Mr. Gladstone has fewer years than Palmerston had when he reached the height of his popularity and power, but his energy is faster and more remarkable. He is a grave man; he works harder at the great problems of state, of political and interna-tional morals, of economics, than Palme sto a ever d d. We are speaking apart from all political questions and issues; we are speak-ing from a philosophical standpoint; and we pronounce the physical and mental power dis-played by Mr. Gladstone in the last fortnight in Scotland, after five years of scarcely par-alleied labor, to be a piece of veritable athlet-icism worthy the study of young men, and a fit subject of pride to the nation.
