This is the Coupon—It is Worth 10 cents to You
Only One Cake Free to a Family

Taylor's Infants' Delight

Toilet soap should do just two things—remove the dirt and nourish the skin. Let us then show you how we have blended both qualities into a single cake.

For in 43 years we have learned the secret of perfect soap—one that leaves the skin as soft and pink as an infant's. So we call it *Infants' Delight*.

The olive oil in this soap comes from the gardens of France. There we pay the highest prices—often double what we might pay. But our oil is pure enough to use on your table.

Then we bring coconut oil over 12,000 miles from the isle of Ceylon. This oil has for centuries kept the Egyptian's skin soft and beautiful in spite of the tropical sun.

Please use a single cake—then let the results decide for the future.

See for yourself how it lathers into a rich, creamy foam. Note how it wears as thin as a wafer—how it leaves the skin as soft as velvet and as smooth as silk.

Besides this it is the loveliest soap for the baby's skin. And if it is best for the sensitive, pink skin of an infant, it surely is best for your own.

You will like the dainty perfume, too. We pay over \$100 a pound for pure Otto of

Roses, but it requires 3,000 pounds of rose leaves to make a single ounce. The fragrance is simply exquisite, for it is only the scent of roses—the

breath of a million

flowers.

Taylor's Borax Soap

Here again is a soap different in every way from the ordinary—it contains borax. Where other soaps merely cleanse, this goes further—it whitens and purifies. The effect of the borax is almost magical—it is the most wonderful soap ever made for the laundry.

In this soap we use only the finest grade of coconut oil, for it lathers with greatest abundance. Then we mix in the borax which softens the water and also softens the hands.

Soft water is pure, but hard water contains mineral matters which prevent the soap from lathering. Borax makes the hardest water as soft as rain water, so you require only half the amount of soap.

It cleans the daintiest of laces as well as the heaviest of wools—and it prevents shrinkage of both. Every odor is removed and the cloth is pure and sweet. This soap also prevents starch from sticking, and adds greatly to the stiffness.

It sterilizes and destroys every germ, so as to avoid any possibility of contagion. Send a bar to the laundry and protect the health of your family.

This powerful cleanser is utterly harmless to the hands—it leaves them whiter and softer than before.

It requires twenty-one days to make a single cake. The labor of more than 200 persons is needed. Yet this wonderful soap costs no more than the ordinary. Simply because we make every year millions of cakes—we can buy at the lowest prices and give you the highest quality.

Don't Wait— Cut Out the Coupon This Minute

We ask you to do us a favor—we want you to learn for your own interests the difference between these soaps and the ordinary. You have been using some soaps in the past and you naturally consider them good.

But now we ask that you compare them with these—try them both and note how vastly they differ. We gladly invite the comparison because we have made it ourselves and we know just what must be the result.

But it would be unfair to ask you to bear the expense of the test so we have made you this generous offer. We only ask that you buy one soap and we'll buy the other. Cut out the coupon on this page and take it to your dealer this week. Pay him only 5 cents and you will then receive both cakes worth 15 cents.

BELL PHONES

Consolidating the Companies Under
One Head in the States.

Pittsburg, July 23.—Absolute control of the Central District & Pittsburg Telegraph Company, the local Bell telephone concern, is to pass into the hands of the American Telephone & Telegraph Co., according to an official announcement last night. The directors of the

local company have voted unanimously to accept the offer of the latter concern to exchange fifteen shares of its stock for sixteen shares of Central District & Pittsburg Telegraph Company stock. This is on the basis of \$135 for the local company's stock and \$144 for that of the American company.

In discussing the deal M. H. Buehler, general manager of the Bell Telephone Co., said last night:

"This is the fourth deal in a movement which will eventually extend over the entire country. The local deal has been pending for some time, and is but a part of a movement on the part of

the American Telephone & Telegraph Co. to consolidate all the Bell companies in the United States under one head."

HIS EXCELLENCY BACK.

Governor-General Was Met by Sir Wilfrid Laurier at Quebec.

Quebec, July 23.—His Excellency, the Governor-General, arrived at 10 o'clock this morning on board the R. M. S. Empress of Ireland. He was met at the landing by Sir Charles Fitzpatrick, Sir Wilfrid Laurier, and His Honor the Lieut.-Governor, Sir Alphonse Pelletier. The Excellency, after shaking hands with the distinguished people at the landing, was driven to the Vice-Regal quarters at the Citadel. He left at 2 o'clock for Ottawa.

BRIAND'S JOB.

New Premier Meets With Difficulty in Forming Cabinet.

Paris, July 23.—Aristide Briand, who was summoned to the Elysee Palace last night and charged with the task of forming a Cabinet to succeed the Clemenceau Ministry, which resigned early this week, is encountering difficulty, but while his success yesterday was

problematic, a definite decision is expected to-night.

In the event of M. Briand's failure further efforts probably will be made to induce Leon Bourgeois, the former Premier and Foreign Minister, to accept the Premiership, as otherwise the situation will become very complicated.

M. Briand had a long conference today with Raymond Poincare, the former Minister of Finance, which created the possible presumption that he is to succeed M. Caillaux, who is understood to be somewhat disgruntled.

Need fresh air—the musical composer.

TRIED TO KISS JULIA

Policeman Saves 'Em From North River; John's Bail \$500.

New York, July 23.—John Force and Julia Burns were seated on the string piece in the North River at the foot of Twenty-Sixth street, watching the swirl of the tide below them.

John grabbed Julia around the waist,

and then a policeman was aroused by a double splash.

The policeman ran to the pier and found John trying to keep frightened Julia's head above water, so he jumped in to help, and the joint efforts of John and the patrolman finally landed Julia on the pier.

Julia insisted on John's arrest on a charge of assault, declaring that John had tried to kiss her.

An unfeeling Magistrate ordered John to appear for trial, and put him under \$500 bail.

Take Time by the forelock, but don't snatch him bald-headed.
