HANDLEY PAGE PLANE SEIZED BY U. S. CUSTOMS.

No Coal Will be Given by United States to Foreign Owned Ships.

NO COAL FOR FOREIGN OWNED SHIPS.

WASHINGTON, Nov. 6. Still hopeful that court developments at Indianapolis Saturday night point the way to an early ending of the coal strike, government agencies nevertheless put forth renewed and more determined efforts to protect the public against distress almost certain to arise from a protracted suspension of mining operations. Realizing that the country is burning three times as much coal as the mines are turning out, the railroad administration, the great coal distribution agencies through its recently created central committee, took drastic action in ordering that the supplying of coal to foreign owned ships in American ports be stopped immediately.

SUBSCRIPTIONS TO VICTORY LOAN.

ST. JOHN, N.B., Nov. 6. The Victory Loan total for New Brunswick so far tabulated is \$3,787,900, the objective being \$9,000,000. St. John and County have subscribed \$1,401,700.

SHIPBUILDING PROGRAMME.

MONTREAL, Nov. 6. One of the papers to-day outlines

a proposition believed to be under consideration, whereby important British interests behind the Canadian Steamships Co. and Vickers are trying to get 50,000 shares of Dominion Steel Company at a cost of \$3,500,000. The intention of the British interests is to embark through the Dominion Steel Co. in a large shipbuilding programme.

WANTS MANUEL BACK.

MADRID, Nov. 6. Portuguese non-archival movement has been observed on the Portuguese frontiers and it is suspected preparations are being made for the renewal of agitation to return former King Manuel to the throne, says the Elliber. The newspaper adds that the Spanish authorities have taken steps to prevent any preparations for the coup being made in Spanish territory.

MORNING POST ON THE PRINCE.

LONDON, Nov. 6. The Morning Post speaks editorially of the extraordinary enthusiasm manifested towards His Royal Highness the Prince of Wales in Canada, as inspired not only by traditional loyalty to the Royal Family but by a singular affection towards the Prince himself. The Prince is learning the business of Kingship early, continues

the Post. It is perhaps the most complex and difficult business in the world. We suggest that if there is any key to what is called the Irish problem it is in possession of the Prince of Wales. If, for instance, the Prince were to reside for a time in Ireland, the Irish people would behold not the Saxon oppressor of whom they had been told, but an English gentleman. The Irish people, whose frantic leaders call for an independent Ireland, would at least in making the acquaintance of the heir to the throne have some opportunity of perceiving what they would lose under an Irish republic.

KNIGHTED BY PRINCE.

OTTAWA, Nov. 6. Major General E. B. Morrison, K.C. M.G., was formally knighted by the Prince of Wales here to-day. Sir Edward has the distinction of being the first man the Prince has knighted and the last man on the final list of Canadian title honors.

"HANDLEY PAGE" SEIZED.

NEW YORK, Nov. 6. All hindrances to the non-stop flight from Mineola to Chicago of Vice-Admiral Mark Kerr's Handley-Page bombing machine were to-day removed by Syron R. Newton, collector of the port here. Upon payment of customs duty on it, the big aircraft was to have started this morning, but customs officers seized it, stating that Admiral Kerr had violated customs rules by not "declaring" it when he "entered" the country in his flight down the coast from Parraboro.

OPPOSITION CONVENTION.

ST. JOHN, N.B., Nov. 6. Delegates from all parts of New Brunswick are here for the opening session of the Provincial Opposition Convention to-day. The Convention, which is the first to be held in many

years, will deal with the matter relating to party policy and will also discuss the question of future leaders.

KING GEORGE'S REBUKE TO FORMER EMPEROR.

LONDON, Nov. 6. King George gave a rebuke to the former German Emperor "during an audience with the Missionary from Armenia. When the Missionary told the story of his captivity of four years, ascribing his troubles to the German Emperor, the King replied, 'Well they are finished now. The Kaiser had to run away from his country. He is well punished for all he did.'

REFUGES REFUND.

WASHINGTON, Nov. 6. The Mexican Government according to Mexico City papers has refused to refund William Jenkins, the American Consular Agent, \$15,000 ransom money which his attorney was forced to pay in order to secure the former's release after being kidnapped last month.

ANOTHER IRISH PLAN DISCUSSED.

LONDON, Nov. 5. Sir Horace Plukett, discussing the report that the Cabinet Committee on Ireland had accepted proposals providing for the creation of two separate Irish Parliaments with some form of supreme authority representative of both, reiterated the ideas he had expressed in his speech at the National Liberal Club on October 29th, when he advocated an offer of the fullest measure of self-government to the Irish people.

NO OFFER RECEIVED.

THE HAGUE, Nov. 6. The Government to-day informed the Committee of the Chamber of Deputies, that no offer has been received from the United States for the purchase of the small Dutch Colonies in the West Indies.

REPORT FOUNDED.

LONDON, Nov. 6. A report that the army of Yudenitch had been surrounded was given out on Monday apparently emanated from the phrase of that manifesto by the Bolshevik Minister of War, Trotsky, addressed to the troops of Yudenitch in which he asked for their surrender on the ground that they were being surrounded.

RETURNING TO NORMAL.

NEW YORK, Nov. 6. New York's water front which has been tied up more than a month by a strike of the Longshoremen, seemed to-day to be slowly returning to normal. Shipping Board officials reported a larger number of men than heretofore reporting for duty at the piers.

STORM IN MARITIME PROVINCES.

HALIFAX, Nov. 6. The Maritime Provinces have been swept by the worst storm since the Saxby gale, during the past twenty-four hours. The wind at one time reached a velocity of eighty miles per hour. Chebucto Head bridge water was destroyed and the fog alarm put out of commission. Several small yachts were swept ashore and wrecked. Telegraph and telephone systems were crippled. One man was killed at Dartmouth, electrocuted by a trailing wire. A schooner was swept ashore at Liverpool. Reports of further marine disasters expected as soon as communications are re-established. The gale was accompanied by an unusually high tide and much damage occasioned along the water front.

DAMAGE IN NEW BRUNSWICK.

ST. JOHN, N.B., Nov. 6. With a rain fall of more than an inch and a cold wind rising to 46 miles an hour, this city was swept by a severe storm yesterday and last night. A lot of minor damage was done to

buildings. The telegraphic services were badly crippled with the lines to the west down. Washouts on the railway are reported. This morning snow is falling.

DEMANDED HIS RESIGNATION.

PARIS, Nov. 6. Premier Clemenceau summoned this morning Albert Lebrun, Minister of Blockade, and demanded his resignation, appointing Andre Tardieu in his place. M. Lebrun is running for a constituency on the same ticket as Deputy Louis Marin, who opposed the peace treaty, and the Premier's action is based on the fact that he will not have as a member of the Cabinet a man on the list with a peace treaty opponent.

EFFECTIVE ON NOV. 28th.

PARIS, Nov. 6. The treaty of Versailles and the peace settlement with Germany will become effective, it is asserted in well informed circles in Paris, on November 28th. The signature of the

protocol and the exchange of ratifications between Germany and such Allied Powers as have then ratified the treaty will take place on that date, it is reported.

PLANS FAILED.

WASHINGTON, Nov. 6. Plans to wind up the fight over the Peace Treaty amendments miscarried again to-day, the Senate adjourning after six hours of speech making with the proposed amendments confronting it, while there had only been two in the morning.

The Eskimo as Builder.

In a recent description of the experience of the Crocker Land Expedition, Mr. Donald B. MacMillan writes of the Eskimo as a builder: It is a pleasure to see an Eskimo cut and handle snow. You cannot help admiring the skill and the dexterity with which he cuts into the surface, breaks out a block with his toes, lays it up on the wall, bevels the edges, and thumps it into place with his hand. I wonder if there are any other people in the world who attempt to build an arch or dome without support. Starting from the ground in a spiral from right to left, the blocks mount higher and higher, ever assuming a more horizontal position, until the last two or three appear to hang in the air. The last block locks the whole structure. When you go into a newly constructed igloo, it seems as if you were entering fairyland. The light filtering through the snow is a beautiful ethereal blue. Everything—the bed, the two side platforms, the wall is absolutely spotless.

Fads and Fashions.

Sweater blouses and simple skirts of knitted goods are used for sport costumes. Panna velvet is used for evening dresses, but taffeta holds good for dancing frocks. French suede gloves, mosquitoes should be worn with costumes of delicate fabrics.

PERFE Oil Heaters

FOREIGN PR

AMERICAN.

Sabotage at the Coal Mines. It has been disclosed that the astounding demand of the soft coal miners for a six-hour day and a five-day week is a deliberate act of sabotage copied after the British Socialist-Labor programme to cut down production to the point where the mines cannot operate under corporate control and the Government will be forced to take them over to sustain the life of the nation. Then so the British radical labor programme goes—labor would speed up again and begin producing.—St. Paul Pioneer Press.
