

# AROUND THE CITY

**LOCALS.**  
From Friday's Bulletin.

Messrs. Harris & McMillan have opened "Mac's Cigar Store" at the Canadian Bank of Commerce.

Mrs. Underhant of Bellamy street was taken yesterday to the Public Hospital for treatment for appendicitis.

Mr. Vernon Barford will give an organ recital in All Saints' Church after the evening service on Sunday.

At the police court this morning two drunks were fined each \$5 and costs. They both pleaded guilty to the charge.

The Ladies' Musical Society will meet at Miss Ching's studio, 767 Fifth street, tomorrow afternoon at four o'clock.

The adjourned hearing of the case against the two east-end butchers for alleged violation of the early closing by-law will be resumed at the police court tomorrow morning.

The new telephone directory, just from the hands of the printers, is being issued. The directory is in book form and is a big improvement on the last issue.

The Mounted Police are investigating a case of horse shooting at Rabbit Hills. More than a hundred animals shot were taken from the shoulder of the animal.

McDougall avenue was re-opened yesterday to the general public. The bus drivers and teamsters, who formerly had to drive around the block much appreciate the shorter trip.

It is expected that the work of taking the city census will be completed by the Yale Hotel enumerators and the Temperance and Moral Reformers this evening. Some difficulty is being found in getting the figure from houses that are not occupied during the working hours of the day.

R. Tandy, of Kingston, has come to Edmonton to take a position in the Bank of Montreal.

Premier Scott of Saskatchewan is the guest of Lieutenant-Governor Buleva at Peaches this week.

Great efforts are being expended on the coming lacrosse club ball, which promises to be a great success.

The regular weekly matinee of the Edmonton Driving club will be held this afternoon and evening at 2:30.

W. Widdes, accountant of the Union Bank, has been appointed manager of the branch at Cochrane. E. W. Bell will succeed Mr. Widdes as accountant here.

Mr. McAulay, of Leduc, who was brought to the Public Hospital some time ago suffering with blood-poisoning, had his finger amputated yesterday and is much improved.

A meeting was held in the Conestoga club rooms last evening. Dr. H. E. Smith was the chairman. The speakers were J. R. Lavelle, ex-M.P. Strathcona, and J. D. Hyndman, president of the Fraternal Association.

Mr. McClellens, of the Belias Hotel, entertained a large number of young people last night. Games and dancing were enjoyed by the guests and a pleasant evening spent. An excellent orchestra provided music.

Rev. Dr. Stackhouse, superintendent of the city mission, and Rev. M. Sneyd are expected to arrive in the city tomorrow. It is likely that Rev. M. Sneyd will conduct the service in the Synagogue Avenue Baptist church.

Miss Bessie Dobson has joined the forces of the Grand Trunk Business college as special typewriter instructor. Miss Dobson has had five years office experience in Toronto and three additional years' teaching. She is very highly recommended and will doubtless prove a valuable addition to the college faculty.

**BUILDING PERMITS.**  
At the office of the building inspector this morning, permits were taken out for the following structures:  
Wm. McRoberts, dwelling, Picard \$1,200.  
J. McDonald, addition to dwelling Kintinist, \$300.  
A. W. Holman, addition to dwelling Fourteenth, \$300.

**PRESENTATION TO ALD. SMITH**  
The mayor, aldermen and council members of the "Damon and Pythian" play by the Pythian Dramatic club, Mr. Gu-Hitner, one of the leading men of the Howard Company, who are now playing at the Edmonton Opera house was agreeably surprised by being presented with a handsome case by the officers and caste of the Pythian Dramatic Club, as a slight token of appreciation for the valuable service which he has rendered to the club during his stay in the city. Mr. Gu-Hitner was present at two or three rehearsals of the dramatic class, and has greatly aided by his excellent and useful suggestions, the work of the class. He has played the part of Pythias in the play in question in former years, and this fact, coupled with his wide professional knowledge, enable him to assist the class to a very great extent. The presentation was accompanied by a well-worded address by Past Chancellor MacIntosh, of Edmonton Lodge No. 22. Mr. Gu-Hitner replied in appropriate terms of thanks and appreciation. It will be of interest to many to know that both Mr. Gu-Hitner and Mr. Howard were found in their praises of the progress of the class and predicted an excellent presentation of the play on the evenings of October 31 and November 1, which is being given by the Pythian Dramatic club, and which is entirely composed of the members of the two lodges of the Knights of Pythias in the city.

**U.S. Alaskan Judge Quits.**  
Washington, Sept. 27.—President Roosevelt today received a letter from Judge Wickorsham of Alaska and it is announced that Judge Wickorsham's resignation is accepted. Charges of a serious character have been made a number of times against the judge who has served a number of years through several appointments, his nomination not having been confirmed.

**PEMBINA.**  
Bulletin News Service.  
The fact that several binders are being bought by settlers around here is a total failure this year. It is said that the local government will be asked to intervene and in some manner reduce the exorbitant rates being demanded.

**Pythians Honor Guy Hitner**  
At yesterday afternoon's rehearsal of the "Damon and Pythian" play by the Pythian Dramatic club, Mr. Gu-Hitner, one of the leading men of the Howard Company, who are now playing at the Edmonton Opera house was agreeably surprised by being presented with a handsome case by the officers and caste of the Pythian Dramatic Club, as a slight token of appreciation for the valuable service which he has rendered to the club during his stay in the city. **Insurance Rates Too High.**  
Winnipeg, Man., Sept. 27.—It was learned this morning that an agitation is being started among the business men of this city and an effort will be made to have reduced fire insurance rates in the city.

**At the office of the building inspector this morning, permits were taken out for the following structures:**  
Wm. McRoberts, dwelling, Picard \$1,200.  
J. McDonald, addition to dwelling Kintinist, \$300.  
A. W. Holman, addition to dwelling Fourteenth, \$300.

**A COMPLEX RUNAWAY.**  
This morning a Canadian Northern express wagon was standing in front of the Imperial Bank, when the horse became frightened at a passing automobile, and bolted, spilling the contents of the wagon on the ground. A case of eggs was badly damaged. In falling, the wagon impinged on W. Dickson's runabout, breaking one of the wheels and seat. The name of the owner of the automobile is not known.

**TENT THIEVES CAPTURED.**  
The police made a round-up of alleged tent thieves this forenoon, and five young lads, ranging from ten to fifteen years of age, are now at the station, and a number of others, it is expected, will be captured before evening. The ring-leader is a young boot-black named Harry Tony, who has figured in the court a number of times recently. Stolen goods have been found in the possession of some of the lads, and it is thought by the police that they are responsible for many of the thefts from tents reported to the police during the past few weeks.

**WERE IN A STORM.**  
Mr. A. F. Ewing and C. F. Newell have returned to the city after spending a few weeks in Ontario. On their return trip they had a very thrilling experience on Lake Superior.

**They shipped from Sarnia on the Marquette for Fort William. The second day out of Sault Ste. Marie they encountered a terrible storm. The rudder was wrecked, the boiler cracked, and the vessel was rendered useless. The rudderless vessel was left helpless on the trough of the waves. The rolling of the vessel dislodged some of the cargo, consisting of several barrels of molasses. The barrels tumbled into the pit of the engines, forcing the engines to stop. The vessel was thus leaving the vessel doubly helpless in the trough of the sea.**

**Messrs. Ewing and Newell were rescued from their berth by the storm. They were unable to see anything but steam escaping from the broken radiators. When they came out into the cabin they were unable to see anything but steam escaping from the broken radiators. The captain ran his vessel into a sheltered cove until the rudder was repaired. After a long and dangerous trip the vessel returned to the city.**

## BUFFALO WILL WINTER WELL.

From Friday's Bulletin.  
Bulletin Special.  
Fort Saskatchewan, Sept. 27.—The buffalo, Elk Island park, are in excellent condition for the coming winter. Many old timers in this community, who have thrived in the early days, and who say the best when they arrived from Montana last June, express surprise at the way the animals have thrived in the new home. Contrary to the opinions expressed by some not one buffalo has died since the herd was put in the park.

Sgt. Swastople, of the R. N. W. M. P., at Fort Saskatchewan, has made an examination of the herd, and reported their health was good, and that there was no mange.

The buffaloes are not so wild as when they were first put in. Mr. Simmons, who is in charge of the park is able, along with his assistants, to ride among them with safety and without alarming them. But should a strange rider appear they flee to the timber at once. The three buffaloes that escaped when they were first put into the park are still at large, and have been occasionally seen at various points in the vicinity of the park all summer, though repeated attempts to capture them have failed. The young calf that was taken by Mr. Aclon, of Lamont, to raise, is now grown well, and is now with its fellows in the park. It is quite tame and may be often seen loitering around the keeper's tent.

At present there are a few elk in the park, and it is the intention of Frank Walker, who has taken a prominent part in organizing the park, to have a drive and beat the south side of the Saskatchewan river and secure a number of moose and elk. It is expected that the hunt will be completed in a few days.

The caretaker's house is under construction and commands a fine view of the park and lake. The island in the lake is much talked of as a suitable summer resort for the citizens of the Garrison Town, and also of the Capital City.

## Strathcona News

**ELECTRIC CARS FOR STRATHCONA.**  
From Friday's Bulletin.

A special meeting of the Strathcona city council will be held this afternoon to consider the question of the proposed agreement between the Strathcona Radial Tramway company and the city. In these negotiations the city solicitor, F. C. Jamieson is acting as the company of which he is a prominent shareholder, the city will have the services of J. R. Lavelle. Mr. Lavelle has had considerable experience in negotiations of this kind and his advice will be very valuable.

The granting of a franchise to the company has assumed new interest at the present time owing to the proposal of the English capitalist to purchase the Edmonton system. The Strathcona city council are very favorably disposed towards granting a franchise to the Strathcona Radial tramway company, and the only question now to be arranged are minor ones.

It is proposed to extend the electric lines next summer beyond the bounds of the city, the first branch in all probability running out to Cook's Lake. It is generally believed that a tramway to this well known point will be very profitable, and it is public a new means of week-end enjoyment would also prove a valuable asset to the city from an agricultural standpoint.

It is altogether probable that an effort will be made, should the Edmonton franchise be secured, to obtain the Strathcona franchise also. From present indications a good large sum would have to be forthcoming before it would be disposed of.

**MAY GO TO STRATHCONA.**  
There is a strong probability that the big manufacturing plant of the International Heating and Lighting Co., of Cleveland, may yet be located in Strathcona. Cyrus Eaton, who is looking around for a suitable site, has been in consultation with a number of Strathcona people and it is believed that very soon a party will be coming from the south side of the river. The benefit derived from the establishment of the plant in Strathcona would be immense and realizing this the people of the southern city will leave no stone unturned to secure it.

**LOCALS.**  
The ladies of Holy Trinity church held the second of their socials last night at the home of Harvey Wilson, 127 Railway street. Many enjoyed the time well spent by those in attendance.

J. M. Kinmar has returned from the city where he has been for some weeks in the Bank of Nova Scotia branch there. During his absence Mr. Kinmar took part very creditably in the "Cyrus Eaton" tour.

The case against John Orizey for assisting arrest and assaulting Officer Forester, was heard by Magistrate Dighton and Ritchie yesterday and was adjourned, the magistrates disagreeing as to the powers of the court to arrest without a warrant.

No progress has yet been made in capturing the assassins of Watchman Shear of the Brunswick-Rev. Dow has now pretty well recovered from the effects of his rough handling. As no definite news has been received, who made the attack can be obtained the work of the police is hard.

The first dance given by the non-commissioned band, C.M.R., at Tip-top's rooms last night was a great success. About seventy couples were present. The arrangements were in the hands of a committee composed of Sgt. Major Tiche and Sgt. Wapshot and Tipton.

The pupils of the city schools will hold their regular field day sports this afternoon at the agricultural fair grounds. The sports are under the management of Fred Mark. Dow has now pretty well recovered from the effects of his rough handling. As no definite news has been received, who made the attack can be obtained the work of the police is hard.

The school field day of the Strathcona city schools was observed yesterday afternoon at the agricultural fair grounds. The weather conditions were excellent, and the large number of spectators in addition to the hundreds of children present all enjoyed themselves immensely.

The school field day is now an established institution, for the pupils and is regarded by both the board and the teaching staff as one of the important events of the school year. And it is well that they should do so, for it encourages clean, healthy sports, honorable rivalry and promotes the interest in the general school work. Nothing could be more instructive than the excellent manner in which the school sports were carried on yesterday afternoon.

The committee, under the chairmanship of Mr. A. L. Marks, had the arrangements made perfectly, and consequently everything passed off without a hitch.

The success of the afternoon was also in a large measure due to the expert assistance of the gentlemen who gave their services as judges, viz. Dr. McIntyre, M.P.; Rev. W. R. George, Eric McLean, R. P. Lewis, A. G. Baalim, Dr. Fuller and Arthur Davies.

The following are the results:  
**Boys' Department.**  
Section 1, seniors:  
100 yards dash—1, Newman, fountain pen; 2, Fleming, knife; 3, Fleming, pocket knife; 4, Rogers, sweater; 5, Carmichael, book.
