London Reports Strike Settlement.

Italian Blockade of Fiume Raised-- And Now Its Luxemburg and Belgium--Outrages Result From Train-men Strike in U. K.

STRIKE SETTLED.
HALIFAX, N.S., Oct. 5. (Flash London).—The railway strike has been settled.

BLOCKADE LIFTED.
ROME, Oct. 4. Orders that the blockade of Fiume be lifted, have been issued by the Government, and the Italian authorities in the vicinity of Fiume have received an order to allow mail and foodstuffs to pass into the city, according to the Yoca. Military blockade against soldiers and civilians entering the city is all that is now being enforced, according to newspapers, which say the decision was made after the Government had examined and discussed a protest from the Fiume National Council.

THE KING'S MOTOR JOURNEY.
LONDON, Oct. 5. (Reuter's).—The strike has been marked by many picturesque features but none more remarkable in view of the traditions of royal progresses than Their Majesties' motor journey of 547 miles to London from Balmoral. The King returned earlier than he had intended, being anxious to get in touch with his advisers. In view of the crisis it would have been possible to have arranged for a special train, but His Majesty preferred to share the experiences of so many of his subjects and travel by road. Starting on Friday Their Majesties took the short cut across the Gramplians, over Spital, and Glenishe, through Perth, Sterling, Lanark and Carlisle and spent Friday night at Lowther Castle as guests of Lord and Lady Londale. They travelled all day yesterday via Allenby, Doncaster, Grantham, and Hatfield. Arriving at Buckingham Palace at five o'clock in the afternoon, a crowd at the gates cheered their safe arrival. The only attendants of their Majesties were Lord Stamfordham, the King's Private Secretary, and Col. Cleve Wigram, Assistant Private Secretary and Equeerry. Princess Mary remained at Balmoral. Princes Albert and Henry left Aberdeen yesterday, proceeding to London by ordinary passenger steamer. Premier Lloyd George will probably see the King to-day.

CONFERENCE CONCLUDED.
LONDON, Oct. 5. (Reuter's).—The conference at Downing Street was concluded at 4.15 this afternoon, and the bare announcement "Railway strike settled" was issued at number 10. Immediately a large crowd gathered on Downing St. and loudly cheered the announcement.

TERMS OF SETTLEMENT.
LONDON, Oct. 5. The strike of railwaymen which has been in progress upon the British railroads since midnight, Sept. 23, was settled to-day. Settlement followed a meeting between Prime Minister Lloyd George and members of the Executive Board of the National Union of Railwaymen, which was arranged at last night's conference between Bonar Law and the Conciliation Committee of the Trades Union. The official terms of the settlement are as follows:—First, work shall be

It is understood that work will be resumed forthwith.

NEGOTIATIONS BROKEN OFF.
BRUSSELS, Oct. 3. Economic negotiations between Luxemburg and Belgium have been broken off by Belgium as a result of referendum in Luxemburg under which France became Luxemburg's financial ally. The Belgium Minister in Luxemburg has been recalled.

CHICAGO AGAIN DEFEATED.
CHICAGO, Ill., Oct. 4. Cincinnati now needs but two more games to bring the world's champion flag to the banks of the Ohio. Chief Moran's Red-legged National League defeated the White Sox in the fourth game of the series, two to none. Rain caused a postponement of Sunday's game.

OUTRAGES REPORTED.
LONDON, Oct. 4. Dockmen of the West India Docks, comrades of the great war, opened the dock roads at Plymouth where the dockers struck yesterday. A meeting of railwaymen at Teignmouth last evening was broken up by ex-soldiers and sailors. A more unpleasant feature in the recurrence of outrages. An attempt was made to wreck a train near Fort William by removing the fish plates and slewing the line. A surface man who discovered the outrage was assaulted with bricks, but he escaped and reported the damage in time to save the train. Railway points in Hull were tampered with, the apparatus of a signal box at Newcross altered, and the trains in Cheshire and West Lothian were derailed, but all the damages were repaired, preventing disaster to the crowded trains. A number of strikers were fined sums ranging from forty shillings to five pounds each in London yesterday for creating disorder and assaulting workers. One striker was sentenced to three weeks in prison for aggravated assault.

HOUSEHOLD NOTES.
Mustard pickles should always go with baked beans.
Cook the custard before turning it into the pie crust.
Never put summer dresses away with starch in them.
In cold weather, warm the flour before mixing bread.
A mere dusting of flour is enough when kneading bread.
Save steps by keeping a pair of scissors in the kitchen.
Soak bacon in cold water a few minutes before frying.
The use of dirty utensils is often the cause of sour bread.
Melt the left-overs of toilet soap for a shampoo solution.
Apples can be baked with almonds and are delicious.
Young carrots should never be spoiled by a thick sauce.
Meat should be always wiped off with a clean moist cloth.

PRICE OF BACON Ordered Cut Down in Canada.
TORONTO, Sept. 29.—Definite action to reduce the price of bacon and other products of the hog, was taken to-day by the Board of Commerce at present sitting here, when an order was issued that from October 15th next, pork and hog products sold for consumption in Canada by the Canadian packing houses and other producers, shall be sold at prices practically the same as those which prevailed on March 10 of this year.
The Board further orders that the price of such products shall be still further reduced if conditions warrant it and an intimation is given that they will keep the industry under close surveillance to make further orders along this line, if found necessary.

After August 1st, they may be resumed in the light of circumstances then existing; fourth, no adult railwayman in Great Britain shall receive less than 51 shillings per week with the cost of living is 110 per cent. above pre-war level; fifth, the railway union agrees that their men work harmoniously until the men who returned to work or who remained at work during the strike nor shall there be any victimization of strikers; sixth, arrears of wages will be paid on resumption of work.

STEAMER IN TROUBLE.
BOSTON, MASS., Oct. 5. A call for immediate assistance was received from the steamer "Lake Gravel" at the Naval Radio Station here to-night. The message from the steamer, which is bound from Fowey, England, for Portugal, was in urgent need of coal, and because of the heavy weather was unable to reach a coaling port. Her position at 6.20 p.m. was latitude 44.05 north, longitude, 48.27 west.

Noble Attempts Suicide to Escape Execution.

Saturday, October 6, 1919, was the day fixed for the execution of Count Louis Bathanyi, a member of one of the most ancient Hungarian families. During the present European War Hungary has been frequently mentioned in newspapers, the Emperor of Austria being also King of Hungary, an independent State, with an area of about 124,448 square miles, or rather larger than Great Britain and Ireland, though with a population numbering only 17,463,791 at the census of 1909, instead of over thirty-seven millions like the British Isles. In March, 1918, Bathanyi was summoned by the Emperor—King Ferdinand—to form the first independent and responsible Ministry of Hungary. In compliance with this call to duty he laboured to prevent all ruptures between the sovereign and subjects, but although Hungary had also a parliament of its own, with Upper and Lower Houses, there was in it a revolutionary party, which threatened the country with a civil war. Bathanyi opposed this, and attempted once more a compromise between the king and the people. As he failed at this effort he was arrested on January 8, 1919, and after nine months imprisonment was tried by court-martial, declared guilty of high treason, and sentenced to die on the gallows on October 6, though he had never aimed at the complete separation of Hungary from Austria, and was decidedly opposed to the establishment of a Hungarian republic. He heard the sentence with tranquillity and composure, and took leave of his wife. But he endeavoured during the night to open the veins of his neck by means of a blunt paper knife, and thus to escape the indignity of being hung. He attempted was discovered, and though he lost much blood, the surgeon succeeded in saving his life. Subsequently his sentence could not be carried out, and it therefore being changed to a soldier's death, he was shot. The news of his execution caused astonishment and horror throughout the civilized world.

For Three Months Mrs. W. Campbell Lived on Biscuits

Couldn't Even Drink A Cup Of Tea—Gains Thirty Pounds After Tanlac Ends Her Trouble.

The public of to-day is accustomed to strange and unusual occurrences, and the newspapers are filled with sensation after sensation from day to day; but in spite of this the story of Mrs. Wellington Campbell, regarding her remarkable recovery by the use of Tanlac, would hardly be believed were it not for the high character of Mr. and Mrs. Campbell and the further fact that each and every circumstance can be established beyond a reasonable doubt.
Mr. Campbell is a retired farmer and rancher. They came from Kingston, Ontario, to Calgary just after the great war started and located at 901 13th avenue, West, where they now reside. Mr. and Mrs. Campbell have five sons, two of whom made the Supreme Sacrifice. Another who was badly wounded, is now working in the office of the Canadian Pacific railroad in Calgary; "I am a well, happy woman now," said Mrs. Campbell, after completing her remarkable statement, "and my husband remarked just the other day that I would not be with him now if it had not been for Tanlac."

Following is a recital of the facts just as Mrs. Campbell related them: "For the benefit of others I want to tell how my health has been so wonderfully restored by Tanlac. My age—I am now almost seventy—makes it seem all the more wonderful, and I hope my statement will be the cause of others finding health and happiness. I had suffered for thirty years or more from stomach and nerve disorders and about a year ago my health became so bad that I gave up all hope of ever getting well. My stomach was in such a bad condition that I could not eat a bite of food for weeks at a time and my nerves were shattered completely. It is impossible to describe the suffering I went through and only those afflicted the same way can have much idea. I tried every known treatment at great expense, but the results were always discouraging. For three months I lived entirely on specially prepared biscuits and could not even drink a cup of tea.
"At this time, I was very weak and delicate and my husband never expected to see me pull through, and a friend visiting us at the time went away believing she would never see me alive again. My husband finally brought me a bottle of Tanlac, having read of the splendid results others had gotten from it, and the other day he bought five bottles for me and I began to improve rapidly. I found it was correcting my troubles and soothing my stomach. In a short time it had created an appetite for me and I began to improve rapidly. Well, the results I have obtained from nine bottles is nothing less than astonishing. There has been thirty pounds added to my weight, and my health is better than at any time since my troubles began. A walk down town, which is eighteen blocks, is just good exercise for me and when my friend returned to visit me again a few days ago she could hardly believe her own eyes. I feel that I would be ungrateful not to tell others about Tanlac for I consider it the greatest of all medicines."
Tanlac is sold in St. John's by Messrs. Conroy, under the personal direction of a special Tanlac Representative.—adv.
