LONG LIVE THE TOMBOY

Do not teach our young girls that they must not pass through a tom-boy period. There is a time in which the clean boy and girl live and enjoy in the manner and after the nature of sexes animals. During this period and in Nature's own way, they come to the free principle that will be utilized to advantage at a later date when more clearly understood. Forbid the girl to ride bareback and to climb a tree, and you rob her own home of the keen enjoyment of the athletic mate when the horn calls him to the chase, or the nation's signal beckons him from her side to war. One noble mother may indeed smile through her tears at the thought that God gave her seven sons who could lay down their lives for their country. For every one of her seven sons witness a hundred who to-day clinge at the thought that their husbands find pleasure in athletic or robust interests, that momentarily lead to forgetfulness of them.—From Physical Culture for May.

With the mercury on the climb, and the ground drying like an old boot in an oven, local ball players should look to preparation for the practice that must come soon, providing present favorable conditions prevail. Other provincial towns are moving in this direction much faster than is imagined locally—it will not do to give them the bulge.

Al Shrubbs, the British crack long distance champion, and Fred Cameron the Boston Marathon champion of 1910, have been matched to run a special 12 mile race at the Boston Arena on next Saturday night. After much dickering over the distance, the race that both runners have been clamoring for, the men decided to test their mettle over the modified Marathon route.

Arthur Duffy in the Boston Post has this to say about the race: "Freddie Cameron, last year's B. A. A. Marathon winner, is taking a great change in meeting Al Shrubbs in a special 12 mile race in Boston, according to Cameron's views, however Shrubbs cannot keep his running powers forever and is bound to get a licking sooner or later. The provincial champion claims he is in better form than ever and if he defeats the little Britisher he will claim the world's championship."

John Arthur Johnson, champion arrived home from the San Francisco jail in Chicago on Tuesday. He ate five meals a day on the diner and said he was fit. Jack drove out to his home. No, not in an automobile, but in a cab, behind a horse. It was believed that this procedure be followed.

A GREAT REMEDY FOR LITTLE ONES

That is what thousands of mothers say of Baby's Own Tablets. We have received thousands of letters praising them—we have yet to receive a single copy condemning them. The Tablets cannot possibly do harm even to the newborn babe. They contain none of those poisonous drugs which make the so-called "soothing" mixtures so dangerous to the welfare of the little one. They are a scientific medicine prepared by one of the greatest specialists on childhood ailments and should be kept in every home where there are babies or small children. Mrs. Fred McCarthy, Pinewood, Ont., writes: "I have used Baby's Own Tablets and have found them a great remedy for little ones." I would not be without them. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
