—Mr. William R. Hunter has been appointed postmaster of Bridgewater, vice Joseph Whitford, Esq., deceased.

—General instructions have been issued to accept American currency, including silver, at all points on the C.P.R. at par.

—Dr. Morse, Lawrenceston, has just received 200 cases of Hyacinth combination, edition. Call early and secure one before the 24th. 521

—The Picton Standard says they are in no haste in Cape Breton that farmers find it difficult to get enough to keep their cattle from starving.

—T. A. Langille, a former resident of Truro, has leased the American Hotel, in Annapolis, and will cater to the travelling public in the British Hotel.

—The wrecked steamer Dominion was sold at public auction for the sum of \$140. She was purchased by Capt. Brooks of Liverpool.

—Man seldom works more than three-fourths of a day, but advertisements work nights as well as days. Keep in mind this fact.

—Mr. W. E. Palfrey, of Lawrenceston, returned home from Lower Stewiacke on Tuesday last, where he had been visiting relatives and friends for some few weeks.

—On Thursday last, about 9 o'clock in the morning, a house owned by John W. O'Dell at St. John's Cove was completely destroyed by fire.

—Mr. MacLean, Esq., will not leave for the Chicago Fair until the 15th of June, and not on the date announced in our last issue.

—Dr. Morse, Lawrenceston, has a large supply of Timothy, Red Top, White and Red Clover, and all garden seeds, at low prices.

—Mrs. Fuller—Miss Sarah Freeman and husband, of Lancaster, Mass., arrived here last week and are now occupying their pleasant dwelling on Granite street.

—Cable advice from Great Britain indicates an advance in refined sugar and a rise in Montreal is expected. One refiner there has already reduced prices for granulated sugar.

—The Windsor & Annapolis Railway are selling tickets for special World's Fair trips from any point on the W. & A. to Chicago. A choice of several routes is offered.

—Having given our wholesale Milliner an open order to ship the latest novelties as they arrive, customers may rely upon getting the newest things out at J. H. Chute's, Middleton. 521

—Invitations are out announcing one of those pleasing affairs in which all are interested. The date is Friday, 7th inst., and most of the interested parties are expected to follow tomorrow.

—Mrs. Kinley, of Paradise, wishes to tender her thanks to Mrs. Charles Cover, Mrs. Guilford Cover for the beautiful treat, left at her house by Mr. G. Cover, on Friday evening last, while she was out to prayer meeting.

—They plant them by the school house, they plant them by the mill, they plant them by the church, they plant them by the store, they plant them by the mill, they plant them by the church, they plant them by the store.

—At this time of the year it is seldom that the water in the main river and in the streams is so low as at present. On many of the meadows it is so low that they can be walked over when a good time to cross the same places a boat would be necessary.

—John Lockett, Esq., is having the rooms lately vacated by Miss Lockett, thoroughly renovated and improved in appearance for Miss E. Elphinstone of the Commercial Hotel. The new department will greatly facilitate the business of the hotel and also please her many friends and patrons.

—Mr. John H. Croscup, one of Lower Lawrenceston's oldest residents, has celebrated his eighty-ninth birthday, on Wednesday last. He is a kind and obliging neighbor and was universally esteemed. He lives on the farm of his daughter, all of whom reside in the States except one, Mr. James H. Croscup, who lives in Truro.

—The Age, published in Jewett, Ohio, says "I carry but one medicine 'rad', that is Dr. C. A. Ayer & Co.'s Cathartic and would not do this were it not for the fact that it is as sure in its dealing as any other medicine and its preparations of the very highest class. The life of the editor's better half was once saved by the use of Ayer's Cathartic, and the life of the editor's better half was once saved by the use of Ayer's Cathartic, and the life of the editor's better half was once saved by the use of Ayer's Cathartic."

—The annual meeting of St. James' Mite Society was held on Wednesday evening last. Mrs. Ankey was re-elected president, and Miss Hoyt, secretary. The amount collected during the year was over \$70, which was devoted to the payment of interest on the church debt. The total amount raised by the mite society since it was first organized reaches the large sum of \$910. The rate of interest upon the church debt being now reduced from 8 per cent to 4 1/2 per cent, it is hoped that the society will be able to pay something each year towards the principal, and thus hasten the time when the debt will be a thing of the past.

—W. R. Campbell, K. Sutherland, and P. Giffkins, Esq., of the Dominion Atlantic Railway, made a trip over the Western Counties Railway last week in a special car. We are informed that they found the road in excellent condition, but notwithstanding this fact, the cargo of steel rails which lately arrived at Yarmouth, will not be put down immediately, and the roadbed reconstructed in such a way as to make the line second to none. The last express will be put on on Monday.

—MIRACULOUS ESCAPE.—In the vicinity of the property of Mr. William C. Keith at Yarmouthville is a perpendicular cliff of at least one hundred feet, and with the exception of a very small shelf about seven feet from the top, there is no other projection for quite a distance on which a cat could cling with safety. Strange it may appear, however, a fine ewe belonging to the above named gentleman, while grazing near the edge of the precipitous precipice, accidentally lost her footing directly above the shelf of rock, on which she brought up, and where she was discovered some hours afterwards by her owner. To save the life of the unfortunate ewe was a performance attended with considerable risk, not only to the animal itself, but to the person who would volunteer to make the descent. As the excitement began to grow, a hero was found in the person of Mr. L. C. Cies, a man well advanced in years, but who had spent many of his earlier days in following the trade of a slip-skip around his own body and taking another one in his hands, he lowered over the ugly cliff, and gradually working his way toward the prisoner, he succeeded in dropping the ewe over the head and successfully bringing it to terra firma, but while the business was proceeding, Mr. Keith offered the rescuer the ewe, which was declined, though had Mr. Cies accepted the gift he would have been the owner of a very respectable ewe, as the rescuer presenting each year of the ewe's life.

—The following letter appears in the Boston News. Will not our business people wake to the fact that there are thousands of men and women who will honorably work at from \$10 to \$12 per week. Boston board of education recommended that \$1000 worth of money be given to the worthy poor, would that board of admirers like to be fed on charity soup? With the business people there are in Boston, and the piles of food and clothing in store, it appears to me as a crime for people to become hungry as they have to beg on the streets for food, but some

Good Fresh Bread, for sale at Shaw & Co's.

—Rev. Edward Kennedy, of Chester and Bridgewater, is to succeed Father Daley, at Windsor.

Buy Times at the Brick Yard.

The schooner, Capt. Hickey, arrived in port on Saturday last with a cargo of Old Sydney Mine coal for Mrs. E. Fraser. After discharging she will load 40,000 bricks, shipped by the International Brick & Tile Co., and 20 tons of hay shipped by Messrs. Nelly & Crowe, for St. John's, York & T. G. Bishop.

The schooner *Tiger*, Capt. Isaac Goodwin, finished loading a cargo of 40,000 on Monday, and will sail for St. John's on Tuesday. The schooner *Atlanta* is also daily expected to carry another cargo to St. John's, N.S.

The superiority of the brick made at the works of the International Brick and Tile Company are rapidly gaining in favor with all builders, and there is no better authority for this assertion than the fact that over 1,800,000 made last year have already been disposed of, and that the manufacture for the coming season will be not less than 2,000,000. Operations, somewhat retarded by the backward and cold weather, commenced on Monday next, 15th inst.

At It Again.

Friday's *Boston News* says: The steamer *Yarmouth* from Yarmouth, N. S., and the steamer *Halifax* from Halifax, which arrived at this port yesterday, had a rather exciting race of speed on the way, in which ended in favor of the *Yarmouth*. The latter overhauled the *Halifax* at the Yarmouth, some 115 miles from Boston, and arrived at her wharf at 10 o'clock on Tuesday morning. The *Yarmouth*, during the contest, averaged about 14 knots an hour. This is the first time since these two fast provincial steamers have had, although it is not likely to be the last one.

The New Number Forty-four at Wolfville.

The Valley Telephone Company have added to their list of subscribers the Wolfville circuit, as follows: No. 36, Tower Clerk's Office. No. 130, Wm. Hardwick's residence. The circuit was completed on Tuesday, May 10th, 1893.

I am prepared to give lower prices in Windsor than elsewhere, and am offered for years. R. Shipley. 611

What Can Be Done?

When the system is overworked with impure fuel, the engine will not run, and the stomach out of order, as is often the case in spring time, there is no remedy so efficacious as Burdock Blood Purifier. It will give every trace of impure matter and restore perfect health.
