Apple Crop Report.

Great Britain.—The crop will be unusually heavy and of good quality, as in Germany, Holland, Belgium and Italy, the crop is also large. United States.—Arkansas, Kansas,

Missouri, Illinois, Indiana, Southern Ohio, Eastern Pennsylvania, Kentucky, Tennessee, Maryland, Virginia, New Jersey, Nebraska, Colorado and the Pacific Coast States will have a large crop of good quality. New York will probably have as many, if not more than last year.

Maine, Massachusetts, New Hamp-shire, Michigan, Wisconsin and Minnesota will be lighter than last year. Vermont and Connecticut will have a light crop.
The United States Department of

Agriculture, in its August report, states: "Taking the whole country, the prospective product of apples is larger han for several years."

Nova Scotia.—Fairly good, particularly in the Annapolis Valley.

Ontario.—Owing to the immense crop in the United States, and consequently being practically shut out from that market, will probably export as many, if not more, to Great Britain than last year. It is quite evident that the United States this year, will require a very limited quantity of our apples, if any, it will probably be quite late in the season, and consequently our only outlet of any importance will necessarily be Great Britain, which owing to the immense crop there, will not require our apples in any considerable quantity until their own growth are practically exhausted, except at low price. Anyone can readily appreciate the fact that, owing to probably the largest crop of apples—taking the world over—there has been for years, largely of excellent quality, and too most strikingly true in the United States and Great Britain, which constitute our only markets of any consequence we can only expect large quantities to be consumed on condition that the fruit is choice and at low vised this year to handle for export IN A QUANDARY. purposes, at any price, soft, sweet or off varieties, or even seconds, as the dle only hand-picked, choice assorted sour winter apples of the well known varieties, properly packed, and at rea-

Dairy Markets. LONDON.

London, Saturday, Sept. 7,-Another very dull time was spent on the London cheese board today, and deals were scarce. Bids ranged from 7c to 7 1-2c. and were slow at that, the blockade of business being attributed to an overstocking of old cheese on the old country markets. For the same week last year prices ran as high as 10.7-16c, but even then sales were scarce. Only two lots were disposed of today—Cedar Vale at 7.3-8c. and Gladstone at 7 7-16c. Continent. — France.—The crop is heavy, in fact of all the fruits there this season, apples promise best; while this season, apples promise best; while outlining the progress of the work and pressing its pressing needs up in the body in the eastern Provinces. Mr. Spencer advocates agressive evangelization, a more vigorous effort among the different nationalities of the Northwest and the establishment of a theological seminary in Winnipeg. He believes there is no part of Baptist work more important than this just now. Mr. Spencer also thinks the sentiment of the country in relation to law, education and religion is more in harmony with the principles always enunciated by Baptists than in any other country of the world. Wealthy members of the denomination will no doubt listen favorably to the report of their delegate and to the appeal he makes.

A CALL FROM LONDON.

The congregation of the Adelaide Street Baptist Church last night, by an almost unanimous vote, decided to call Rev. Thomas S. Johnson, of Brantford. Mr. Johnson was formerly pastor of the Adelaide Street Church, and it was during his prosperous term that the edifice was built.

MAY RUN ON THURSDAY. A number of the men sent by the city engineer to the street railway company to work on the street returned to the engineer's office and said that Supt. McKay would not take them on. The engineer complained to Manager Carr, and the latter promised to hire the men provided they brought along a spade or shovel with which to handle the earth. Manager Carr has asked the engineer's permission to commence running electric cars on Thursday. Much will depend on the condition of the street and street approaches whether the cars will run or not. Today the laying of the track east will be completed, but the street is in an Hook, Toronto. impassible condition from Adelaide street east.

Also pulk hand nights? choice as in the late better keeping varieties, as the margin of profit, if any, promises to be quite small, even though the fruit is secured at small first cost. For export purposes we would therefore most strongly advise shippers to be most conservative in their buying, both as to price and quality, and hand act the motion was not dealt with it probably lapses. The board will seek advice on this point, and if the rules advice on this point, and if the rules of procedure are as interpreted a new notice of motion will be required at a regular meeting. This will block the sonably low first cost .- M. H. Peterson establishment of commercial classes or a commercial form for this week at least. As things stand the board hardly knows what business it will be lawful

to complete at tonight's meeting. AFTER A TWO-CENT RATE. The Western Ontario Commercial Travelers' Association, through its secretary, Mr. Alf. Robinson, is moving towards a cheaper rate of transportation for travelers. The present passenger rate for members of the association is 2 1-4 cents per mile, or 1-4 cent less than that given to the general public on a return trip, and with this a traveler is allowed to carry 300 pounds bag-

The western travelers have started a vigorous movement to secure a 2-cent passenger rate, with 400 pounds.baggage privilege. At present the men who carry samples have to pay as high a baggage bill as for personal transportation.

Secretary Robinson returned from Montreal Saturday night, where he had been interviewing the general passenger agents of the Grand Trunk and Canadian Pacific Railways.

No definite promises were made by the officials of either road, but they seemed impressed by his request. If the travelers can bring sufficient pressure to bear it is probable that the concessions they ask for will be granted

RAIDED THE HOUSE. Five Women and a Man A rested-Market Clerk Wilson Summoned-Horse Eats a Policeman's Flowers.

On Saturday night about 8:30 o'clock Sergt. Crawford and P. C. Gilbert Woolway made a raid on a house on Clarence streets. They arrrested five women and one man. The women were Mrs. Catharine Rodgers, Mrs. Mary Graves, Mrs. Mary Brooks, Mrs. Sarah Butcher and Mrs. Mary Brown, and evey one of them was drunk and having a hilarious time, aided by Henry Law, an elderly man, who was the soberest one in the crowd. The hilarity was suddenly stopped and the party escorted to the police station. With the exception of Mrs. Brown they spent Sunday in jail. This morning they were all in the Police Court looking much the worse for their celebration. Mrs. Graves, the keeper of the house, was discharged. She has a paralytic husband and had not been up for ten or twelve years. Mrs. Rodgers is an oldtimer, and went down for twenty days in default of a \$5 fire. Mrs. Brooks went down for the same term, and Mrs. Sarah Butcher, who made her third appearance, was assesed \$3 or twenty days. Mrs. Brown was discharged. So was Law, who was only "a friend" of Mr. Graves, and was merely on a visit to him.

John L. Johnston, lately of the firm of Leonard, Johnston & Qo., was charged by his former partner, Lew Leonard, with larceny. The case apparently arose through a misunderstanding as to the terms of dissolution. An adjournment was made until Friday at the request of the crown.

WANTED-A BREEZE

By Yankee Yachting Enthusiasts for

the Second Race. New York, Sept. 9.—The chief discussion among yachtsmen today was the weather for tomorrow. All hoped for a good breeze for the triangular race, so as to try the yachts in conditions as different as possible from those of Saturday. The weather Horton street, between Richmond and bureau, however, held out small hopes, the prognostications being for fair weather, with light to fresh winds, generally southeaster ly. There were no signs of winds from the westward and the indications were for about the same conditions as on Saturday, except that there would be less sea. Valkyrie stock was decidedly down this morning and few could be found to venture an opinion that the boat would succeed in getting even one of the races. It was thought that with smooth water, however, the British yacht might do better, but that the difference between her and Defender was too great to be overcome.

DEADLY EXPLOSION. Dubuque, Ia., Sept. 9.—Five persons were blown to instant death and three injured by an explosion of dynamite at Specht's Ferry, ten miles from this city, at 10 o'clock yesterday morning. The dead are Edward Latshaw, 35 years old, of Victory, Wis., wife and two children; Hans Bjornstadt.

Parties furnishing should attend the auction sale at Jones' auction room to-morrow, as the rooms must be cleared to make room for fair goods. Sale positively without reserve. Everything goes. J. W. JONES, Auctioneer.
