There is a Big Difference Between Native and Plantation Rubber.

Rubber arrives in this country in various forms. Plantation rubber is that which has been collected scientfor treatment. After a short delay ifically from cultivated trees: "native" rubber usually comes from the jungle. Plantation rubber is clean, light in colour, and, when seen in the creamy semi-transparent form known as "crepe," seems pretty enough to be the residents of Duckworth Street be- please you at St. Mary's .- nov6.11 used as material for a girl's summer frock.
