THE TERMS ACCEPTED

Queen Regent of Spain Formally Approves of Peace on McKelvey's Terms.

Washington Gave Sagasta Time to Make the Best of His Desperate Situation.

Eastern Squadron All Ready to Touch Up Spaniards in Case of Hitch.

Washington, Aug. 6.—Just a week ago today Ambassador Cambon received from the President the terms of peace that would be granted by the United States. When the department closed its doors this afternoon the Spanish government had not signified whether or not it was prepared to accept the conditions. Every day during the past week an answer has been expected, and that same feeling of expectancy prevailed at the close of the week. It is significant that all responsible government officials were satisfied that the terms will be accepted by the American terms which it does come. About 2,200 Secretary Theibault of the French embassy called at the state department, this giving rise to the supposition that he was seeking to make an appointment for the ambassador to meet the President to deliver the Spanish answer. This, however, was not the case. Theibault's business being connected with some of the recent seizure of the French merchant vessels by the blocking fleet and relating in no way to the Spanish peace negotiations.

It was the belief of the officials when the day closed, that there is now little likelihood of its receipts by the President before Monday. It is realized that Sagasta probably is making the struggle of his life to bring the Spanish party leaders to the point where they will agree to stand by him in his acceptance of the terms of peace.

Notwithstanding statements to the effect that the Spanish fleet on the Spanish coast by the Eastern Squadron has been abandoned, Secretary Long stated this afternoon that no change has been made in the plans of the department respecting that squadron.

The war department officials now say that the Spanish fleet is beginning to appear in earnest to-morrow. The Merritt-Chapman Wrecking company has informed the navy department that the Spanish cruiser Maria Teresa was to start her under her own steam to-morrow. It is expected that the Spanish party will do with this voyage, the wreckers having contracted to deliver at Norfolk any of the vessels of Cervantes' fleet which might be required.

New York, Aug. 6.—A Madrid despatch to the New York Journal says: The Queen Regent has approved the reply of the Spanish government to the United States, accepting the conditions laid down by the United States. Peace will be concluded.

Washington, Aug. 6.—The following is General Shafter's summary report, made public to-day, of the operations of the 2,532 new cases fever 424, cases fever returned to duty 601. Deaths, August 5th and 6th, 15.
