G. N. R. CONSTRUCTION IN PROTECTED INDUSTRIES PAY LESS WAGES THAN THE UNPROTECTED INDUSTRIES

EW YORK. Sept. 9.—Gov. Wilson made two tariff speeches here, one at the Tariff Exhibit and the other at an open-air meeting in Union Square. At the Tariff Exhibit, Governor Wilson said:

"We are preventing the prosperity of the United States, for you will observe that articles of American manufacture are sold much cheaper in other countries than we can buy them, which shows that America already is compete in foreign markets, at the same time taxing ourselves. To his auditors in Union Square

Gov. Wilson said: 'I would hesitate to advocate radical reductions in our tariff schedule if I thought it would interfere with the prosperity or the average American, but I believe it will double and treble our pros

perity." Governor Wilson declared that in the main, protected industries paid less wages than the unpro-

tected industries. He pointed to an advance of from thirty to forty perscent in the price of meat within the past ten years, while during the same period the price of meat in London has stood absolutely still.

"And. England is not big enough to produce the meat she conumes," he said, "but has to get it from America and South Africa and in spite of that she buys American meat in London thirty of forty per cent cheaper than we buy it in New York. Don't you think somebody is putting it over

He was given \$300 for this purpose, and that was the last seen of him or the \$300. In the newspaper accounts he was described as a Dominion immigration official and such was the impression of the swindled Syrians.

IS RELIEVED OF ONUS

relieved the deportment of the onus cast upon it in the recent case of a Syrian immigrant, who was swindled out of \$300 by an interpreter of his own race, alleged to be in the immigration service. Inquiry has disclosed the fact that the swindling was done by an inter-preter in the employ of the Allan line, who has disappeared with the money and has not yet been located. The story was that the immigrant arrived at Quebec and was there found to be suffering from trachoma. None suffering from this disease may be admitted to Canada, and the man was therefore notified that he would be deported. He was met at the dock by a number of fellow countrymen who had preceded him into Canada. To these people

Prompt investigation, however has shown that he had no connection with the government. He gave the Syrians a receipt of their \$300 and the steamship company when shown this prompt-ly honored it.
