**THE OLD WORLD'S NEWS.**  
THE ENGLISH STATEMENT ON THE IRISH QUESTION.

What the Marquis of Hartington and Herbert Gladstone have to say—Two Men Brought to Death—Right Arrangements on Saturday—General Cable News.

LONDON, Dec. 17.—The Marquis of Hartington, speaking near Burnley to-day, expressed the determination of the government to bring the Irish difficulty to a successful conclusion. During the last few days there had been some hopeful signs, several convictions having been obtained from juries. The government was not and could not be an organization for collecting rents and enforcing the rights of the property owners. For that purpose there was formed in Ireland a legitimate association, which might be called the "guerrilla warfare" league. He said the power of the land league was now broken, and it was impossible for the present "guerrilla warfare" to succeed.

Herbert Gladstone, speaking at Manchester, said he found during his tour there was great exaggeration in England in regard to the condition of Ireland. The annihilation of a large number of the alarmists took their breath away. He recalled the idea of his succeeding from the liberal government. He said the power of the land league was now broken, and it was impossible for the present "guerrilla warfare" to succeed.

At a Great Session—Immense Additions to the Lake Fleet—Small Losses.

CHICAGO, Dec. 17.—The season just ended has been remarkable for the large addition to the tonnage of the lakes, while the losses have been considerably less than in 1876. The past season was not only notable for the number of new vessels built on the lakes, but also for the great size of steamships put in commission. Of these twenty-three register over 1000 tons.

**THE NORTHERN RAILWAY.**  
Major Craig steps out and Out—A Lively Meeting.

What took place at the meeting of the board of directors of the Northern railway on Thursday is beginning to leak out. It appears that the proceedings were very lively.

When the late Mr. Cumberland went to England Major Craig, one of the directors, was named as acting managing director. On Mr. Cumberland's death he continued in the office and held it up to Thursday, when he was rather suddenly asked to step down and out. At least so our information goes. It is said that changes were made against the Major, and his resignation not being satisfactory, he was deposed.

Mr. Townsend, as first announced in The World, is now the general manager.

**"GOOD-BYE, CHARLIE."**  
Judge Denham's Decision—The Child Restored to Her Adopted Parents.

On Saturday at New York, Judge Denham, in the supreme court, rendered his decision ordering the society for the prevention of cruelty to children to surrender the little actress, Corinne Kimball, to the custody of her parents by adoption, Mr. Thomas Flaherty and his wife Jennie.

The charges of contempt of court and abduction made against Mrs. Flaherty, the judge considers removed from the case on the ground that she simply acted on bad advice and subsequently made all the arrangements she could. The question of the child's religious education, raised by the society, he regards as having been put beyond his consideration by the constitution, and as to her treatment in a more worldly sense, he does not find the evidence to warrant that she be taken from her adopted parents. But, without criticizing the propriety of the statute against permitting a child to be sold to act on the stage, he thinks the provisions have been violated, and on that charge deems it his duty to hold the parents to bail in \$100 each.

**"PERSONS AND THINGS."**

Professor Bryson, M.P., of Oxford, is in Washington studying the American system of government.

Mr. Lincoln has written to friends at Springfield (Ill.) that she has completely lost the use of her eyes, and she is very weak.

The Princess Louise will spend the winter of the present season on the express orders of Sir William Jenner, who has visited the queen since the court returned to Windsor.

Frederic Arthur will not for the present encourage anything like public society events at Washington, believing that a break away from things in this way is a predecessor before anything of the kind is indulged in.
