly killed. That distention of the stomach which many people feel after eating, may be due to improper mastication of the food; but, in most cases, it indicates a weakness of the digestive organs, the best remedy for which is one of Ayer's Pills, to be taken after dinner.

Valuable phosphate leads in the Wakefield district, about twenty miles from Ottawa, have just been discovered by a California miner named Dollar. It is a great misfortune for the young and middle aged to be gray. To overcome this and appear young, use Hall's Hair Renewer, a reliable panacea.

A DON JUAN'S FIVE WIVES.

Dozens of Women Victims of His Blandishments.

CHICAGO, Aug. 4.—Charles Loring, locked in the Court House jail here on a charge of bigamy, is accused of having five living wives, and the full list includes the names of a dozen women who have fallen victims to his blandishments. Thirty years of age, well educated, handsome and of excellent family, Loring has made a record scarcely second to that of Don Juan.

He met Esther E. Batasco, a beautiful, dark-eyed Jewish maiden; who lived in Brighton, England, and in 1884 he married her. She is in Chicago now, and is on his punishment list. How she met Loring and married him in opposition to her parents' wishes, he told her he was in the employ of the telephone supply company and possessed a fortune of \$150,000.

Loring then became entangled with a young woman in St. Paul and left his wife. He came to Chicago and secured a position with the Lake View Electric Light Company and established his home in that suburb. Just around the corner lived Aurelia Anderson, a accomplished blonde, with whom he was married on Aug. 31, 1889. About the same time the Light Company was in the hands of Mrs. Loring's husband's creditors.

For a time Loring lived in a comfortable position where he made a comfortable living. One day he returned without warning from Brighton, England, where he married Miss Batasco. Here he met Miss Florento E. Winfield, a promising young lady. He fascinated her and her parents with his captivating manner and tales of great wealth, and finally on the day Loring and his latest love, after acting as best man and maid of honor, were themselves married.

She prepared to accompany him to America, but at the last moment it was discovered that the expected draft from Loring's American partner had not arrived. The new father-in-law pawned his jewelry for \$150 and loaned the amount to Loring, who, with his bride and a ten-year-old girl, sailed for New York.

For a time they stopped at the best hotels and revelled in luxury, but finally Loring struck a streak of bad luck. His wife No. 3 pawned her wedding ring at a charity organization supported by him. He subsequently left her destitute and fled to Denver. Meanwhile Mrs. Loring No. 1 got on her feet.

When party politics run high bad feeling and bad blood are often caused, but all parties agree that when bad blood arises from ordinary causes the only satisfactory cure is Burdock Blood Bitters, nature's blood purifier. Recommended by the medical profession.

There are 500 American doctors at the international medical congress now in session at Berlin. The Root of Evil. Dyspepsia and constipation are the sources of various diseases, but root and branch may be removed by using Burdock Blood Bitters according to directions. It is endorsed by the press, the public and the profession, and cannot be excelled for the cure of constipation, dyspepsia and all diseases arising therefrom.

Joseph Rollin, a 16-year-old boy, fell over the cliff at Major's hill, Ottawa, Monday, and was killed. FREEMAN'S WORM POWDERS destroy and remove worms without injury to adult or infant.

DESTRUCTIVE HAILSTORM.

It is Estimated 100,000 Acres of Manitoba Wheat Are Ruined.

WINNIPEG, Aug. 4.—Fuller accounts of the damage done by the storm on Friday night have been received, and show the loss to the wheat crops to be greater than at first reported. At Deloraine, 200 miles south of Winnipeg, the hail belt is said to have been four townships wide, narrowing down to a mile and a half as it proceeded east, leaving destruction in its wake. Mr. Ogilvie's manager here says that 100,000 acres of wheat have been totally ruined. So far reports have only been received from the principal towns along the Canadian Pacific Southwestern Railway, and it is impossible to say yet just how extensive the damage is, but certainly it is very serious.

A Boissevain despatch says: Yesterday about 10 o'clock the sky darkened like a total eclipse. Half an hour later a severe lightning storm began. There was a deluge of water which continued to 22 o'clock. In town glass was once more badly wrecked and the Ryan House was unroofed. Crops are badly damaged south of the track. Very little is destroyed north.

MR. SHAGHNESSY'S ESTIMATE. MONTREAL, Aug. 4.—Mr. T. G. Shagnessy, assistant president of the Canadian Pacific Railway, estimates on the basis of recent telegrams that the North-west grain crop will amount to 17,000,000 bushels, of which 12,000,000 will be for export.

An Infant Killed. BRANTFORD, Aug. 4.—A sad fatality occurred in town yesterday whereby the infant child of Mr. and Mrs. T. L. Wood lost its life. The youngster was sitting on the window-sill, the mother, who was playing with it, supposing the shutters to be locked. They were not though, and the child, giving a spring fell through them to the pavement below, being instantly killed.

Thomas Quinn, an 18-year-old boy, was feeding a planer in Mr. Vanleet's mill this morning, when his left hand was drawn in. The top of the middle finger was taken off and three others were nearly severed. The canal has been allowed to run dry for the purpose of being dredged.

OUR WAYS OF BUSINESS

Have been told many times, but they need to be told again, and may have to be told many times more.

We buy and make various sorts of merchandise just as cheap as possible. We tell the truth about it all. We sell everything at the very least prices, and every time we are as low as the market, or lower. The business is simple as can be. The price is named distinctly for each article. And anything you make or save thereby is yours, not ours.

You are perhaps so accustomed to read the reckless talk of thoughtless or unscrupulous advertisers that you discount the statements of careful merchants. You know our ways, but we need to remind you again that nothing is printed about OUR goods and prices that will not bear examination. Every word is important.

We have just completed another series of reductions throughout our different departments, and the most economical buyer will be pleased and surprised at our prices. To give an instance, we are offering our All Wool French Delaines at 25c., 30c. and 40c. per yard.

Prints, Sateens, Remnants, Dress Goods, etc., at correspondingly low figures.

A glance at these goods will convince you of their value and cheapness. Other goods at proportionate reductions.
