Pastorate.

Oakville, Aug. 18.—For the induction of Rev. J. E. Munro the Toronto Presoptery meets here to-morrow afternoon, Dakville's new pastor was called from iladstone, Man., by which congregation he was released on Aug. 1. Rev. Mr. Munro succeeds Rev. Dr. John McNair, who has gone to Petrolea. Rev. Dr. Parsons, Toronto, will act as Moderator not conduct the service. The sermon roll be delivered by Rev. Geo. P. Dunan, Port Credit; the address to the minister by Rev. Alex. McMillan, Minco, and the address to the people by the conduction of Norval.

FAILED TO APPEAR.

tempt of Court.

tempt of Court.

Brockville, Aug. 18.—Charles Matthews, a Mallorytown farmer, is in Brockville jail awaiting disposition on a charge of contempt of court. Last fall he swore out a warrant for the arrest of one Harry Souch on a charge of robbing him of a sum of money in Brockville. Souch was committed for trial, but when the case came before the county judge Matthews could not be found, having left the country. The hearing was adjourned a few times, and finally the prisoner was discharged. Matthews came back to his home in Mallorytown, was promptly arrested, and handed over to the authorities here.

A sum of \$4,620 was paid at Chris-

HAMILTON GAS LIGHT COMPANY

BEACH PARK PLAN OF CONMISSIONERS

Elaborate Scheme Outlined by Mr. Van Allen, and Board Asked to Co-operate.

Twenty-Four Acre Park and Improvements to Cost About \$43,000.

meeting of the Parks Board last night over the purchase of Beach property for a public park. At a recent meeting the Board determined to purchase the pro-perty in question, but at the meeting last night it looked very much as if ast ingut it looked very much as if the former decision would be upset. Mr. Van Allen, Beach Commissioner, was present, and made a proposal which had not been heard of before, and which was lcoked upon so favorably by several members that they felt like doing away

that the Beach Commissioners were going to take immediate steps to purchase property for a public park open to the people of Ontario. He said that the Government had taken over the Beach property and made it a separate municipality, having placed over it a Board of Commissioners, which was restricted by the act to two things, first, to nrovide water for domestic use and fire protection, second, to provide a public park that the Beach Commissioners were gowater for domestic use and fire protection, second, to provide a public park for the people of Ontario which would be accessible either by water or rail. The water had been provided and the Commissioners had prepared plans for the park on both sides of the canal. The scheme outlined was an elaborate one, but coul dbe much improxed upon if more funds were available; if the city would care to join them and furnish the necessary money the park could be made equal to any in the Dominion. He submitted the schefe as follows: itted the schefe as follows

Picnic and play ground with pavilion 1,150 feet long and 125 feet wide, making 31-4 acres.

Bay front with broad walk 2,600 feet long and 175 feet wide, including children's bathing ground, making 101-2 acres.

dren's bathing ground, making 101-2
acres.

Ball, tennis and bowling ground north
of canal, 1,760 feet long and 250 feet
wide, making 10 acres.
Or a total of 23 3-4 acres.
Lake shore bathing ground north of
canal 2,400 feet long, 100 feet wide. Lake
shore, south side, with approaches from
park property. Steamboat connections
to and from the piers; railroad connections with necessary sidings at park.
Henderson property, including Mrs.
Grossman's, 900 feet long and 450 feet
wide, making 9 acres.
Freed property, 470 feet long and 400
feet wide, making 31-2 acres.
Total, 121-2 acres.
Government land, west of Freed and
Henderson property, 91-4 acres.
Estimates of cost:
Birely property purchased ...\$10,000
Pavilion, walks, etc. ... 2,000
Piling and filling on south side
of canal 20,000
Piling and filling on north side
of canal 20,000
Band stand, refreshment build.

athing houses on bay and lake

Pavilion and sidewalks already provided for, and Birely pro-perty

ssion took place at the Parka Board last night see of Beach property for At a recent meeting the det to purchase the proposed to purchase the proposed prounds being purchased by the city, he thought the land belonging to the Government would be given free but if the Park Board expected to get any financial help in equipping the park would be disappointed, as the Government would be city was going to too much expense in purchasing to a much land to be opened to the lamb to object to it.

With reference to his suggestion, Mr. A. Lees asked if the park the commissioners were negotiating for would be suitable for a public park. At its widest point it was only 125 feet, and extended a half mile or more in length. To him it seemed more like a promenade arrangement than a park for several thousand people to assemble in. He thus the suitable for a public park of Parliament lately about the purchased of the had been talking with a member of Parliament lately about the purchase of Parliame Mr. VanAllen replied that if it were a financial scheme the board was undertaking it was a different matter, but in the event of purchasing the property for a park the equipment would be no small item. By going in with the commissioners the city would obtain a park entirely furnished with conveniences for about \$20,000, and this would meet the needs of the citizens for a long time to come. If the board cared to join its forces, he advised that a committee be appointed to negotiate with the commissioners and look over the property and plans, then report later to the board. This, he remarked, was an opportunity of gettiny a good park on the bay and lake front for very little money.

Mr. Lees suggested that the plans for

of gettinn a good park on the bay and lake front for very little money.

Mr. Lees suggested that the plans for the new park be gone on with; it was the last opportunity of securing suitable property for a city park on the bay front where proper accommodation could be had. It was a case of now or never, and he felt quite confident that if the scheme was properly put before the Government the city would get assistiance from it. The people, he thought, had not yet realized just what the Beach property meant to them.

Mr. Geo. Wild suggested that if the Government would do anything to assist the Beach, it would do it at the piers, as that was a great place for amusement. He brought up the question of cost again, and reminded the board that the city had no money to appropriate for such a plan. He thought it wrong to dip in and spend a lot of money when the city is not able to improve the land already on its hands. He estimated that it would cost about \$5,000 an acre to put the proposed Beach property in good condition and equip it for a park. He said he would support Mr. Lees if the Government would agree to take the property off their hands.

Chairman Bruce thought the city was loaded down heavily enough with debt.

property off their hands.

Chairman Bruce thought the city was loaded down heavily enough with debt. There were plenty of unimproved lands when needed its attention, and he did not believe the citizens would approve of the idea of plunging into this new park game. He considered the price demanded for the land absurd, as part of it was under water. In his opinion the park proposed by Mr. VanAllen was quite sufficient for ten years at least. Mr. Lees took the stand that it was the people's interest to have the arrangements already agreed to carried out, and asked what would the city do after ten years when the apeculators

had gobbled up the property and it was no longer obtainable. It was the policy of any city to provide parks for the future. He proposed that the question be laid over until affairs were in condition for further developments and a special meeting be called later.

Mr. Geo. Hope suggested that a committee be appointed to go to Toronto and interview Hon. Frank Cochrane, Minister of Crown Lands, that they might know for sure what the Government would be willing to do, and that they are the would ask that whatever money the Government might be willing to furnish be applied to improving the piers.

The question was left over, as the City Engineer has to make out plans of the property to be submitted to City Solicitor Waddell, who will report to the Board later.

The chairman announced that, following instructions from the board, he and Mr. Wild had opened tenders for tulip bulbs, and had awarded the contract to the Steele, Briggs Company, it being the lowest bidder.

Mr. Wild reported that he did not approve of opening the ground as Woodland Park to repair the fountain there, as the seasor was late, and recommended that the work be laid over until spring. The board approved of his suggestion.

Superintendent H. Marshall reported his inspection of

ed that the work be laid over until spring. The board approved of his suggestion.

Superintendent H. Marshall reported his inspection of tree sprayers at Buffalo. He saw an instrument there operated by gas, which he approved of, and recommended the board to purchase one for next season's work. Ten were in use this season in Buffalo, and one in Toronto. In Buffalo, 25,000 trees had been sprayed by this machine, and in one day 1,500 quarts of tussock moth had been gathered. The trees there looked very healthy, which spoke well for the sprayer. The capacity of the machine was 200 gallons, and it would cost \$300; the daily expense of running it amounted to about \$1.50.

Mr. Leese wanted to know where the money was coming from to buy and operate this sprayer for the season. He would like to get an estimate on what the total cost would be, though it couldn't be done for less than \$2,500, taking everything into consideration. No definite action was decided on and the question will come up later.

The board instructed Mr. Marshall to select a reliable man to take the position left vacant by Geo. Nichol, to superintend the trimming of trees by electric light and telephone employees. Some complaints have been made about the way these men have butchered the trees and the board instructed Mr. Marshall's recommendation.

Mr. Lees asked what the board the contraction of mre Marshall's recommendation of mendation of mendation

ment on Mr. Marshall's recommendation.

Mr. Lees asked what the board
thought of purchasing a bear to keep
the lonely bruin company at Dundurn
Park. Since he has been bereft of his
mate he is said to be getting very cross
and ugly. As yet the board has not
made up its mind to purchase one.

A letter was received from the curator
of the museum, giving a list of donations recently received, as follows: Ald.

ATROCIOUS CRIME.

Shocking Treatment of Two Children by a Welland Farmer.

Welland, Ont., Aug. 18.-The town news of an atrocious crime which took place on Monday afternoon. The victim John Snyder, a farmer living a mile east of Lorraine. A warrant has been issued for the arrest of Charles C. Pope a man over fifty years of age. Pope

has fled. On the confession of Ella, her sister On the confession of Ella, her sister, Jessie, aged 14, said that she, too, had been the victim of the same man on a previous occasion. The Pope and Snyder families lived in the same house, coming from Buffalo last spring, the farms having been purchased by E. R. Pope, then a marine official under the United States Government, at Buffalo, the father of the fugitive:

Pope has a wife and son, aged 20

Pope has a wife and son, aged 20 years, who are well respected in the community. Pope has been acting very strangely this year. The Ontario police are endeavoring to obtain the man's arrest, and search is being made to-day in Buffalo.

ATTENDS AS SOVEREIGN

King Abandons Incognito in Hono Austrian Emperor's Birthday.

Austrian Emperor's Birthday.

Marienbad, Aug. S.—King Edward abandoned his incognito for a day to-day, and attended as sovereign the public ecremonies in honor of Emperor Francis Joseph's 79th birthday. The British sovereign gave a birthday bruquet at the Kurssal this evening, in the course of which he offered a toast to the Emperor, expressing the hope that he would live for a long time and exercise a mighty influence for the happiness of Austria-Hungary.

THE G. T. P.

Will be Finished by Dec. 1, 1911. Says Rivers-Wilson.

Fastest Transcontinental Trains and Fleet of Ships, Says Mr. Hays.

Vancouver, Aug. 19.—"That portion of the Grand Trunk Pacific between Edmonton and Fort William will be commonton and Fort William will be completed by September I and we expect to ride over it on our return journey to the east. The entire road will be completed by December I, 1911, in accord with the agreement between us and the Canadian Government," said Sir Charles Rivers-Wilson on his arrival here to-chy from Seattle.

The president of the Grand Trunk Company, looking hale and hearty despite his 80 years, was optimistic regarding the G. T. P.

"I am more convinced than ever," said

garding the G. T. P.

"I am more convinced than ever," said
Sir Charles, "that the Grand Trunk Pacific is going to be a great success. The
high standing of the project in England
is evidenced by the fact that recently
we were able to sell \$10,000,000 worth of 3 per cent. bonds in London within an hour. The Canadian Northwest is de-veloping rapidly." General Manager Hays was equally

General Manager Hays was equally hopeful.

"We are going to have the fastest transcontinental railroad in America when the Grand Trunk Pacific begins operations," said Mr. Hays.

"Our road has been built throughout with a four-tenths per cent. grade or a rise of 21 feet to a mile, while every other transcontinental road is not under a 2 per cent. grade or a rise of 104 teet to a mile. This means not only faster time, but lower and more economical cost of operation. We will operate a fleet of ships in the Oriental trade."

The party will visit Victoria and Prince Rupert before starting east.

HOT WEATHER

HELPS FOR HORSES. Horses become greatly fatigued the second day of a hot spell, the third day always causes some heat prostra-tions or sunstrokes, and each successive day brings more in a greatly increased ratio.

ratio.

The fatigue of the second day increases until the horse is completely prostrated, soon becoming insensible, and dying in an hour or two unless he receives very prompt attention.

Panting, usually accompanied by profuse sweating, dilation of the nostrils, hanging of the head, drooping ears slowing up, loss of animation and bloodshot eyes are the first symptoms of heat prostration.

If the horse is forced along, he ceases to perspire, staggers, and goes down.

prostration. If the horse is forced along, he ceases to perspire, staggers, and goes down.

OVERFEEDING INDUCES SUNSTROKE.

Don't overfeed. It is generally believed that horses which die from sunstroke are suffering from indigestion. To keep the stomach in good order the best of hay and oats should be used, and a double handful of bran should be mixed with each feed of oats. It is best to feed a little less in hot weather than the horse has been accustomed to.

Don't overwork. It is the overworked horse that usually gets sunstroke. He is not able to do as much in hot as in mild or cold weather, and consequently should not be loaded as heavily, nor driven as fast nor as far.

Don't neglect to water often. Horses should be watered every hour or so on a hot day. When a horse begins to pant and show signs of weakness, he should be allowed to stop in the shade and rest for half an hour. Owners should give this order to their drivers, as it will be the means of saving their animals, and consequently their money.

See that the horse is provided with some protection for his head. A driver should no more think of leaving the barn on a hot day without a blanket in winter. When stopping to water the horses it takes but a moment to wipe off their faces and heads with the moist sponge, and it refreshes the animals wonderfullly.

moist sponge, and it refreshes the animals wonderfullly. mais wonderfully.

Never let pass an opportunity to leave your horses standing in the shade. Make your stops periods of rest to your noble co-worker. If your horse is greatly overheated he should have some light covering thrown over him when left in the shade to prevent congestion.

PUT YOUR SHOULDER TO THE WHEEL.

WHEEL.

In this hot weather be careful as never before of letting the wheels get into a rut. If in spite of all precautions this happens, jump down, and put your shoulder to the wheel. Others will fall in line to assist you, and three or four can easily lift a wheel out of a place from which it is practically impossible for a horse to pill it.

The sight of a driver lashing his team until plunging about and using up enough energy to haul the load some twenty-five miles and back, the horses finally get the wheel out of the rut, leaves one either with pity for the ignorance or disgust for the brutality of the manipulator of the whip, and the act cannot help putting the driver on rather frigid terms with himself.

Do not neglect the horse's feet in summer. Many seem to think that as there are no slippery pavements the way is easy. The heat generated in the shoe by constant friction with the heated pavement is transmitted through the protecting horn of the hoof to the sensitive inner parts, and causes great distress. Take advantage of every opport

protecting horn of the hoof to the sensitive inner parts, and causes great distress. Take advantage of every opportunity to let the shoes cool off.

Never take "steaming" horses to the barn. Let them cool off the latter part of the way in, going very slowly. They should be sponged off, watered and rested before being fed.
