N. B. FOR SPORTSMEN

(St. John Standard)

The following table compiled from the returns made by the Game Wardens will be interesting to many. It shows the number of moose, caribou and deer killed in the Province during the open season of 1911:

County	Moose	Caribou	Deer
Gloucester	167	15	90
Restigouche	64	7	77
Northumberland	456	218	576
Albert	105		173
Kings	128	4	123
Westmoreland	128	5	185
York	123	1	194
Sunbury	119	4	143
Queens	215	13	223
St. John	83		59
Charlotte	74		45
Carleton	50		30
Victoria	100	5	65
Madawaska	85	3	50
Totals	2,062	276	2,260

It is very likely that the returns from Victoria, Madawaska and Restigouche are incomplete. All of the wardens, complain of the manner in which the holders of resident licences send in their returns.

In Memory of Ernest Stewart

'Twas in the cold December,
A dark and cheerless day,
An angel came down to earth
Where a loved one dying lay:
On a calm cool Sunday evening
About the hour of four
That a spirit went to Heaven
To return to earth no more.
No parents stood beside him,
The family all were home,
They knew not what was happening
To their beloved son.

He died while coming from the woods
No one to bid Good-Bye,
Away from hearts that loved him,
But contented to die.

To see him was to love him,
For with him it was always day;
But when youth and life were fairest
Death was grappling for its prey.

How sad we are when parting
With the ones that we love best
When they leave this world forever
For to seek eternal rest.

May God look down and comfort
The sad ones here below
And grant them every blessing
In this their time of woe.

Steel Industry

For St. John.

Burton Stewart, the managing director for Canada of the firm which has signed the \$11,000,000.00 contract to improve Courtenay Bay, spoke, on April 1st, of the possibility of developing a large iron and steel industry in St. John and building steel ships on the shores of Courtenay Bay, and intimated that he was working on a proposition which might eventuate in the creation of such industries here.

TWO WOMEN TESTIFY

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their own Statements Follow.

Haliburton, P.E.I.—"I had a doctor examine me and he said I had falling of the womb, so I have been taking Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. All the bearing-down pains have vanished. I have gained ten pounds in weight, the discharge is all gone, and I feel better than I have for a long time. I think any woman is foolish to suffer as I did for the sake of a few dollars.

"You can use my letter as a testimonial. It may encourage other poor women who suffer as I did to use your Vegetable Compound."—Mrs. GEO. COLLIOTT, Haliburton, Lot 7, P.E.I.

Read What This Woman Says: New Moorefield, Ohio.—"I take great pleasure in thanking you for what your

Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing

down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other suffering women as it has me. You can use this letter."—Mrs. CASSIE LLOYD, New Moorefield, Clark Co., Ohio.

\$11,000,000 FOR ST. JOHN HARBOR

The agreement between the Dominion government and Norton Griffiths, Limited, for the development of Courtenay Bay, on the east side of St. John, was signed a few days ago. The contract involves an expenditure of upwards of \$11,000,000, the scheme calling for development of the port on a very large scale. A great deal of dredging will be done, a breakwater upwards of a mile in length will be built, and a dry dock of the largest size is included in the plan.

All Is Right.

It is easy when the sunlight
Sheds its radiance o'er my way.
Just to say and say with meaning,
I will trust in God to-day.
But when clouds the sun have hid
And my morning turns to night,
It is harder then to trust Him,
And to feel that all is right.
Bitter are the disappointments
Felt when plans are all upset,
When each castle built has fallen,
And the way seems black as jet.
Friends are sometimes known to
fall us
And we feel we stand alone.
Joys that once we loved so dearly
Now are never known.

We remember years that have been
Bright with happiness and health.
But now, sad distress and sickness
Have crept on with deadly stealth
As Thorns are growing in abundance
Where the fragrant flowers had been,
And the clouds hang dark and
threatening
Where before bright skies we'd seen.
But the pathway we have travelled
Is the pathway God has planned,
For we gave our homeward journey
Into His Almighty Hands.
He has planned it, not in anger,
But because He knows 'tis best,
And some day we'll see the reason,
Why He brought us through this test.

For the Cross we labor under
Is not greater than His Grace;
And the clouds that hang so heavy,
Cannot hide the Savior's Face.
Let us look beyond earth's turmoil,
And remember God is love,
Who but seeks to fit us truly,
For a work he has above—
Where with purer, clearer, vision,
All of mystery shall be plain:
And we'll know with certain know-
ledge,
Partly lost was heavenly gain,
Let us then leave questions till we
Stand before the Great White Throne
'Till we taste the joys of Heaven
And shall know as we are known.

WHEN EASTER COMES

"Thirty days hath September,
Every person can remember;
But to know when Easter's come
Puzzles even scholars, some.
When March the twenty-first is past
Just watch the silvery moon.
And when you see it full and round,
Know Easter'll be here soon.
After the moon has reached its full,
Then Easter will be here.
The very Sunday after,
In each and every year.
And if it hap on Sunday
The moon should reach its height,
The Sunday following this event,
Will be the Easter bright.

DO YOU KNOW

that 90% of the telephones used by Canadian farmers have been manufactured by us? We are proud of this fact, for we think you will agree with us that it is a guarantee that our telephones give satisfaction to the farmer. It was to satisfy the farmer that we spent \$10,000 in designing and developing our 1317 type Telephone Set, which contains the most up-to-date features of any telephone intended to meet the requirements of rural service.

"How to Build Rural Telephone Lines"

is the title of a most interesting and instructive book which we have just published and which we will be pleased to send you FREE. It not only contains a full description of our telephones, but it also tells the complete story of the organization and construction of a Rural Telephone Company from the time the first pole hole is dug until the last telephone is installed. With this book you have something definite to work on and can go among your neighbors and organize a community-owned system in your own locality. The book costs nothing—write and ask for Bulletin No. 786 and we will send it FREE.

We introduced the System that Superseded the Tailor

THE value of the Fit-Reform policy is shown by its adoption, not only in Canada, but in other Countries as well.

This policy is simply this—to give men the best hand tailored garments, of the best materials, at reasonable prices.

Specialization in tailoring—concentration in details—economy in buying—make reasonable prices possible.

We show the strength of the Fit-Reform policy with the elegant Springfield Overcoats pictured above—guaranteed unconditionally—\$18 up.
