AT WOODGREEN SABERVALE.

The congregation spent the evening and night at Woodgreen Sabervale. There were bladed tides of sorrow and joy in the proceedings at Woodgreen Sabervale last night.

Between 300 and 400 of the members of the church and congregation partook of the social cup with cheer and good hilarity. The feasting function, for such it really was, occupied till nearly 9 o'clock.

Complimentary speeches were made as to the work and ministry of Mr. Wilson, who has nearly doubled the membership of the church during his incumbency. He was the means of the erection of the present handsome and commodious edifice, and everything which he has done has been done in his own person.

Mr. Wilson was Rev. G. M. Rutledge, Rev. C. F. Parker, and Rev. J. H. Lancelotti, Church, and Rev. J. McF. Scott, Bolton-avenue Presbyterian Church.

He has had a preparatory course of study in his own person. During the past year this success has been emphasized. Hence the hearty and joyousness of this week's closing exercises.

On Thursday afternoon the pleasant proceedings finished last night. On the former occasion Rev. Dr. Davis presided and the attendance was large, and nothing but the best of the public meeting in the church, which was well filled.

Who is the stranger that heided at Thamesville? WINDSOR, June 26.—Enquiries about town fall to throw any light upon the identity of the stranger hanging by the neck of the town. Hennessey's drive shed near Thamesville on Wednesday. He spoke with a French accent and claimed to have come from this town, but none of the parties whose names were on cards in his pocket had any knowledge of him.

He had on a pair of overalls, a blue smock and black coat, black soft felt hat and an old brush on the left side of his head.

"DANGLER" WATER BACK GAS RANGE

Springfield on the Credit, Ont. March 15, 1901. Histogenetic Medicine Association.

GENTLEMEN,—Wishing to testify to the superior merits of Histogenetic Medicine for the cure of lung diseases, I submit the following statement: Two years ago I found myself, as a result of exposure to cold and wet weather, suffering from coughs. I took a severe cold and got run down in vitality and had several spells of hemorrhaging of the lungs. I coughed great deal in the morning and some during the night. I consulted two or three physicians, one very clever Toronto physician. He treated me without medicine by hand rubbing and did me considerable good, but in the course of time the hemorrhaging returned.

Two of the physicians I consulted considered mine a serious case, and one of them gave me to understand it hopeless, and I have no doubt that consumption would soon have caused my death. I heard about the new system of medicine and consulted Dr. Rear at the head office for Canada, 19 Yonge-street, Toronto, who examined me very thoroughly and thought Histogenetic remedies would cure me in about six weeks. I commenced taking the medicine about Jan. 1, 1901. The amount of sputa rapidly lessened. There was considerable bronchitis and it soon disappeared. My strength came again with astonishing rapidity and the rapid breathing disappeared. I have not had any hemorrhaging since the first lot of medicine body generally as well as the lungs, and I am almost as well as I ever did. I can walk fast now or do anything in a hurry and not get rapid breathing or palpitation. If I am now following my usual employment and can stand any kind of weather. It is the best treatment for the lungs I have ever known, and I can conscientiously recommend it to my friends and acquaintances who may need lung treatment as far superior to any other system. Sincerely, T. M. HAMMOND.
