Alrealy old Democratic war horses

Future Presidents.

Washington, Dec. 5-President; the power to elect a legislature Taft's message to the two houses of govern an immense territory to which congress was read this afternoon. At they hav ea relation so little permthe very beginning he tok up the mat- anent. It is far better for the developter of arbitration, the fisheries dispute ment of the territory that it be combetwen the United States and Great mitted to a commission to be ap-Britain receiving first attention. He pointed by the executive, with limit-United States and Great Britain, which to continue the present insufficient has been the source of nearly continu- government with a few remedial powous diplomatic correspondence since ers, or to mtke a popular government the fisheries convention of 1818, has given an award which is satisfactory dation upon which to rest it." gation for the job.

It is generally under to both parties. This arbitration is particularly noteworthy not only because of eminently just results secur- and Nelson W. Aldrich down. There ed, but also because it is the first ar- is one otable difference in the as bitration held under the general ar- sembling of this session of Congress bitration treaty of April 4th, 1908 be- and .ny of its predecessors of recent tween the United States and Great years. It is the Democrats who are Britain, and disposes of a controversy chippie: a d cheerful, while an air the settlement of which has resisted of gloom penetrates the Republican every other resource of diplomacy, and ranks. While among the half thouwhich for nearly 90 years has been sand or so of house employees many the cause of friction between t he of whom and come to two countries whose common inter- had a proprietory right in their ests lie in maintaining the most places, the atmosphere is so densely friendly and cordial relations with black it is opaque.

Continuing, the message says:—

"Several important treaties have been negotiated with Great Britain in the past 12 months A preliminary diplomatic agreement has been reached regarding the arbitration of peruniary claims which each government has against the other. This agreement, with the schedules of claims annexed, will, as soon as the schedules are arranged, be submitted to the senate for approval.

Ilke Clayton and Underwood, of Alabama: Jilie James, of Kentucky; Bartiett o. Georgia; Broussard, of Louisiana; Flammond, of Minnesota; Bartiett o. Georgia; Broussard, of Louisiana; Flammond, of Minnesota; Candier, o Mississippi, are looking over the principal committee rooms with a sort of proprietary interest which does not decrease the Republican leaders as to schedules are arranged, be submitted to the senate for approval.

Ilke Clayton and Underwood, of Alabama; Jilie James, of Kentucky; Bartiett o. Georgia; Broussard, of Louisiana; Flammond, of Minnesota; Broussard, of Levisiana; Flammond, of Minnesota; Broussard, of Levisiana; Flammond, of Minnesota; Plicity.

The plan is the first in the field and at least has the merits of simplicity.

The proposition is to make a blanket reduction of 15 to 20 per cent. In the flat the plan is the first in Continuing, the message says:-

States and Great Britain with regard to the location of the international boundary line between the United boundary line levels in 1912 it is essential that the between the United boundary line levels in 1912 it is essential that the between the United boundary line levels in 1912 it is essential that the location of the international bary party put its lf more in line with the sweeping, would be those pertainparty put its lf more in line with the sex such as woollen and cotton goods, made in Red Deer and district, in the location of the location of the location of the location of the United boundary line between the United boundary line between the United between the United between the United between the location of the locatio States and Canada in Pasamaquoddy the Republicans only held their own beef, lamb, etc. Steel and building purchase, on behalf of himself and bay and to the middle of Grand Man. in these states which were controlled material would also come in for a his associates, from Mr. E. "THE KLONDYKE'S MOTHER LODE"

The storebouse from which the famous placer creeks. Bonanza and Eldorado, received their fabulous wealth, have been uncovered on the claims of The Victoria Guich Mines, situated on the ridge at the head of Victoria and Gay guiches. The company's holdings consists of four quartz claims of about 200 acres 14 miles from Dawson, on a good wagon road and two miles from the Klondyke Mines R.R. There are two true quartz veins, between perfect walls 6 and 10 feet wide on the property, the free milling ore from which is literally encrusted with the yellow metal. Read what some of the world's greatest authorities say:

R. G. McConnell, B.A., of the Geological Survey, says in his report on the Klondyke Goldfields:

"A sample in which no free gold could be detected with the naked eye, or an ordinary magnifying glass, was assayed in the laboratory of the survey and gave 2,625 oz. of gold and 3,267 oz. of silver to the

of the survey and gave 2,625 oz. of gold and 3,267 oz. of silver to the ton."

Pro. Henry A. Meirs, D. Sc. F.R.S., Waynflete, Professor of Mineralogy in the University of Oxford, in collaboration with Professor A. P. Coleman in a report to the Musister of the Interior says: "At the head of Victoria Gulch which runs into Bonanza, a creek opposite Gay Gulch, a tributary of Eldorado, and at a height of about 2,300 feet above Dawson, has been opened, what appears to be a true quartz vein, showing nuggety gold in abundance. The gold is distinctly crystalline in character, and the crystals are of a peculiar form having a triangular outline due to the fact that they are octahedra, and in particular a remarkable variety known as "spinel twins." Now it is significant that the gold found in Victoria gulch is also crystalline and has the same characteristic outline, here then we have fairly convincing evidence that the gold found in a stream gravel is identical with that found in situ in a quartz at the head of the valley and in this instance there can be little doubt as to the origin of the gold."

Dr. Eugene Haanel, Director of Mines, a noted authority on mineralogy in a report to the department in 1902 says: "Masses of quartz were seen protruding from the surface all about the locality, and it needed only to wet the surface of the quartz with water to reveal the bright specks of gold adhering to their surface.

"Gay gulch and Victoria gulch, the former a tributary of Eldorado."

"Gay gulch and Victoria gulch, the former a tributary of Eldorado creek, the latter of Bonanza creeks, limit Victoria Hill toward the sources of Bonanza and Eldorado creeks. Above Victoria and Cay gulches, Bonanza and Eldorado creeks respectively are unproductive, below these gulches the creeks are rich. It seems a rasonable conclusion that the gold in these creeks, at least as far as they flank the side of Victoria Hill, was derived from Victoria Hill.

Mr. R. W. Brock. Director Geological Survey, says: "The district is not glaciated. Gold in the recent gravel freshly derived from its original source is similar to gold in the corresponding White Channel gravel. Many of the gold grains and most of the nuggets, enclose quartz. Quartz pebbles are found containing gold, some at least very rich in gold. The quartz of the boulders is similar to the duartz of the veins, and gold of the veins to gold of the gravels. From the foregoing and other facts, it is obvious that the gold is absolutely local in origin, derived from the basins of the pay gulches and creeks.

Fred T. Congdon Member for the Yukon stated on the floor of the

Fred T. Congdon, Member for the Yukon, stated on the floor of the use of Commons last January that some of the richest gold quartz the world was being mined close to Dawson.

Just stop and think of the immense possibilities of rich returns from the development of the claims of The Victoria Gulch mines, when two miles of the Mother Lode runs through the property from which the \$55.000.000 in placer gold has been already won from Eldorado and Bonanza creeks, the one-third the Klonydke's entire output. 100.000 shares of treasury stock of the par value of \$1 is now offered for public subscription at 25 cents per share fully paid and non-assessable.

It is not expected that any further issue of treasury stock will have to be made,
