British Papers to be Smaller In consequence of the serious shortage of paper, at higher prices, which England is tacing, the daily newspapers are asked to be ready to make a reduction of 40 per cent. in their pre-war size. It is even hinted that the Board of Trade may force a cutting down of the supply to publishers. The latter possibility is creating alarm in the English literary world. J. McFeely B. WEAK, AILING CHILU

Made Strong By Delicious Vinol Lakeport, N. H. — "Our little girl 8 years of age was in a debilitated, run-down condition and had a stubborn cough so she was weak and ailing all the time. Nothing helped her until we tried Vinol. Then her appetite increased and she is strong and well, and I wish other parents of weak, delicate children would try Vinol."—GEO. A. COLLINS.

This is because Vinol contains the

tissue building, strengthening cod liver elements and the tonic iron which a weak and run-down system needs.

Where He Made His Money. Years ago a gentleman settled in the south of England and became very popular in the neighborhood. The county families could never discover The Most Beautiful and Durable how he had made his money, but were satisfied by his solemn assurance that Finish For Your Interior Walls is it was not in trade. Nothing could ex-ceed the ordinary gravity of his deneanor, which indeed caused him to be placed on the commission of peace, but now and then, without any apparent provocation, he would burst into

such a laugh as no one ever heard before except in one place. Where they could have heard it puzzled the county families for five and twenty years, but at last he was betraved unconsciously by his own grandchild, who, after a visit to a traveling circus, innocently exclaimed, "Why, grandpa laughs just like the clown!"—James Payn. Waterproofing Matches

A waterproof matchbox is good for emergencies, but not for a smoker's daily supply. I waterproof the matches selves by dipping them half length in shellac varnish thinned with alcohol and laying them out separately on a newspaper to dry. Shellac is better than paraffin or collodion because it does not wear off, and it is itself inflammable, like sealing wax. Matches so treated can be left in water a long time without spoiling .- Outing.

A Royal Snake Slaughterer. The "secretary bird" is one of the most precious birds in South Africa. It is royal game, and any person destroying one is liable to a fine of £50. Majestic looking birds, they stand about three feet high and generally go in pairs. They are of drab color, with black, feathery legs, and are valued for their propensity for killing snakes. Where the secretary bird is seen there are sure to be many reptiles about The bird beats down its adversary first with one wing and then with the other, at the same time trampling on it with its feet until the snake is sufficiently stunned to catch it by the head with its claws. Then the bird rises far up in the air and drops its victim to the ground to be killed. By this means thousands of venomous reptiles are destroyed.-London Scraps,

Silver Sword of Hawall. One of the most curious plants in the world and one of the greatest interest to all botanists is the silver sword. This exceedingly rare plant, with its magnificent silver spines and handsome crest, may still be found in profusion in the upper part of Kaupo gap, the southern outlet of the vast extinct crater of Haleakala, on the island of Maui. It flowers from July to October and occurs hardly any where else in the world. Even stranger is the variety known as the green sword, which occurs only in Haleakala crater and is unknown to exist else-

Prince Henry the Navigator The kingdom of Portugal counted in its royal house one of the men who hold first rank in scientific attainment and practical application. He was the son of John I. of Portugal and Queen Philippa, who was an English princess. He spent his life in sending out ships on voyages of discovery, and it was through this Prince Henry, called "the Navigator," that Columbus got his idea of seeking for a new land across the

Carrots were first introduced into England by Flemish gardeners in the time of Elizabeth, and in the reign of James I. they were still so uncommon that ladies wore bunches of them on their hats and on their sleeves instead of feathers.

## -Run-down? Tired? -Weak?

Every spring most people feel "all out of sorts"—their vitality is at a low ebb. Through the winter months shut up a great deal in heated house, office, or factory, with little healthy exercise in the factory, with little healthy exercise in the great outdoors—eating more than necessary—the blood becomes surcharged with poisons! The best spring medicine and tonic is one made of herbs and roots without aleohol—that was first discovered by Dr. Pierce—years ago. Made of Golden Seal root, blood root, with glycerine, it is called Dr. Pierce's Golden Medical Discovery. Ingredients on wrapper. It eliminates from the blood disease-breeding poisons. It makes the blood rich and pure, and furnishes a foundation for sound, physical health.

For sale by druggists; or send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10c. for trial package.

Sick people are invited to consult Dr. Pierce, by letter, free.

Peterboro, Ont.—"Dr. Pierce's Golden Medical Discovery has been beneficial to me. I have taken this medicine as a 'spring tonic,' to 'spring tonic,' to tone me up and take away the lan-guid feeling one sometimes has in spring-time, and I found it to be very good. I have also used 'Plezsant Pel-leta' and found then lets' and found then to be a very good medicine. I can

nighly recommend Dr. Pierce's medicines is being of the very best."—Mrs. John P. Brown, 216 Woodbine Ave. Dr. Pierce's Pleasant Pellets best for tomach and Liver.
